Coal May Become Scarce

It is always desirable to have sufficient coal on hand to provide for any temporary emergency which may arise, such as blockading of the railroads by snow or by strikes on the railroads or at the mines.

There should be a certain amount of satisfaction to have at least one month's supply of fuel ahead for all purposes. The fact that on the last day of March the agreement between the miners and operators expires, makes imperative for all thoughtful people to see that they have sufficient coal to last until warm weather and it is sometimes quite cold during the month of April.

J. M. Reddington, Coal Dealer, at 99 Main St., West, will see that you have prompt and courteous attention, if you either call or telephone your order to his office. 'Phone Main 390.

Advises Adjustments for Health

Nature is the chiropractor's only adjustments remove the pinch on the nerves and enables nature to do her part in making and keeping the body well. Ninety per cent of diseases are due to pressure upon the nerves. This pressure interferes with their functions; hence inflamation, pain and distress are manifested where these nerves end.

All diseases are prolonged until pressure upon the nerves leading to the effected parts are adjusted. The Chiropractor releases this pressure by hand and health is the result.

Ancient methods and cure-alls put but little check on disease; times have changed and science is progressing. Chiropractic adjustments, relieving nerve impregiments, permit nature to remove the cause of disease and correct abnormalities without the use of anything.
