

## WORLD'S FAIR NOTES.

### A GLIMPSE OF THE GREAT WHITE CITY.

Many New Buildings and Exhibits Opened to Public View—Interesting Notes on Things and Persons Connected With the World's Columbian Exposition From Day to Day.

**WORLD'S FAIR GROUNDS, Aug. 3.**—The members of the royal commission from Great Britain gave a reception at the Victoria House on the fair grounds to the members of the board of lady managers. Many others of prominence were present, including several commissioners from the British colonies and judges of British exhibitors.

Anthony Comstock of New York has come to Chicago to suppress the Dance de Ventre in the street in Cairo, Midway Plaisance. Mr. Comstock went up to the Plaisance and purchased one of the catalogues, armed with which he went to President Higginbotham's office and entered his objection. He had picked out a line in the catalogue where the dance was announced and had it bracketed. President Higginbotham said the objectionable dance was being performed in accordance with a contract.

**WORLD'S FAIR GROUNDS, Aug. 4.**—Evidence of a startling nature concerning the cold storage warehouse fire has been taken by the grand jury. The witness who gave this startling testimony was John Joseph Dugan, formerly a Stony Island avenue saloonkeeper, and the man who first told of the looting of the cold storage warehouse and its firing by a gang of robbers. He was flushed and excited with the indignation he had undergone, but said he had made a clean breast of it all.

According to Mr. Dugan there were 150 men concerned in the conspiracy, and he declared that he had given the names to the grand jury. He said that from the opening of the exposition right up to the time of the fire goods were stolen, or at least removed, from the cold storage warehouse by the wagon load. The wagons used were express wagons, though he had known of watercraft going out of the gates with tanks filled with hams, bottles of wine and other stock.

**WORLD'S FAIR GROUNDS, Aug. 5.**—Today is a red-letter day in the lives of those who rounded Cape Horn prior to 1850 in search of California gold. The observance of "Pioneer's day" in the California state building is one of the notable events of the fair. Many veteran 49ers from this and surrounding states are present.

Oct. 9 will be "Chicago Day" at the fair. The committee appointed from the common council to arrange for a Chicago day has fixed upon that date. It is the 22nd anniversary of the big fire.

The pressure brought to bear on the council of administration to take some action in regard to the Oriental dances on the Midway Plaisance resulted yesterday in the issuing of instructions from that body to the director general to immediately continue a thorough investigation of the dances in question and report to the council. Major Pangborn, president of the Associated American Exhibitors, called the dancers the "scum of the broth of the Orient."

**WORLD'S FAIR GROUNDS, Aug. 7.**—The gates of the World's fair were thrown open yesterday, but the turnstiles failed to click as merrily as on former Sundays. People who did attend the fair were either strangers in the city for a limited stay or city people who strolled out to pass a day in the cooling shades of wooded island. The buildings were open, but the majority of the exhibits were hidden beneath canvases.

**WORLD'S FAIR GROUNDS, Aug. 8.**—At the national commission meeting action was taken to settle the much debated question of creating a court of appeals in the matter of awards outside of the full committee on awards. The special committee will report against the creation of a dual body on the ground that experience has taught there would only be dissension and dissatisfaction on the part of appellants as well as commissioners. There are now enough commissioners to adopt the report of the committee indorsing Chairman Thatcher's plan. The commission will still reserve its right to review or reverse the action of the committee on awards at any time.

For four hours the board of lady managers wrangled and when the meeting adjourned the report of Mrs. Meredith, which was the cause of all the trouble, was still before the body.

**WORLD'S FAIR GROUNDS, Aug. 9.**—Hon. Clark Wallace, M. P., minister of customs for the Dominion of Canada, is a visitor at the fair. Under the guidance of Commissioner Clarke, the cabinet officer is inspecting the Canadian exhibits. He is particularly well pleased with the display made by Canadians in the agricultural and pomological sections. He thinks the exhibits superior to those of Iowa, and the finest apples grown in the world come from Apple Valley, in Nova Scotia. He denies that the annexation sentiment in the Dominion is on the increase. The exposition as a whole is beyond his expectations.

**Beecher's Hymns to Be Ousted.**  
**BROOKLYN, Aug. 8.**—There is much sorrow and much indignation among the older members of Plymouth church congregation in this city because the Plymouth collection of hymns, for nearly 40 years associated with the name of Henry Ward Beecher, is to be thrown out of the church and a new collection, compiled by Rev. Lyman Abbott, the present pastor, substituted for it.

