GALWAY.

At the last meeting of the Clifden Board of Guardians, Mr. Henry A. Robinson, J.P., in the chair, the following resolution was proposed by Mr. Patrick O'Hara, seconded by Mr. John Connolly, and adopted .-That in consequence of the total failure of the potato crop, we call upon the landlords of the district tc imitate the action of the landlords of the county Roscommon and elsewhere by giving a substantial reduction in their rents, and thereby enable the poor tenants to lide over this year of exceptional distress.'

LEITRIM

Dr. Carroll's numerous friends will be pleased to learn that, as a result of the late Local Government Board inquiry, at Dromahair, he has been entirely freed from all blame in the case in which he was charged with neglect of duty.

Mr. John Dolan, Chairman of the Manorhamilton Board of Guardians, has been appointed a Justice of the Peace for the county Leitrim. Mr. Dolan is a sterling Nationalist, and has taken a prominent part in all popular movements.

On the recommendation of the Common Council of Dublin, Councillor, Daniel Tallon, 136 Leinster road, Rathmines, has been appointed High Sheriff of Dublin city.

The Irish mail steamer Munster, which left Holyhead for Kingstown recently, was run into a few miles outside Holyhead by an unknown steamer bound northward. The Munster was struck on the port beam and her port peddle was entirely disabled. She was able, however, to return to Holyhead, and the mails were transferred to the steamer Connaught for Kingstown. There was an unusually large number of passengers on board, none of whom, however, were injured; but it was the general opinion that only the merest triffe in the location of the

collision had averted a frightful catastrophe.

PIRZES ON PATENTS

How to get \$100 and Perhaps Make a Fortune.

We secure patents and to induce people to the first of every month to the person who submits to us the 'most meritorious invenalso advertise the investion free of charge in the National Recorder, a weekly new paper, published in Washington, D. C., which has an extensive circulation throughout the United States and is devoted to the interests of inventors.

NOT SO HARD AS IT SEEMS.

The Idea of being able to invent something strikes most people as being very diffi cult; this delusion the Company wishes to dispel. It is the simple things and small inventions that make the greatest amount of money, and the complex ones are seldom profitable. Almost everybody, at some time or another, conceives an idea, which, if patented, would probably be worth to him a fortune. Unfortunately such ideas are usually dismissed without thought. The simple inventions like the car window which could be easily slid up and down without breaking the passenger's back, the sauce pan, the collar button, the nut lock, the bottle stopper, the snow shovel, are things that almost everyone sees some way of improving upon, and it is these kind of inventions that bring the greatest returns to the author.

The prize we offer will be paid at the end of each month, whether the application has been acted upon by the Patent Office or not. Every competitor must apply for a patent on his invention through us, and whether he secures the prize or not, the inventor will have a valuable patent. THE PRESS CLAIMS COMPANY.
