UNCLE SAM MAY BE INVOLVED.

Interposition Under the Monroe Doctrin Considered Likely at Washington. Enforcement of England's Terms Would Work Great Hardship.

MANAGUA, Nicasagua, March 19.-The British government through its minister here has submitted an ultimatum to Nio

It demands a cash indemnity of £15,000 as smart money to pay for the expulsion of Mr. Hatch, the British consular agent at Blueflelds during the trouble there last year, and also the appointment of a commission to adjucate the damages sustained by the persons and property of British subjects expelled from the Mosquito reservation about the same time.

By the terms of the ultimatum Great Britain is to name one of the commissioners and Nicaragua another, and these two are to choose a third, who shall not be citizen of the United States.

It was also made known that a British warship is now on her way to Nicaragua to enforce these demands, which must be complied with within seven weeks from Feb. 25 last, the date of the ultimatum.

WHAT WILL UNCLE SAM SAY!

Britain's Ultimatum to Nicaragua May Involve the United States.

WASHINGTON, March 19.—It is impos sible to learn positively whether the state department has been fully advised officially of the severe demands made upon Nicaragua by Great Britain, as reported in the cable dispatches from Managua; but from the fact that General Barrios, who was appointed a special ambassador by the Nicaraguan government to endeavor to settle their differences with Great Britain; has been in Washington for a week and has paid several visits to the state department in company with Dr. Guzman, the resident Nicaraguan minister, it is assumed that our own government is fully posted in regard to the matter. It is felt here that the terms of the British ultimatum are unduly severe Besides there is a rather disagreeable reflection upon American citi izens in the stipulation that none such shall serve on the commission to adjudge the damages

On the whole it is more than probable that the president will feel called on to interpose to secure at least amelioration of the terms of the ult matum by an appeal to the British government representing the great hardship it would work to Nicaragua under the present depressed condition of her finances to prefer a demand for so large an indemnity as \$75,000.

THURSTON'S RECALL DEMANDED.

WASHINGTON, March 90.—It is reported here that Scoretary Gresham has demanded the recall of Lorin A. Thurston, the Hawalian minister to Washington, on the ground that he was persons non grata.

Whon Secretary Gresham's attention was called to this statement he positively refused to say one word in confirmation or denial and other officials of the state department allege ignorance of the matter.

It is known, however, that there has been much friction between the minister and the state department in the transaction of business dating back to Mr. Thurston's appointment as minister.

Probably because he was aware of the state of feel no toward himself, the minleter has always been singularly guarded and discreet in his public utterance, as far as can now be recalled, so as not to subject himself to censure.

Every effort has been made officially to disguise the real state of affairs. The Hawailan minister's name has been sorupnlously included in all state functions. and on at least one occasion he has been tendered the honor of a special dinner by Secretary Gresham, but it is known that there have been stormy interviews between them.

Minister Thurston was seen and positively declined to discuss the report. He was at the legation office and was busy preparing a budget of official mail to Hawall. He said the report was of such a character that he would maintain about tute silence. He did not want this taken as an intimation of affirmation or denial. He was asked specifically if he had been recalled and declined to answer. He was also specifically asked as, to the closing of the state department against him and he made the same response.

WATED D. The soultive news of the loss of the Spanish cruiser Reins Regente, which reached here from Cadis immediately after the arrival there of the cruiser Alfonso XII, caused the greatest emotion in

Madrid and throughout Spain. The queen regent was deeply distressed. By her majesty's orders the sacrament has been exposed, night and day in the royal chapel from the time the first report of the disaster reached her, and by her direction prayers for the safety of the crew of the Reina Regente have been said continuously ever since.

ROBINSONS' MURDER TRIAL

the Courtrooms.

RUFFALO, March 16. -It has been a field day in the trial of the two Robinsons for she murder of Montgomery Gibbs. It was a day full of incidents, interesting and dramatic, and it brought out one of she cards which the delense will endeavor so play as a heavy trump.

This was, that the confession made by Sadie that she and Clarence had shot Gible was obtained from her by improper means and was made to avenge herself on her husband who, she was led to believe, and another wife whom he was appport ing. Working from this the defense will try to prove that the "confession" was

One of the most dramatic features of the day was the realistic acting on the part of Mr. Quackenbush and Warden Abbey of Cleveland, in which they showed bow Clarence Robinson had tracked and shot Montgomery Glbbs.