**Working on Half Time.**  
**POUGHKEEPSIE, N. Y., Aug. 9.**—The shirt and wool pants manufactory of Hull & Co., one of the most important industries in this city, employing several hundred women operatives with a hitherto steady weekly payroll of \$1,900, and working on full time, has been compelled to go on half time.

**Dissolved the Lease.**  
**PHILADELPHIA, Aug. 9.**—The directors of the Lehigh Valley Railroad company, in view of the default of the Reading Railroad company on bills due, dissolved the lease of the road to that corporation.

**No Children on the Masalla.**  
**NEW YORK, Aug. 9.**—The steamer Masalla, from Naples, has arrived. There is a case of measles on board, otherwise the passengers are well.

**More Fighting at Coal Creek.**  
**KNOXVILLE, Tenn., Aug. 9.**—There has been another attack by miners on the coal camp at Coal Creek. One soldier was killed.

## NINE PERSONS DROWNED.

### The Pleasure Yacht Rachel Sinks in Lake George.

**LAKE GEORGE, N. Y., Aug. 5.**—The steam yacht Rachel has sunk with 29 summer guests on board. Such was the startling news that went ringing through Lake George and it was added the information that nine had been drowned and 20 saved.

The steamer was chartered by a party of guests of the Fourteen Mile Island Hotel to convey them to the Hundred Mile Island House where a dance was in progress. Mr. Phillips, manager of the hotel, Granger was in charge of the boat. He is not an experienced pilot although familiar with that part of the lake where he has been employed two seasons. The boat left Fourteen Mile Island at about 9 o'clock in the evening.

Granger got too far off the channel when going past the old piers that supported the original dock south of the One Hundred Mile Island House and stove a large hole in the bottom of the boat. The Rachel sank quickly. In fact, the passengers scarcely knew what had happened before the boat filled with water and sank. The ladies on board were laughing and singing. It was nearly 10 o'clock. Instantly the scene changed. No time was given to the ill-fated pleasure seekers to utter a prayer. Some of the passengers were caught under the shade deck and died quickly. It seemed hours before help arrived, though a dozen men were on the water in rowboats almost before the smothering of the Rachel sank from sight.

Robert Sims of Clever Falls and others, who assisted in the search for the bodies, did not give up until they had found the nine bodies.

### The Karamania Suspect.

**QUARANTINE, L. I., Aug. 8.**—Lorenzo Moraccio, aged 29 years, single, a native of Angelo Regio, province of Calabria, Italy, and a passenger of the steamship Karamania, passed inspection Saturday afternoon. Later in the evening he was found with a slight diarrhoea and immediately was isolated. During Saturday he was transferred from the steamer to Swinburne island as a suspect. The doctor in charge of the hospital reports that he is much better and will recover.

### Caught in a Belt.

**POUGHKEEPSIE, N. Y., Aug. 8.**—Samuel G. Morgan, an employee of the stone crusher a short distance south of this city, was caught in a belt and carried around a shafting making 70 revolutions a minute. He was instantly killed, the body being shockingly mangled. Deceased was 60 years old and leaves a wife.

### Killed by a Horse's Kick.

**LOCKPORT, N. Y., Aug. 8.**—Ex-Assemblyman J. Marville Harvard was kicked by a horse and instantly killed at his home near Hess Road Station. He was a prominent Democrat and highly esteemed.

### The Loss Was Heavy.

**WATERTOWN, N. Y., Aug. 8.**—The destruction of the tall mill known as No. 7 near Hallesborough, St. Lawrence county, involved a loss of from \$80,000 to \$100,000 with \$40,000 insurance.

### Big Blaze at Indian Lake.

**TROY, N. Y., Aug. 8.**—The Ordway House at Indian Lake, Hamilton county, with telegraph and express offices, have been destroyed by fire.

