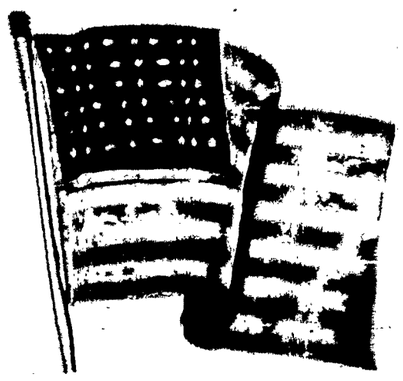
GOD'S COUNTRY



"Breathes there a man, with soul so dead,
Who never to himself hath said,
This is my own, my native land!"
—Scott

SURE, we've taken it on the chin! Sure we've had our duststorms, droughts and depressions! So what? The gilt frame may have been broken, but the picture remains unchanged.

If you ever feel your knees getting a little shaky, try this simple experiment . . . repeat these words . . . slowly:

"Before the world I AM AN AMERICAN! I envy no man. I fear no man. No man has anything I covet. No man can take away from me anything I have.

"Mine is a nation of youth, made out of a new kind of steel alloyed with the blood strains of many peoples . . . not too stubborn to bend but too strong ever to be broken.

"Within its far-flung frontiers mine is a land so broad, so rich in its hidden treasure, so vast in its resources that if we had to, we could build a fence around ourselves and live forever . . . alone.

"Mine is a people of common stature, uncursed by class . . . vaccinated against all isms, cults and imported crack-pot philosophies . . . noisy at a ball game, but dangerously silent in battle.

"My people think! Over the roar of wheels in thundering subways, in factory and field, in the depths of mines, amid the clank of tin dinner buckets, behind the drawn blinds of their thirty million homes wherever they are, even now they are thinking . . . thinking out the answers that others cannot find. And, when the time comes, they speak . . . without stuttering.

"I am proud of American inventive genius if there had even been but just these few Americans . . . Franklin, Fulton, Bell, Edison and the Wright Brothers . . . this would still be the greatest nation on earth.

"But most of all I give thanks for American business brains that have found a way to pay better wages . . . to work shorter hours . . . to pay more for their raw stuff . . . and still, with the help of mass production and mass distribution, give the people what they want **at prices they can pay.**"

. . . . .

So long as machinery continues to ease the strain on muscle and Americans after a day's work aren't too tired to play . . . nothing really serious is going to happen to . . . GOD'S COUNTRY.

. . . . .
