SCUFFLE WITH PRISONERS.

Utica Officers Have a Lively Time With an Armed Robber.

UTICA, N. Y., March 28.—There was a lively scene in the jail in this city. Bailiffs Condon and Baxter handcuffed the four Rochester counterfeiters, who are being tried in the United States court, and James Ballard and James Edwards, who had just been sentenced to five years in the Rochester penitentiary, and marched to the jail at the noon recess. They took the cuffs off Ballard and Edwards first and were performing the same operation for the others when Edwards sprung to a desk near by in the office where they were standing and grabbing a loaded revolver, which was kept there, levelled it at the bailiffs and cried "Hands up." Sheriff Weaver appeared in the room at this time and seized Edwards. The bailiffs also took a hand in the struggle and Edwards was overpowered after a desperate resistance, in which he endeavored to shoot the officers. He was locked in a cell. Ballard, it is said, assisted in wresting the revolver from Edwards' hand.

Appointments by Bishop McQuaid.

ROCHESTER, March 28 — Bishop McQuaid has appointed Rev. Father Harrington, Catholic chaplain of the state industrial school of this city, to succeed Rev. John J. Hickey at Waterloo. The bishop also named Rev. Thomas F. Hickey of Moravia to succeed Father Harrington in the industrial school.

VICEROY LI MUST DIE.

Private Information to the Japanese Legation.

TOO OLD TO STAND AN OPERATION

A Distinguished German Physician Announces This Verdict After an Examination Performed at the Request of the Mikado of Japan.

SHIMONOSEKI, March 25.—As Li Hung Chang, the Chinese peace envoy, was returning to his lodgings in this place after having attended a conference with Count Ito and Viscount Mutsu, the Japanese peace plenipotentiaries, a young Japanese fired a pistol at him.

The bullet sped straight, but most fortunately for the envoy it did no more than to inflict a wound in Li Hung Chang's face.

At the time of sending this dispatch it is impossible to say whether or not the wound is serious.

The attempt to assassinate the representative of the emperor of China caused

LI HUNG CHANG.

the most intense excitement, and on every side there were expressions of deep regret.

The would be murderer was arrested.

It is believed that he was prompted to the crime by misguided patriotism.

NEW YORK, March 27.—A special from Washington says: In a private cable from Tokio received by a member of the Japanese legation here is conveyed news of worldwide interest.

According to the dispatch, which comes from the highest official source in Japan, a German physician, who is a professor at the University of Tokio and an expert of high standing, was sent at the personal request of the mikado to examine Li Hung Chang's wound.

After a thorough examination of his distinguished patient, the physician reported confidentially to the mikado that Li Hung Chang must die.

The wound is in the face, and the bullet, which the surgeon had not succeeded in extracting, is apparently beyond reach. Moreover, Li is 70 years of age, and although a giant physically, his years are against him.

Different Story From Japan.

SHIMONOSEKI, March 27.—The condition of Li Hung Chang is favorable. It is reported that he has now consented to the extraction of the bullet in his face. His only fear is of a lack of cleanliness on the part of his physicians in using old instruments.

BRITISH ISLES STORM SWEPT.

A Furious Gale Rages and Great Damage Has Resulted.

LONDON, March 25.—A terrible gale is raging. The storm is general throughout Great Britain. There has been immense damage to property in many of the large towns. Pinnacles, roofs and chimneys of a number of churches were blown off and many factories were similarly damaged. In many places church services were suspended.

A great number of trees were prostrated by the gale and much damage was done to dwelling houses. In many parts of the country the telegraph lines are down. A few minor casualties are reported from along the coast. Many people have been injured by falling debris.

A wall collapsed in the east end of London and three persons were crushed to death beneath it.

Three turrets of the pinnacles on the west front of the Petersborough Cathedral were blown down. Other buildings in the town were damaged and a number of persons were injured.

The roof of the railway station at Stratford-on-Avon was blown off and a number of monuments in the parish churchyard were damaged.

In Birmingham the gale was felt with exceptional severity. A man and three children were killed there. The property damage in the town is estimated at thousands of pounds.

Two men and a girl in Leicester were struck by falling debris and almost instantly killed.

In Walsall two chimneystacks were blown over. They crashed through the roof of a hospital, broke through the flooring and carried nine beds with patients in them into a room beneath.

For a time the excitement in and around the hospital was most intense and the wildest sort of rumors were afloat, some having it that a dozen persons had been killed.

As quickly as possible the work of clearing away the wreckage was commenced and it was found that nobody had been killed.

The nine occupants of the beds were extricated alive, but badly injured.

At King's Lynn immense damage was done to property. A great number of fine trees and several farm buildings at Sandringham, the country residence of the Prince of Wales, near King's Lynn, were destroyed.

Alleged Chinese Smuggler In Custody.

WASHINGTON, March 27.—The treasury department has received information that William C. Casey, who was indicted in Plattsburg, N. Y., some months ago for smuggling Chinese into the United States, had surrendered himself to the Plattsburg officials. When indicted Casey could not be found, but some days ago he was recognized in New York city and placed under arrest.

SPURIOUS BONDS FLOATED.

