The Old Independent of Dec. 31, says: A terrible fatality occurred at the railroad crossing on the main Ithaca Valley line about a mile north from the village of Clyde on Sunday evening, Mrs. R. C. Hughes and Mrs. O. C. Larkin, who are home on a short distance north of this crossing, are employed at Willard S. Co. hospital. Sunday evening as they were being driven to their home, by a son of Mr. Hughes—Robert Hughes, Jr., a young man—and as they drove onto the track, from the west, their cutter was struck by passenger train No. 134, going south, due at Willard station at 7:26. It is claimed that the locomotive which was not blown up, but the engine for the evening, and it is evident that none of the unfortunate people had seen or heard the approaching train. All three occupants of the cutter were instantly killed. The young man was thrown a distance of 40 feet or more, and a mark on his left temple indicated where the blow struck that ended his life. Mrs. Hughes and Mrs. Larkin were thrown to the right of the track. Mrs. Hughes' face was almost completely torn away, and the back of Mrs. Larkin's head was crushed to a pulp. All the bodies also bore other marks of injury. The horse was killed and the cutter derailed and burned.

out, and was walking a short distance behind the cutter when the accident occurred, of which he was a horrified witness. Besides her husband Mrs. Hughes leaves seven children, and Mrs. Larkin's husband and two children survive. The bodies of the dead were removed to their desolated homes, where they were cared for by undertaker Peter Flynn, of this village. Coroner Gould, of Farmer, was notified, and is holding an inquest to-day.
The crossing where this tragedy occurred is a bad and dangerous one, and ought not to exist, as the highway at this point would just as well run under the track.

Patrick Shannon, of this city, is dead. How much this means to the people here you can never feel or know. He was (at his death last Sunday) a trustee of the church, county in. commissioner, a leader in the Democratic party and several societies, the most prominent superintendent of the most extensive and numerous shipping stations owned by the Lehigh Coal company. A true and ardent harbor master etc. He is a friend to every one who knew him and one who could not be easily forgotten. He had earned and saved a handsome property.
Mr. Shannon was an ideal man. Attractive in person, remarkably modest for a man so public and industrious and popular, and so honest and impartial and fearless that his presence was always a strong influence with ordinary men in suppressing trickery and wrong.
It is believed that he was a true Catholic, sincere Irishman and model American. As a husband and father he was also a model. No wonder that the whole city sorrowed at his sudden death from typhoid malaria and other causes all heaped upon him in less than a week. He succumbed in his very prime, dying at 57.
Mr. Shannon was born in Clare County, Ireland, 1838, on St. Patrick's Day, and came to America when about 25 years of age. He was a widow, by his first wife, and had two children.

The peaceful occupation of Washington seems to be better fitted to the Chinese character than standing in front of a gun.
Few people have any conception of the enormous amount to which newspaper advertising has grown in these days. Millions of dollars are invested every year in standing the printed columns of various enterprises, and fortunes are made and lost in the columns of newspapers. But notwithstanding the latter statement, as the wisest men continue to advertise it is safe to say that advertising pays. Indeed, it has come to pass that business men must advertise in some way or they maintain their supremacy with difficulty. Not only is the volume of business accordingly large, but the amount expended by advertisers is verily in almost beyond belief. The patient medicine, was it not? The newspapers every day over \$200,000. A single firm paid \$15,000 last year for one page in and some of the certain family paper. The largest advertising contract ever made is believed to be one recently made by the New York daily with a firm.

SAVED BY FASHION.

LIFE AND LIMB PROTECTED BY THE FADS OF STYLE.
Tall Collars, High Heels and Tipped-Up Trouser as Late as Ever—A Man Sold Back From a Watery Grave by His Outlandish Fat Hat.
The world has often been ridiculed for its want of beauty. We are told there is nothing artistic and in many cases little pertaining to comfort in nineteenth century fashions.
The habit of some of our continental neighbors to far superior, both in elegance and usefulness, so our own, so it is said, but we do not question this statement, as it is not our present duty to pick out the drawbacks of a dress that has satisfied so long.
That is to our ordinary minds, it has more than once been the means of saving the life of the wearer, as was incidentally proved in the case of a man who was nearly drowned in a pond, but saved himself by something moving about his head, and was just prevented from being pulled into the pond by a companion, who at that moment glanced up from his paper.
The troublesome visitor was a man of middle age, with a high forehead, and a pair of eyes which were probably have been his only eyes for the usual height of the man, and that had been a favorite point of attack of the dress reformers for an innumerable period.
By an adroit movement the friend caught the cap and held it over the man's head, thus preventing injury to his head. The man, however, was impaired in the necessary struggle, and an eye which was pointed out as the deadly spot of the poisonous fang.
High heels—short gaiters, breeches which we are inclined to believe would not hold water in the case of a woman of ordinary size, and a pair of trousers of a length which would not be long enough to cover the feet of a man of ordinary height, are some of the fads of fashion which are now being worn by a large number of our people.
