Sworn Statements of Mr. Chas. Brown.

"Drs. Clark & Freeman have made a new man of me," said Mr. Chas. Brown of 202 Clifford street, "and I think they are the best physicians in their line of practice in this city."

The above remark was made in answer to a question asked Mr. Brown by a reporter who called upon him at his home, No. 202 Clifford street. "I suffered for a long time," continued Mr. Brown but I did not know what my trouble was. All the medicine I took did me no good. In fact, my friends began to tell my people that I never would get well. I had severe pains in my chest and my breath was very short; my appetite was very poor and I had to be very careful what I did eat; after meals my stomach would feel bloated and I belched much gas; I lost flesh and became so miserable I began to give up hope, for I could see how fast I was failing; in fact I thought I had consumption and must die. My throat felt raw and was always choked up with phlegm, which was very foul; I became weak, restless, and could not sleep. It was at this time that my attention was called to Drs. Clark & Freeman, of the Medical Institute, 105 Franklin street. I called upon the doctors, and after a careful examination they said I was suffering from catarrh of the head, lungs and stomach. They gave such a correct history of and described my case so thoroughly that I decided to place myself under their care, and it was fortunate for me that I did so. In a short time I noticed an improvement. My cough left me and I gained rapidly in strength, and to-day I am a well man, and ask the public to call on me and see for themselves. Drs. Clark & Freeman have for years made diseases like mine a specialty, and I know from experience that they can treat and do treat all such cases with a certainty of success."
