ANOTHER DAY OF DISORDER IN THE CITY OF CHURCHES

First Patelity of the Strike Occurs-Citisen Murtally Wounded by a Handom Shot - Other Outbreaks of a Milder Kature-No More Troops to Be Cailed

BROOKLYN, Jan 23 - The first probably fatal affray of the great strike took place late last night when, in an encounter with a few boys at the Halsey street station of the Brooklyn City Railway company, a voller was fired by the militia.

Honry Ahns of New York city was istal yabot a musket ball entering at his mouth and passing through his head. Another man, whose name is Mitchell, was wounded in the arm

The shooting had the effect of dispers-

The ninth day of the steup has closed without bringing material change in the situation. It has been a day of alarms and rumors, which fortunately proved to have slight or no foundation.

There were between day break and nightfall numerous brushes between the police and militis on one side and the strikers of headstrong, law defying sympathizers with their cause on the other.

The linemen's strike, which was to have tied up the trolley lines more effectually than had been done by the strike of motorinen, conductors and other employes, was called off before it was fairly on, and later in the day the mandate of Master Workman Connelly was promulgated, calling upon the linemen to abandon their eituations this morning.

The effect of this move, which the strik ere have compared to the playing of a high trump card, remains to be demonstrated. The developments of the day have not been reassuring as a whole. In spice of the fact that there are under arms in the city 8,000 of the state soldiers and that 1,500 policemen are on duty, intramural traffic is suffering a virtue; paralysis, in which all the industries of the city partieipate to a greater or less degree, law lessness is rampant, and altogether, conditions are such as may well excite the gravest apprehenaton

The disorderly element in the city has been largely recruited from New York and other cities and has as is usual in such cases, arrayed itself with the strikers. a solfish advocacy of whose cause may alford a pretext for the perpetration of graver orimes than have yet marked the progress of the pending contest.

Adjutant General McAipin, who is here as the military and personal representative of Governor Morton, had a conference with Mayor Schieren. Police Commissioner Welles and Corporation Counsel Mo-Donald:

The adjutant general offered to call out

the Third brigade to aid in the restoration

of order. He was assured by the mayor that at present there is no occasion for calling out more troops. General McAlpin promised to have the Third brigade ready to come to Brooklyn

on an hours notice, should its presence here be required. A conference on the situation was also

held in the hall of records. There were present, Mayor Schleren, Generals Fits-perald McLeer and McAlpin. Police Comgerald, McLeer and McAlpin, Police Com-missioner Welles, Colonel S. H. Qiin. chief of staff of the First brigade, Sergeant Frothingham, assistant adjutant general. house, 17018c: western fresh, 2101140; southand Major George R. Fowler quartermaster general Second brigade.

General McAlpin had come especially from Albany to canvass the situation personally and to receive the reports of the various departments. These he will present before Governor Morton. General McAlpin left Brooklyn for Albany at midnight. He denied that the Third brig ade would be ordered out, and said that he regarded the outlook as very favorable. The conference was secret. None of the participants would disclose what took place. It was igarned, however, that each sead of department gave a report of the condition of affairs existing under him, to which General McAlpin paid the closest attention.

Commissioner Welles made an elaborate statement of his disposition of the police, and General Fitzgerald likewise of the militia. Each of those present reported in turn.

It is believed that the general opinion of the conference was that the troops on hand in Brooklyn are sufficient to caintain order, and that further additions are unnecessary, unless unexpected developments arise. Company D of the Sixty-ninth regiment,

commanded by Captein Desmond, was sent to relieve a company wi the Forty. seventh regiment at the repair shops on Myrtle avenue bear Broadway. An unknown German was bayonsted in the lag by Private Loonard of Company B.

Kuchan lies at the foot of the Shah Jahan Kuh, a monntain 11,000 feet in height. The town, which is about 80 miles northwest of Meshed, is 8,800 feet above the sea level. It is or was, an important place, being on the route to Shirvan. The population prior to the earthquaks of Nov. 17, 1898, which destroyed every house in the place, was between \$0, 000 and 25,000.

The official report of the disaster placed the number of persons killed at 12,000. Fifty thousand head of cattle perished in the valley as the head of which Kuchan

le situated. From Nov. 17 to Nov 24 there were 160 distingt shocks. It was the first shock that destroyed the town.

Chinese Attack Repulsed. HIROSHIMA, Japan, Jan. 81. - General

Nodzu, commander of the first Japanese army, telegraphs as follows: The Chinese commenced an attack on Hai Chang at 8 o'clook on the morning of Jan. 17, advanting from three roads-New Chwang, Liauyang and Pulangton.

About noon they extended their front five miles, coming within 1,500 metres of our advanced line.

The third army division, after main taining the defense of the north side of Hal Chang until 4 p. m., assumed the of ionsive and attacked the enemy's right wing Shortly after 6 o'clock we succeed ed in dispersing the Chinese.

The enemy's strength was over 10,000 The main force is retreating north and west and the remainder toward New Chwang.

The Japanese loss was as previously stated. Inquiries are being made as to the enemy's loss. Seven guns were taken besides other

FOR INVENTIONS. Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have re-tained counsel expert in patent practice, and therefore are prepared to Obtain Patents in the United States and all Foreign Countries, Conduct In-

terferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc. If you have an invention on hand send a sketch or photograph thereof, torether with a brief description of the important features, and you will be at once
