**SUGAR INVESTIGATION.**

Representative of the sugar trust... WASHINGTON, June 9.—The trust investigation, H. E. Terrell... placed on the stand.

Mr. Terrell admitted freely that he came to Washington last March at Havemeyer's request and he also admitted that he was in the habit of speculating in stocks and that he had bought 25,000 shares of sugar stocks last spring and had sold them again, but he did not mention by what gain or the loss had been upon them. He said he knew of no purchases of sugar stock made by United States senators. He was before the committee for one hour and a half.

When asked about the truth of the report written by Mr. Edwards of the conference at the Arlington hotel which had been overheard by the wiretapper manufacturer, Terrell said he had spent an evening in his room at the hotel with the men whose names were given by Mr. Edwards, namely Senators Brice and Smith and Messrs. H. O. Havemeyer and Henry B. Reed of the sugar trust. He said it was also true that they had discussed the sugar schedule and he referred to the probability of tariff legislation in the interest of sugar, but he denied that the conversation had been of the character represented by Mr. Edwards, or that there had been any reference to the adjustment of the value of sugar stock to influence legislation.

T. E. Roosevelt, president of the Arlington hotel, was the next witness. He was examined separately concerning the reports of occurrences at the hotel, indicating that it had been the headquarters of the sugar trust in Washington while the tariff bill was in the hands of the senate committee. He testified that Mr. Terrell had occupied rooms 34 and 35 from March 2 to March 21, and that H. O. Havemeyer, president of the trust, had been at the hotel from the 2nd to the 16th of that month, occupying rooms 23 and 239. He stated, however, that he knew nothing of the visits of senators to the rooms of these gentlemen as he never made it a business to keep track of visits to the rooms of guests at the hotel.

E. R. Chapman of the brokerage firm of Moore & Schley of New York will be before the committee today. Mr. Chapman declined to answer the first material question put to him by the committee, which was to the fact that his firm had dealt largely in sugar stock.

**PRENDERGAST'S TRIAL.**

Additional complications seem likely to arise in the case. CHICAGO, June 12.—Additional complications may arise in the case of assassin Prendergast. The agreement was to continue the hearing until September when the trial was called yesterday.

Judge Cuetaria is not sitting in the criminal court and the case came before Judge Payne. When the continuance agreed on was submitted to him, he refused to enter the order saying he knew of no person why a continuance should be granted. The matter went over tomorrow.

Prendergast was brought into court during the proceedings and insisted on making a speech.

"I am the defendant here," he said, and I want no continuance. "I want no delay. The question to be determined is my guilt or innocence, not insanity. Murder is the malicious taking of a human life. That crime I have committed." The prisoner was thrust into his chair by bailiffs and was finally taken back to jail by order of the court.

He was apparently in good spirits and talked pleasantly with his keepers.

**STRIKE FOLLOWS THE DEATH OF MOROCCO'S SULTAN.**

His Two Sons Both Anxious to Rule. Spain Anticipates Trouble and Dispatches Troops to the Scene.—The Sultan's Death Caused by Fever.—Rumors of Plots Already in Circulation.

TANJER, June 12.—It is reported that Prince Mohammed will make a protest against the proclamation of Abdul Aziz as sultan.

It is the general opinion that Abdul Aziz is under the protection of the vizier, Sidj Gharbi, who several years ago presented the deceased sultan with a Circassian.

MULEY HASSAN, Sultan of Morocco, who became Mohammed V and the mother of Abdul Aziz.

Mohammed Ben El Arbi el Torres, the minister of foreign affairs here, is also regarded as Gharbi's tool and it is believed that any news in regard to the rebellion among the tribes in the interior will be suppressed at Gharbi's instigation.

Muley Hassan's Death. LONDON, June 12.—A dispatch from Madrid says: The Spanish minister at Tangier telegraphs to the government that the foreign minister has informed the foreign representatives that the sultan died of a fever from which he had suffered before.

No doctor was present at the time of his death. All the Spanish officers and diplomats here, who have recently been in Morocco, apprehend serious trouble if the fanatical sultan, headed by Muley Mohammed, the eldest son of the late sultan, should resist the proclamation of his brother as sultan.

It appears that Muley Mohammed had lately given his father so much offense that he kept him under arrest for some time and remonstrated with him for his ferocity and bad conduct, but had ultimately allowed him to go to Fez.

Four brothers of the late sultan are also likely to prove a source of trouble to Abdul Aziz.

MYSTERY AT ELMIRA. An Infant's Body Found at the Female College. ELMIRA, N. Y., June 8.—One of the strangest cases that has developed in Elmira in a long time came to light last Thursday by the discovery of the body of a fully matured infant in the attic of the house of Rev. Rufus Green, president of the Elmira Female college.

Dr. Green lives in a large house just opposite the college campus. Although the discovery was made a week ago, it has not been made public and the most strenuous efforts were made to keep the matter secret until after college's commencement next week.

The body was found under the following circumstances. Last Thursday a woman was employed by Dr. Green's family to do some housecleaning. In the attic of the residence two rooms have been furnished for the use of servants.

While at work there one of the women, Mrs. Hurly, noticed a strange and offensive odor and proceeded to investigate. Over one of the rooms is a second attic, a suspicious place between the ceiling and the roof, and here the woman found stored away on a ledge made by a chimney the dead body of an infant child wrapped in a lot of bloody clothes.

The coroner was immediately notified and he found the remains to be those of a 10-month male child. He had the body removed to an undertaking establishment.

The doctors could not agree on how long the child had been dead so badly decomposed were the remains, but they reported that the lungs showed that they had been inflated.

The question of who put the child there bids fair from present indications to be unaltered.

**BLAZE AT KANSAS CITY.**

Several Firemen Hurt by Falling Waits. Losses Aggregate \$216,000. KANSAS CITY, Mo., June 11.—A general alarm was sent in from the corner of Thirteenth and Hickory streets, for a fire which was raging in the third floor of the building owned and occupied by the Keystone Implement company. The fire had been burning quite a while before the department arrived on the spot, and the flames had gotten beyond control.

The burning building was a four-story brick and was well stocked with all sorts of farming implements, as well as harness, etc. The firemen worked to confine the flames to the Keystone building, but the stock of paints and oils fed the flames which leaped in the air 50 to 100 feet and were quickly extinguished by the Buford & George Manufacturing building.

The losses aggregate about \$10,000, divided as follows: Keystone Implement company loss \$100,000, insurance \$80,000; Buford & George Manufacturing company loss \$10,000, insurance \$8,000. The origin of the fire is unknown.

Mill Destroyed by Fire. PITTSBURGH, Pa., June 11.—The extensive mill of Ellis & Lesang of this city was destroyed by fire. The flames originated from the gas products of the furnaces and spread so rapidly that the mill was completely destroyed and it was only by hard work that the adjoining buildings were saved. The loss will aggregate nearly \$100,000, chiefly on the value of the mill-making machinery that the mill contained, but partially insured. It is doubtful if the firm will rebuild at once. All of the 600 hands in the plant will be temporarily thrown out of work.

Loss Will Reach \$400,000. DUBUQUE, Ia., June 11.—Revised estimates place the loss by the fire at \$400,000 and insurance \$300,000. The amount of lumber burned will not exceed 25,000, 000 feet. Plans put an end to danger threatening surrounding property from the burning ruins.