BUFFALO Manh 19 - When the trial of Clarence end Sadie Robinson was resumed the courtroom was crowded by probably 400 Women and 100 men. The curious women were on hand early and they filled two-thirds of the benches before 9:45 o'clock. The men who got into the court room had to take back seats and probably 200 men and women were compelled to stand.

The crowd of women brought to mind the familiar "bargain day," and certainly about 400 Buffalo women abandoned the time-honored wash day to gratify their curiosny and to see Sadio Robinson, the somewhat femarkable and peculiarly interesting defendant to a charge of murder in the first degree.

Peculiarly enough, little has been brought out during the trial which indicated from whom the Cleveland police first obtained a clue to the Robinsons as the inciderers of Montgomery Gibbs

Detective I can testified that he obtained photographs of Clarence and Sadie so as to reveal the fact that it was that sister who first told him the Robinsons Both legs were cut off at the hips as the result of an accident. She had upbraided Mrs. Robinson's general conduct to be The two women quarreled.

Sadle's sister never had liked Robinson. She thought, it was believed, that it would be a good thing for Sadie if Robinson could be gotten out of the way, and therefore the more easily was led to tell Detective Duran that the Robinsonskilled the Buffalo lawver. Doran's work following and that of the other Cleveland officers were the result of this statement made by Miss Pikington, Mrs. Robinson's

prosecution in the trial of the Rebinsons has ended.

Today the defense will call its witnesse and it is probable that the case will go to the jury some time Friday.

The presecution's case closed with two hot shots, in the evidence of two handwriting experts, who both swore to their belief that it was Clarence Robinson's ing News just after the murder of Gibbs. attributing the crime to a wronged woman who sought vengeance on her betrayer.

Charged With the Sherman Murder. JAMESTOWN, N. Y., March 19.-Claude DaWitt was arrested here, charged with the murder of Mrs. Winslow Sherman and Mrs. Cynthia Davis, which occurred in the town of Busti, Dec. 15, 1604, as search of his home by the officers revealed. many startling features which will go far

in placing the crime at his threshold. In the house were found a bark stripper's spud, which, it is claimed, fits exactly into marks left in woodwork in the house where the mulrder was committed. It is also claimed that the boots worn by De Witt leave an imprint similar to some discovered near the Shearman residence the day of the tragedy.

Hamilias Must Pay Danisges. BOYFALO, March 20. - A verdict for \$5. 000 was reported to the superior court in the damage action brought by Mary Anna Huda against the American Glucose company. Mrs. Huda is the widow of Valumtine Huda, one of the victims of the great the first to be brought against the compa-ment of damages arising from the death of relatives in the fire. The Eighth Centenary of the First Crusade to be Celebrated at Clermont.

Short Items of Roman News.

ROME TRALE.

Preparations are being reads in the old and extensive Episcopal See of Clormont to colebrate the eighth contenary of the first Crusade preached there by the blessed Urban II., who went thither in person for that end. Many researches have lately been made, and are still being made in the Vatican Library among such as S. Girolamo Della Curita, the various ancient documents relating to those times. The date of the celebrations have been fixed by Mgr. Belmont, the Bishop of Clermont Holy Father, apropos of the feast, has sent a Brief to the Bishop of Clermont, of which the following is a translation :-VENERABLE BROTHER-You have

informed Us both by word of mouth and by writing that it is your intention to celebrate with particular solemnity the coming eighth centenary of the General Council held in your episcopal city in 1095 under the auspices of Our predecessor, Urban II. from Sadie's sister, who lives in Cleve of holy memory. We cannot but land. He was not questioned, however, highly praise such a design. In truth the Council of Clermont marked an killed Gibbs. This sister is a cripple, event of exceptional importance in can. the pages of history, and the capital Sadle, it was stated in Cloreland last of Auvergne has good right to be October, because she did not consider proud of having been its seat. With out speaking of the many distinguished personages who took part in it that Council will ever remain fresh in the memory among all others on account of its having given origin to the first of those heroic military expeditions whose scope was to dry the tears of the Christians in Pales. tine and to liberate the Holy Places sanctified by the Presence. Passion. BUFFALO, March 20.—The case for the Death, and Resurrection of the Savior of men.

Often had the Roman Pontiffs, as Silvester II and Gregory VII, made heard their complaints and their prayers, and raised their voice in their favor. For Blessed Urban, and that penned the letter to The Even-however, was reserved the joy of seeing the nations respond efficaciously to his call. The expedition was decided upon, and three years afterwards the Christians in triumph entered Jerusalem.

