The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thus destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that fails to cure. Send for literature at once.

OF INTEREST TO SUBSCRIBERS.
The following are the decisions of the United States Court in the case of the...
1. If subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions.
2. If subscribers wish to discontinue their subscription, they should give notice to the publisher at least one month in advance.
3. If subscribers move to other places, they should give notice to the publisher of their new address.
4. If subscribers fail to pay in advance, they are bound to give notice at the end of the time, if they do not wish to continue taking it, and the publisher is authorized to refuse to accept the subscription with payment of all arrears, as sent to the publisher.
5. The courts have decided that refusing to take periodicals from the office, or removing and leaving them uncared for, is prima facie evidence of intentional fraud.
6. If subscribers pay in advance, they are bound to give notice at the end of the time, if they do not wish to continue taking it, and the publisher is authorized to refuse to accept the subscription with payment of all arrears, as sent to the publisher.
The latest postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper, and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the postmaster to mark it "retused," and have postal card sent notifying the publisher, leaves himself liable to arrest and fine the same as for theft.

HIGH ENCOMIUMS

Paid Dr. Meagher & Wadsworth of the Rochester Magnetic and Surgical Institute, 20 North Clinton Street, by a Grateful Lady whom they Restored to Mental and Physical Health.

Mrs. Estella Carment, of the pretty little suburban town of Brighton, makes the following statement for publication:

Four weeks ago I was a mental and physical wreck. I had been suffering for twelve years, and the last eighteen months I was almost helpless. Life had become a burden, the future appeared dark and hopeless, languor, gloom and despondency unshook the place of energy, ambition and hope. My condition was appalling, not so much because of the physical suffering I endured as that awful mental depression that plunged me into the dark abyss of despair, and only a thin partition divided me from a living tomb among the moaning, weeping and sighing of the mad, whose mystic lamp had never gone out.

My physical ailments were many, the stomach disordered causing palpitation of the heart, and sore eruptions with raw, weepy eruptions, and a numbness with a prolapax, was only a partial list of ailments. I had a severe pain in the hip, the head, dragging pains through the hips, dull pain over the eyes and specks floated before them, impairing my sight. At the time I would have burning pain, at the tip of my head and sides of my feet, then it would extend down my spine and under my shoulder blade. I was never free from cold hands and feet, bathed in clammy perspiration. My appetite was precarious, and I frequently vomited after eating. My continence was one of sadness and dejection, truthfully reflecting the anguish of my spirit. I was peevish, cross and irritable, and constantly looking on the dark side, and I often wished "Oh to be anywhere out of this world!" I was constantly tormented with the fearful feeling that my reason would be destroyed and my wild fancies usurped its place. In this dreadful mental and physical condition on the border-land of reason and crumbling tenement of clay, I sought relief from Dr. Meagher and Wadsworth, and I have not been disappointed. After the first week's treatment I began to improve, and now, after three weeks treatment, the fibrous tumor, together with all other ailments have entirely disappeared. My restoration to health in so short a time is all a mystery to me, and I cannot know it has all been accomplished without the aid of drugs.

Other testimonials will be furnished those interested at the Rochester Magnetic and Surgical Institute, 20 North Clinton Street, one door from Wonderland Theatre. Hours 9 to 9. Consultation free.
