THE WONDERLAND MUSEE THEATRE.

Everyone in New York State have heard or read about "Wallace," the monster lion, whose ferocity and blood thirsty disposition has earned for him the title of the King of Caged Beasts.

The following is from a New York paper regarding "Wallace":

"In transferring the largest lion from a permanent cage to a movable one yesterday morning, the latter den, which was on rollers, moved off with the weight of the beast's fore paws. He fell to the floor and for a few minutes did not seem to realize that he was at liberty. Brown & Batwick, who were attending to the shifting of the lion, tried to drive him into one of other of the dens. The lion simply sat up and grinned. Then Brown grabbed an iron bar and tried to drive him into the movable den. Instead of obeying, the furious beast gave an angry roar and sprang savagely at Brown who dodged nimbly around the movable cage, and darted up stairs after Batwick.

The only horse the show possessed stood in a stall on the east side of the stable. The lion sprang on the poor horse, bore him down and began rending its flesh. In his struggle to free himself, the horse tore down the stall."

"Wallace" is now confined in
