

# HEADQUARTERS.

In all Business it is best to go to headquarters for Goods. This is known to be a fact. Why not in Dentistry, as well as in everything else?

Dr. Buchanan's Office is the Headquarters for CROWN and BRIDGE WORK. Dr. Buchanan is the only Specialist on Crown and Bridge Work in Western New York.

He makes more BRIDGES than all the Dentists in the State outside of New York city. He makes more CROWNS than all the dentists in ten States. He also supplies about seven thousand of the leading Dentists of the United States and Canada with CROWNS and BRIDGES.

The only true way to **SAVE YOUR DECAYED TEETH** is by **CROWNING** them. The only good way to supply the loss of teeth is to **BRIDGE** them. This is true of every one, but more especially is it true of public speakers or singers.

DR. BUCHANAN prepares his own local Anaesthetic for painless extraction of teeth. Dentists everywhere are using it, and say they cannot get along without it.

Be sure and go to headquarters. That is the Top Floor of the Elwood Building. Reception Parlor 44. Call and see testimonials from leading Dentists all over the United States.

### FLAMES IN GOTHAM.

Nearly Three Hundred Thousand Dollars Damage to Property.

NEW YORK, Dec. 16.—One of the largest and most destructive fires this city has had for a year broke out at the corner of Forty-ninth street and Third avenue and burned for an hour before the firemen could get it under any control. It spread in all directions and with remarkable speed. The streets were jammed by the flames, so that all four corners were damaged, two very badly, and the elevated railroad structure was saved only by persistent fighting on the part of the large detail of firemen. The fire began in one of the upper floors of a furniture factory. It was Henry Thomson & Bros' furniture store, one of the handsomest buildings on Third avenue, 13 stories high.

The following is a list of the buildings destroyed with all their contents:

No. 793 to 801 Third avenue, owned by Peter Cassidy and occupied by Henry Thoenen & Bro., furniture manufacturers. Loss to building about \$123,000 and stock about \$75,000.

No. 803, a 4-story tenement house, owned by Mr. Hagarty. Loss \$10,000.

No. 805, a tenement and grocery store, loss \$10,000.

Partly destroyed by fire and badly damaged by water were: No. 801 Third avenue, occupied by Vogel & Son; loss about \$60,000.

On Forty-ninth street, north side, three 4-story dwellings, loss about \$7,000.

### A Buffalo Blaze.

BUFFALO, Dec. 15.—The Arcade building, owned by James Mooney and his brothers, 235 to 411 Main street, inclusive, and the 5-story building adjoining, occupied and owned by Faxon, Williams & Faxon, known as Yerxa's, 391 and 393 Main street, were destroyed by fire.

The loss will amount to about \$1,500,000, estimated, to those who were burned out, and the loss to trade by reason of the fire will bring the total up to something over \$2,000,000.

The fire was started by the explosion of a boiler in Robinson's Music theater which occupied a large part of the building.

Shes & Eberhardt's concert hall on the ground floor of the building was one of the finest equipped and most elegantly appointed of its kind in America.

Robinson's Music theater, or Wonderland, as it is commonly called, was a large and popular place of amusement—combining museum, menagerie, concert hall, theater and other features, and will be sadly missed by the amusement seeking public.

The wholesale and retail grocery house of Faxon, Williams & Faxon was the largest in the city and their loss is very heavy.

### More Flames at Troy.

TROY, N. Y., Dec. 15.—Fire broke out in the immense hardware establishment of J. M. Warren & Co., and was soon beyond the control of the firemen.

The burning building is directly opposite the burned Frear building and surrounded by large business and manufacturing houses.

The firemen directed their efforts to save adjoining property and in this way the flames had a chance to increase.

C. W. Tillinghast, president of the company, says that the three buildings are valued at \$93,000 and the stock at \$233,000. There is insurance of \$163,000 on the stock and \$33,000 on the buildings. The structure that is almost totally destroyed was valued at \$23,000 and the stock at \$160,000. The total loss will be almost \$300,000.