Issued In the Name of an Imaginary Township in South Dakota.

REDFIELD, S. D., March 27.—The registrar of this city has received a letter from Attorney Rufus T. Peck of Cortland, N. Y., asking if school bonds of any individual school district are required to be registered, and if so, whether certain bonds of the Capitola school township of Spink county were registered in 1894 or 1895.

The bonds are dated Jan. 5, 1895, and are for $10,000 each and are nine in number. The attorney asks whether there is a Capitola school township in this county.

The reply is made here after hearing from parties at Doland that this county has no such school township exists.

The attorney claims that the bonds were issued to refund one-half of the original $90 bonds issued some time ago by the same township.

There is no record of any bonds having been issued by Capitola township.

Fictitious names are signed to both the clerk and chairman of the school board, and the bonds are certified to by an unknown party under the name of Inman. The officials here know nothing of these alleged holders of the bonds named on them.

Much speculation is indulged in as to the extent of the fraud and who are the culprits mixed up in the manufacture and sale. Speculation naturally points to the defaulting State Treasurer Taylor, who disposed of much paper in the East and mortgages and bonds in and around Cortland, N. Y.

It is expected here that more spurious bonds will come to the surface upon examination and the names of former citizens acting as coadjutors with the guilty one are handled freely. Further developments are anxiously awaited.

VENEZUELA CLAIMS DECIDED.

That Government Must Pay For Vessels Seized During a War.

WASHINGTON, March 27.—After months of deliberation the Venezuela claims commission has rendered its labors and announced its decision, giving a judgment in favor of the claimants against the United States for $148,500, about one-third of the amount of the claims.

Of the total award the Venezuelan Steam Transportation company of New York receives $81,587 American gold, with interest, and Captain Abraham G. Post, Jacob J. Mauriss and Davis J. Sturges receive each $40, with interest. The claim of Cornelius J. Brinsenhoff, master of the San Fernando, was the only one disallowed.

These claims date back to 1871, when in the course of a revolution in Venezuela three of the vessels of the American corporation were seized by the Venezuelans on either side in the controversy and much damaged by being used in war.

The ships were finally recovered, one through the good offices of a commander of a British warship and the other two by the commander of the United States ship Shawmut.

Wellknown Christian Scientist Arrested.

KANSAS CITY, March 27.—Mrs. A. J. Baird, a wellknown Christian Scientist, is under arrest on a charge of practicing medicine without a license. The attention of the authorities was directed to Mrs. Baird, it is said, by the death of Harvey M. Bosworth, vice president of the Beatham Manufacturing company, who died Saturday. For six days prior to his death Mr. Bosworth had been under the care of Christian Scientists. The day he died two physicians, Dr. Wainwright and Dr. Jackson, were called in, but too late, for Mr. Bosworth was unconscious and dying when they arrived. When the certificate of death was presented to the two physicians to sign, they refused to sign because the dead man had never been under the care of a regular physician. Coroner Telford was called in and investigating the death of Mr. Bosworth, found that he died of diabetic coma.

Alleged Female Incendiary Arrested.

WASHINGTON, March 23.—Miss Mary Delaney of Milwaukee was arrested at the Elsmere hotel, charged with having attempted to fire St. Dominic's and St. Patrick's Catholic churches with kerosene and paper. She answers the description of the tall woman dressed in black who was seen in both churches and the odor of kerosene was on her clothes when she was arrested. She is about 35 years old and came here to lecture; claims to be a Catholic and to have spent much of her life in charitable work. Her sanity is questioned.

Negro Held For Manslaughter.

ONEIDA, N. Y., March 27.—Fernando Ralph, a colored laborer, who beat his wife so severely that she died at her home in East Walnut street, was held by the coroner's jury for manslaughter in the first degree. Ralph was examined by Coroner George W. Miles and taken to Morrisville. Great excitement prevails over the verdict, as it is the second case of the kind here in many years.

Douglass' Daughter Files a Petition.

WASHINGTON, March 27.—Rosette D. Sprague, a daughter of Fred Douglass, has filed a petition asking that pending the granting of letters of administration on the estate, letters of collection shall be issued to the end that there may be no waste of the property. The petition recites the failure thus far to file any will or other papers on the part of the widow or kinsfolk of the dead man.

Wants His Sister Extradited.

BOSTON, March 27.—Governor Greenhalge heard arguments on the extradition of Emma Parkhurst of Boston to New York state on the charge of grand larceny in the second degree. The complaint is made by her own brother, Charles Parkhurst of New York, who alleges that she took a valuable ring from him.

Death of a Veteran Editor.

NASHUA, N. H., March 23.—Deacon Edward D. Boylston, the oldest editor in the state, poet, author and millionaire, has died at his home in Amherst. He has been editor and proprietor of The Farmers' Cabinet since 1840, and the paper has been in the family since 1809. He leaves a widow and three children.

Debs Arguments Concluded.

WASHINGTON, March 27.—The arguments in the application of Eugene Debs and his associates for a writ of habeas corpus were concluded in the United States supreme court, and the court took the briefs. It will announce its decision probably before adjournment in May.

PATENTS
FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.