### Fire at Cohoes.

**TROY, N. Y., Aug. 8.**—Fire has destroyed the block containing the Miller House in Cohoes. Loss nearly \$15,000.

### Resumed Operations.

**ROME, N. Y., Aug. 8.**—The Rome Merchant Iron mill has resumed operations after a temporary suspension.

### Alfred Butler Storey Dead.

**NEW YORK, Aug. 8.**—Alfred Butler Storey, editor of Harper's Young People, has died of typhoid fever.

## TESTING IRON COLUMNS.

### Simple Device for Measuring Their Supporting Strength.

"Have you ever noticed," said a St. Louisian, "those massive iron pillars in the basement of the new Planters' house? Well, did you ever stop to think of the immense weight they will be compelled to support steadily for many, many years? Oh, you have. But I suppose you have thought the manufacturers just made those pillars and sold them without knowing how much weight they would bear or how long they would bear it. Let me tell you about that."

"Those pillars are cast in the same manner as are cast-iron stoves—by running the liquid metal into sand molds, but alongside of each pillar is cast an iron bar, from the same metal. The bar is precisely an inch square and five and one-half feet in length. When cold it is subjected to a very simple test. Each end of the bar is placed upon a table, and weights are suspended from the center by a rope. It must bear a tensile strength of 500 pounds to the square inch. The test may begin with 400 pounds and be gradually increased until the bar is found to be perfectly supporting the required weight. If it breaks, for instance, at 480 or 490 pounds then the pillar cast from the pot of metal which cast the bar is discarded broken up and put into the pot again, with more pig-iron added. The pillars, you know, are largely made from scrap-iron, and the manufacturers cannot know the strength of the cast until it is tested. The addition of pig-iron in the event of failure, brings the cast up to the standard."

"Six or eight of the pillars designed for the new Planters' house had to be recast in this way."

### LAMENT OF THE BARBER.

Why His Trade Is Not so Profitable in These Later Days.

"No, barbering is not a money making business," said Kueffner, as he deftly wielded his razor. "I know of only one man in my experience who became wealthy at it, and that was a man who used to keep the barbershop in the United States hotel in Fulton street, New York. He retired with a comfortable fortune, but he was one man in a thousand."

"Barbering was much more profitable fifteen years ago than it is to-day. At that time it was the custom for nearly every patron to have his own pomatum, face powder, hair oil and hair restorer in the rack beside his cup. It was generally believed at that time that hair could be made to grow on a bald head, and also that many of the mixtures on the market would prevent hair from falling out. But those ideas are thoroughly exploded now, due largely, I think, to the publicity given to the subject by the newspapers."

"I have no doubt that many men now bald would be well thatched were it not that they used so much hair oil. It is the exception at the present time in my shop when a man will permit me to put oil on his head, many of them preferring to have the hair combed dry. When your head becomes dirty wash it thoroughly with soap and water, and if you wish it to take on a luster like the raven's wing brush it for five minutes night and morning with a soft brush. The large income derived from the sale of the emollients referred to being now cut off, the trade of the barber cannot now be classed with that of the plumber and the coal dealer as a money-making pursuit."

### THE KILAUEA VOLCANO.

Its Condition Reported Safe for Visitors From Honolulu.

The floor of Kilauea is at certain periods subject to overflow by floods of fresh lava from Halemaunau, which will probably destroy large sections of the aforesaid trail, necessitating much labor in renewing it. This can hardly occur under two years from now, as it will probably take that length of time for the level of the molten lake to work up the 200 feet or more necessary to enable it to discharge itself on the main floor. During the last period of overflow, in 1889-90, many thousands of acres of the main floor of Kilauea received fresh coatings of lava. In the immediate vicinity of Halemaunau pit the lava coatings were piled to a thickness of from twenty to fifty feet.

Meantime, the lake, 800 feet in diameter, is overflowing every few days upon the lava floor around it, which is, perhaps, 250 feet lower than the brink of the circular pit, which is 2,400 feet in diameter. The American minister, who was there recently, counted twelve fire fountains playing in the lake at one time. In April last we measured the largest fountain with an instrument. The bellow, pulsating thrice a minute, was fifty feet in diameter, and thirty feet high. Its action was steady and incessant during the week we were there. Other fountains were more furious, but intermittent. On the whole, the present aspect of the volcano is unusually satisfactory for observation by visitors.

### Do Animals Dream?

I have two animals at home that dream and talk in their sleep very much as do human beings. One is a bloodhound and the other a canary. Late the other night, when I got home from work, I heard a peculiar muffled sound coming from the bird's cage. Stepping up to it I found it was the bird singing. He had his head neatly tucked under his wing, but was singing away on one of his favorite songs just as the sun was shining and he was enjoying to see it. Frequently during the night or day the dog I mentioned will begin to growl or bark in his sleep. Then again he will wag his tail and show every sign of pleasure at some thought passing through his brain, all the time being sound asleep.

