Retreat Days

Days of silence and prayer were in vogue at Cardinal Mooney High School this week, Feb. 3, 4 and 5. Rev. Robert McDonnell, C.S.C., directed the retreat for the boys and Rev. Thomas Tyllin, C.S.C., directed the girls. Both priests are from the Holy Cross Mission Band at Dartmouth, Massachusetts.

To assist students in their spiritual check-up, the program included Mass, confessions, confession, spiritual reading and time for private prayer. Benediction at 3:15 concluded each day's program.

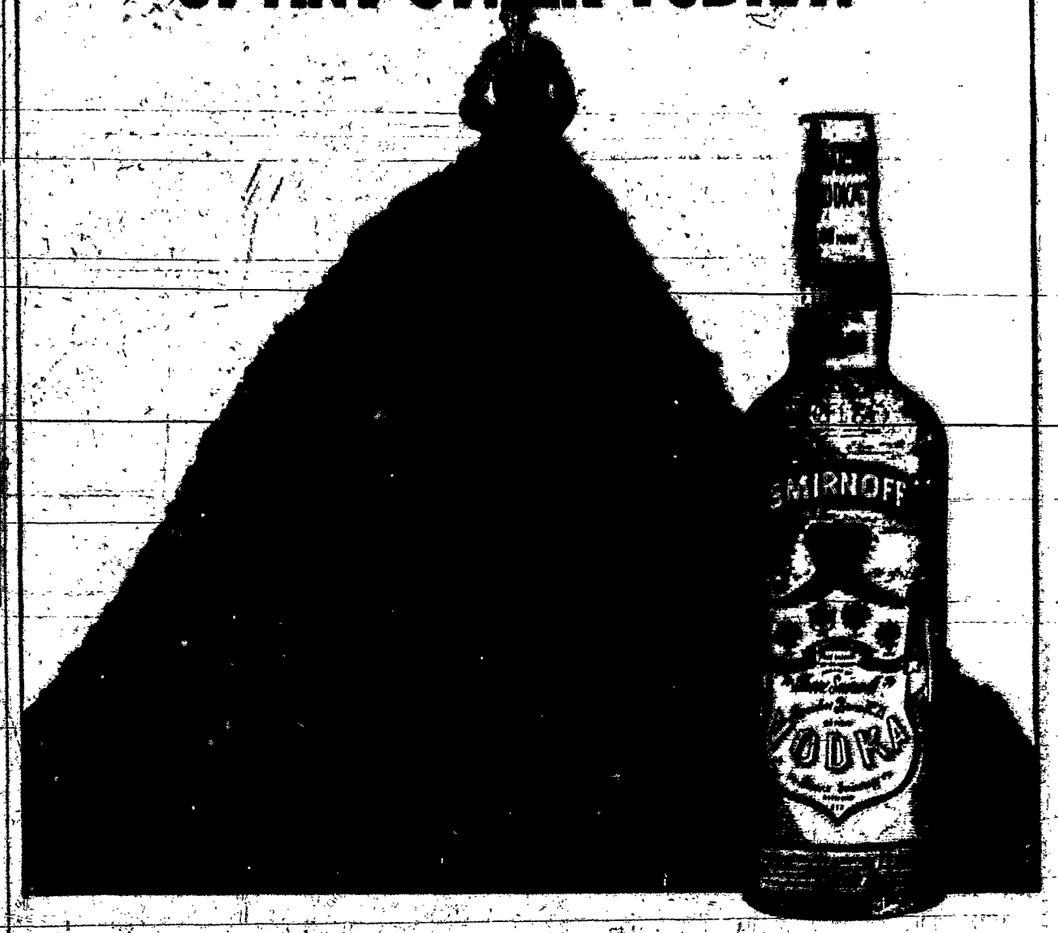
WHY SMIRNOFF INSTEAD OF ANY OTHER VODKA?



It's filtered through a "mountain" of charcoal

Of the hundreds of vodkas made today, there's not one made like Smirnoff.

Every drop of Smirnoff is filtered and refined through seven tons of activated charcoal. That's 14,000 lbs., far more charcoal filtration than other vodkas use. This "black magic" removes most of the congeners. No wonder that Smirnoff is the finest liquor in the world; crystal clear and flawless, with no noticeable liquor taste or odor.

That's why Smirnoff makes the driest of dry Martinis. Why it blends so completely in fruit juices or soft drinks. Why it's always so smooth, even on-the-rocks.

Ask for Smirnoff by name at bars and stores. Insist! Persist! Resist anything else!
