THE ROAD TO SUCCESS

The road to certain success in a business career is well defined—it lies along the path of specialized training such as the Rochester Business Institute gives. The R. B. I. does not experiment; its Commercial Courses are planned by experienced principals, who are thoroughly intimate with modern business requirements; the instruction is given by highly qualified experts; the results are efficient graduates, fully capable of holding the most desirable and best paid business positions. Write for Catalogue today. Address 172 Clinton Avenue South, or phone Main 3869.

Sleep Gently Sleep on your Never Stretch Mattress.

To awake in the morning feeling fit, you must have perfect rest. Your restful slumber depends on many things, not the least important of which is the mattress. Are energy and personal success worth the cost of sound sleep? You can't dodge natures sleep tax, she simply confiscates four months in every year. Whether you get full value for all your time in bed depends on the condition of your sleep equipment.

If a worn out lumpy mattress keeps you from going to sleep easily or breaks your rest, you lose. You miss the rebuilding of strength and energy which only deep, refreshing slumber can give.

The Never Stretch is the only positive improvement of a century in mattresses. It is made by a patented process that eliminates all the disadvantages of the ordinary mattress.

The Never Stretch cannot spread nor become lumpy: the tufts cannot pull out and it constantly retains its original, beautiful smooth appearance.

Never Stretch tickings are unusual in beauty and design and color combinations. Whether you prefer your mattress filled with curled hair, silk floss, cotton felt, you'll find a Never Stretch to insure you gentle sleep.

Ask your furniture dealer to explain why they are the best thing in sleep comfort that he has to show you. They are made exclusively by the Quality Mattress Company.

The Community Dairy.

Have you ever tried the Community Dairy milk? This is especially noted for its fine quality for babies. In these days when many city parents are constantly worried lest the milk they get for their little ones is impure, it is a pleasure to give them Community milk, noted because it is always brought to your home fresh, clean and wholesome.

This milk is handled according to the highest precepts of the milk dealers profession, secured in the most sanitary way devised, as yet, and distributed in a wholesome clean way that insures you and your children of getting milk absolutely clean and up to the requirements that every high grade milk must meet.

The delivery system of the Community Dairy is one of the best in the city, and if you care to try out this extra fine milk, call Stone 5360 and the delivery-man will stop at your residence on his next trip.

Genesee Bootery.

The Genesee Bootery at 188 Genesee Street is one of the most popular shoe stores on the west side. It is located in a very convenient location, and we would suggest that if you are looking for a good looking shoe at a very reasonable price, you give them a trial.

This store not only carries many special sales, that will be of benefit to you if you watch for them, but carry a full line at all times of womens shoes. They also have a complete line of childrens slippers and shoes.

The shoes that the Genesee Bootery carry are all of the highest quality, and you will find here shoes in all different styles, and at all different prices—whatever will fill your needs best.

The service given we are sure you will find very satisfactory, and you may rest assured that your shoes are the right ones for your feet, as only educated salesmen are in attendance.

Development of the Horse.

The earliest horse whose bones have been found was a little animal about the size of a dog. He had three toes in front and four behind. Horses seem to have appeared quite early in America, and many, no doubt, walked the very ground you are standing on, many feet below the present surface.

Horses found life easy, and as the years passed their race grew larger. They became more adapted to running on open prairie lands, where hard, firm feet served best.

Now, it is a principle of animal nature that the less surface of the body there is on the ground the better. Horses have reduced their feet to only four hard, hoof-tipped toes, but the remains of other toes still show under the skin.

Legislation in Sailor's Interests.

Plimsoll had at heart the good of sailors when he urged his bill upon the parliament of England. Unseaworthy ships were overloaded, sent to sea and sunk, for the collection of insurance so often that it did not seem a coincidence. The Plimsoll act was passed, prohibiting vessels loading to a submergence over their load-line mark which was painted on the side of the ship, and which came to be known as the Plimsoll line. This law reached beyond Great Britain, because it was applied by that government to all ships entering the British ports. While willing to protect her own sailors in such a fashion, she was not willing to give her ships unfair competition by allowing ships of other nations to overload.

All earthly delights are sweeter in expectation than enjoyment, but all spiritual pleasures more in fruition than expectation.

We are sometimes more inclined to hate one another for points on which we differ than to love one another for points on which we agree.

To be influenced by a passion for the same pursuits, and to have similar dislikes is the rational groundwork of lasting friendship.