THE OHIO CHEMICAL CO.—GENTLEMEN:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars or I would smoke from ten to forty pipes of tobacco. Have chewed and smoked for twenty-five years, and two packages of your Tablets cured me so I have no desire for it.  
B. M. JAYLORD, Leslie, Mich.

THE OHIO CHEMICAL CO.—GENTLEMEN:—Some time ago I sent for \$1.00 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured.  
Truly yours, MATTHEW JOHNSON, P. O. Box 45, PITTSBURGH, PA.

THE OHIO CHEMICAL CO.—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking and will not touch liquor of any kind. I have waited four months before writing you, in order to know the cure was permanent.  
Yours truly, MRS. HELEN MORRISON, CINCINNATI, OHIO.

THE OHIO CHEMICAL CO.—GENTLEMEN:—Your Tablets have performed a miracle in my case. I have used morphine, hypodermically, for seven years, and have been cured by two packages of your Tablets, and without any effort on my part.

## ABOUT PEOPLE.

The emperor of Germany has had a piano built for him, the case of which is made out of bits of stags' horns.

The sole descendant of Columbus is Don Christobal Colón Portugal, duke of Yeragua, grandee of Spain and marquis de la Jamaica.

Edward Simms, the British organist, who died recently at the age of 91, had the distinction of numbering George Eliot among his early pupils.

The estate of the late Bishop Phillips Brooks did not amount to much more than the sums named in his will, which, in all, amounted to \$10,500.

Florence Nightingale, the famous nurse, is seventy-two years old. She takes her baptismal name from the Italian city in which she was born.

Four grandsons of Garibaldi, the Italian patriot, have been placed by their father in the Methodist Episcopal institute in Rome to be educated.

It is not generally known that General Grant refused a salary of \$28,000 a year to take an office in the Panama canal company, on the ground that he regarded the scheme as impracticable and was unwilling to induce anybody to invest in it.

It is said of Mark Twain, now in Italy: "He is an accomplished Shakespearean scholar, was the leading spirit of the Browning students at Ontario, can read Dante in the original, and thinks that Emerson is the greatest of American poets."

Mr. Gladstone had been advised by his physician not to speak for more than two hours when he introduced his home rule bill. But the Grand Old Man declared that he must have three hours at least, and he might speak all night when he once got started.

Dr. Brown-Sequard's elixir of youth, although discredited by many American practitioners, is constantly in demand in France, and is made and sold by many chemists. The best is supplied by the discoverer himself, who manufactures it for sale in his professional laboratory in the college of France.

## CURRENT CLATTER.

The Widow—Did you marry in haste and repent at leisure? The Divorcee.—Not much—we married at leisure and repented in haste.

"I thought Duplex ordered out flowers sent up, and these are all in pots." Florist—A messenger boy is to take them, and they will be in bloom by the time he gets there.

"Stebbles seems to be getting along rapidly in politics. He is a young man of a great deal of push." Yes, but it wasn't his push that helped him along in politics. It was his pull.

"I have good news for you, Cousin Emily. My uncle has just settled all my obligations." "Is that so? Then he must have married all the girls to whom you have engaged yourself."

## AMUSING SQUIBS.

Charles—Count Maugipawli is giving it out that his family wealth is simply fabulous. Synnie—You bet it's fabulous.

"You don't seem to know me," said the ward worker to the "boss" as he unrolled his petition. "Your face is familiar, but I cannot place you."

Old Lady—Is it a genuine alligator bag? Dealer—Yes, ma'am. I shot that alligator myself. Old Lady—It looks rather shop worn. Dealer—That's where he hit the ground when he tumbled off the tree, ma'am.

"Mamma," whispered Willie, breathlessly, as he followed with eager eyes the extraordinary gyrations of the gifted tragedian who was acting the part of "Richard III." "What does he mean when he says: 'A horse! A horse! McKinley for a horse!'"

A young school matam was endeavoring to teach one of her pupils what the word "mamma" meant, and to aid her in that great task asked: "What does your papa sometimes call your mother?" "Old Seventy-six!" was the somewhat unexpected reply.