As you have said in your letter. Holy Brother, that great expedition obtained so wonderful a success because it had been prepared under the patronage of the Queen of Heaven by means of public prayers, the use of which has been perpetuated in the Church. Such are the grand and Brownson was arraigned before County pious memories which the coming centenary will recall to the minds of the Faithful. They will supply them with a new motive for turning their gaze to that loved land where were carried out the mysteries of man's Redemption, to those olden churches of the East for which, We have elsewhere said, We bear so great

But in an especial manner ought these feasts to be dear to the sons of the noble French nation, which played the principle part in that holy expedition. Let them call to mind, therefore, with what religious sone gation, with what obedience and unanimity did their forefathers of eight centuries ago receive the word of the Vicar of Jesus Christ, and how at his invitation, casting aside all cause of division and inconsequences of weakness they wedded together polar expedition which is being organtheir opinions in one cause to fight the good fight for the greater glory of God, and that of their own country. Let this example teach the Faithful of France to cherish more glucose fire of April 19 last. Her case is and more in their hearts devotion to the Blessed Virgin Mary, the Patroness of their nation. After the example of their forefathers let them find joy in showing themselves ever obedient sons of the Pontiff of Rome their common Father, and the blessings of Heaven will be with them.

In order the more to stimulate their zeal and piety. We willingly grant, in virtue of Our Apostolic suthority, to the Faithful of France and of other countries who, during the year of the coming centenary of the Council of Clermont, at Auvergne, shall visit the Basilica of that city in which, from time immemorial, is venerated the holy image of Our Lady of the Port, the power of gaining once all the indulgences both plenary and and partial with which the Roman Pontiffs have enriched the pilgrimage to Jerusalem, upon condition that, having confessed their sins and received Holy Communion, they pray for the

general wants of the Church, for the artirpation of hereign and solings. and especially for the return to Catholic unity of the keparated Eastern Churches

In the meantime, Venerable Brothor as a mindge of Our particular good SWEET PEAS, Emily Henderson, Bost Man will. We grant to you to your clergy and flook, the Apostolic Blos-

The Holy Father, pained at hearing of the dire distress of the inhabitants of Carpineto, his native town, and of the surrounding districts, has forwarded thither a large sum of money to be distributed to the poor. Distributions of money are also being made at San Vite Romano, Vicovaro, and Sambuck At Artena, by the aid of the Bishop of Segni, Prince Borghese and Signor Crispi, the Sisters of Charity have been enabled to open a woup kitchen, which will provide food for five hundred persons every day. The country around Home has never been visited with such distress before these years. It is not now a case of individual poverty: whole villages are reduced to absolute penury. The cases of Tivoli, Sambuci, tens, San Vito, and Vicov only a few instances of the widespread misery that have fallen under the nublic notice. No more convincing proof of the misrule of Italy's masters can be found than in these ores of broadoust starvation.

The Municipality of Palermo has voted the sum of 5,000 Lire for the erection in the Church of St. Domenico of a monument in honor of the Late Mgr. Carini.

The Catholics of Milan have nust scored a splendid triumph in the Municipal Elections. The result proves that there have been elected 58 persons recommended by the Catholic journals, and 22 recommended by the Radical Press. The viotory has produced a happy impression. Even the anti-clerical Press of Rome has not cared to find fault with it

PATRICK RYAN.

The New Polar Expedition. The main object of the new Austrian thed by Herr Bullow ton Payer, is artis tic, scientific discovery being a secondary consideration. On this account he will be accompanied by a number of landscape, and animal painters and photographers, with whose assistance he hopes to secure an artistic representation of the physical features of the country. He is building specially for the voyage a steamer of about 200 horse power, which will be manned by Dalmatian sellors, under the command of three capable naval officers. It is expected that the expedition will start in June. 1896, and that it will spend two years in the exploration of the coast of Greenland. The actual work will begin at the 74th degree of latitude and will extend beyond the 77th degree. Herr von Payer is convinced that in this district, with which he is already acquainted, and which he describes as the riches a color, and the most beautiful that can be imagined, artists will receive entirely new impressions of nature which will give a fresh character to landscape painting. There are, he says, 300 varieties of blooming of the Blessed Virgin, under the title plants in East Greenland, and in the spring the grass stands three feet high. He acknowledges, however, that both artistic and scientific work is rendered extremely difficult by the great severity of the climate.
