not be called a memorable year. There

was no great war begun or completed,

and, strange to say, there was not in all

the world a single really great battle.

In minor calamities, however, the year

was singularly prolific, and there were

some disasters of truly appalling magni

tude. More space, therefore, is re-

quired in this record for the fires, floods,

wrecks, collisions and other casualties

than for any other class of incidents.

Among these the great earthquake in

Japan stands prominent, and is perhaps

the only one that will have a permanent

place in history. In the political world

South America has been the scene of

greatest interest, while all North Amer-

CHRISTIAN EDUCATION.

Never did the important subject of Christian education receive more ing. attention than it is at present receiving. The discussion aroused by the pamphlet of Dr. Bouquillon grows more interesting each week. **Besides the** pamphlets issued by Fathers Conway and Holaind, in reply, many other poignant criticisms have been made through the columns of our Catholic contemporaries. / We give a short ex-

We believe the outcome of the present discussion will make that right more clearly understood, and that Dr. Bouquillon and his supporters will have to recede considerbly from the position they have ence taken.

It seems hardly necessary for a Catholic theologian to issue such a pamphlet as Dr. Bouquillon's. The state is never backward in taking what it can secure in the way of power, and needs not to be told of its fancied rights in educational matters.

What comes of State usurpation of parental rights is well illustra-
