ELMIRA, N. Y., Sept. 27.—The board of managers of the reformatory adopted a resolution declaring that no witness who shall testify before the investigating committee will be subjected to any form of severe punishment for any offense committed hereafter without the consent of the board of managers be first obtained.

The committee desired such an expression of opinion from the managers so the convict witnesses could be induced to testify truthfully without fear of future punishment.

The committee was then conducted throughout the prison by the superintendent and managers on a tour of inspection. The bathroom where the paddling is

He went up to the safe where he keeps it neatly wrapped up and tied. The committeemen smiled when told it was kept in the safe. It is about 3 feet long, the handle being of wood, 11/4 feet long, and the other end is a solid piece of leather, 11/2 feet long, 8 inches wide and 11/4 inches thick.

Six convicts who have been paddled lately were sent for and stripped. Only two showed any signs of a beating.

One man, Van Ness, who said he had been paddled 18 different times since he has been a convict here, stated that he thought two more paddlings would about end him up, and Mr. Brockway agreed

The iron bar, nine fleet long with a twofoot crook on the end, which is heated and stuck into the cells to drive refractory prisoners into subjection, was shown, but Mr. Brockway said it had not been used for several years. "Stet" cells were also visited, but the members of the commit-

tee made no comment thereon. One man who had been paddled said he had been wrongfully accused of the act for which he was punished.

This led Mr. Craig to ask if persons were not often punished. Mr. Brockway stated that all violations were inquired into before punishment was administered.

The committee will personally examine all convicts who have been paddled during August and September. They made no comment regarding this mode of pun-

The committee were then escorted to the chapel of the institution and the 1,400 convicts assembled there.

The prisoners then passed out, each one receiving an envelope and a sheet of paper. Their answers will be handed to the committee to-day. Mr. Craig thinks he will take them to Albany to sort them out. The committee will, on convening, receive in evidence the records of the administration of the institution, including the paddling record. Testimony will also likely he received from Mr. Brockway and other officiers. It is not likely that Superintendent Brockway or the board of managers will be represented by counsel. Mr. John B. Stanchfield said he would attend the sessions of the committee, but not in the capacity of counsel for anyone. The board of managers adopted a resolution
