Dr. M. B. Anderson.

Rochesterians were pained to learn of the death of Mrs. M. B. Anderson at Lake Helen, Florida, Sunday last. This was changed to deep sorrow by the intelligence of Dr. Anderson's death at the same place Wednesday. The president of the University of Rochester, known throughout the entire country, has departed this life. He was closely connected with the university many years and a great portion of its reputation is due to his efforts. His death is mourned by its alumni and graduates all over the land. The deceased was born in Brunswick, Maine, in 1815. As fine a tribute to his memory as any we have seen is the following from the Morning Herald.

His commanding form has been a familiar one upon our streets for nearly four decades. The best years of his life were spent here and in old age he still stood like some rugged, snow-crowned mountain peak, enveloped in the darkening shadows which creep up its weather-beaten heights, but glowing at its summit with the mellow sunset light. So he, with his declining years, caught more and more of the heavenly radiance. "He rests from his labors but his works do follow him."

Sworn Statements of Mr. Chas. Brown.

"Drs. Clark & Freeman have made a new man of me," said Mr. Chas. Brown of 202 Clifford street, "and I think they are the best physicians in their line of practice in this city."

The above remark was made in answer to a question asked Mr. Brown by a reporter who called upon him at his home, No. 202 Clifford street. "I suffered for a long time," continued Mr. Brown but I did not know what my trouble was. All the medicine I took did me no good. In fact, my friends began to tell me people that I never would get well. I had severe pains in my chest and my breath was very short; my appetite was very poor and I had to be very careful what I did eat; after meals my stomach would feel bloated and I belched much gas; I lost flesh and became so miserable I began to give up hope, for I could see how fast I was failing; in fact I thought I had consumption and must die. My throat felt raw and was always choked up with phlegm, which was very foul; I became weak, restless, and could not sleep. It was at this time that my attention was called to Drs. Clark & Freeman, of the Medical Institute, 105 Franklin street. I called upon the doctors, and after a careful examination they said I was suffering from catarrh of the head, lungs and stomach. They gave such a correct history of and described my case so thoroughly that I decided to place myself under their care, and it was fortunate for me that I did so. In a short time I noticed an improvement. My cough left me and I gained rapidly in strength, and to-day I am a well man, and ask the public to call on me and see for themselves. Drs. Clark & Freeman have for years made diseases like mine a specialty, and I know from experience that they can treat and do treat all such cases with a certainty of success."
