## PRIZES ON PATENTS

Hew to get \$100 and Perhaps Make a

We secure patents and to induce people to keektrack of their bright ideas we offer a who knew him for his genue, as the first of every month to the person who submits to us the most meritorious inventies during the preceeding month. We will also advertise the invention free of charge in the National Recorder, a weekly newsput the United States and is devoted to the interests of inventors. NOT SO HARD AS IT SEEMS.

The idea of being able to invent some thing strikes most people as being very difficult; this delusion the Company wishes to burial ground at Fuerty. Deceased, dispel. It is the simple things and small inc reations that make the greatest amount of mensy, and the complex ones are seldomi profitable. Almost everybody. at some time or another, conceives an idea, which, if patented, would probably be worth to him a fortune. Unfortunately such ideas are usually dismissed without thought. The simple inventions like the car window which could be easily alid up and down without breaking McCarthy's appeal for Parliamentthe passenger's back, the sauce pan, the collar button, the nat lock, the bottle stopper, the snow shovel, are things that almost everyone sees some way of improving upon. and it is these kind of inventions that bring the greatest returns to the author.

The prize we offer will be paid at the end of each month, whether the application has been acted upon by the Patent Office or not. Every competitor must apply for a patent on his invention through us, and whether he nel King-Herman for a general resecures the prize or not, the inventor will

tave a valuable patent.
THE PRESS CLAIMS COMPANY. Joun Waddhaware, Gen 1 Munager, 618 F. Sr. N. W., Washington, D.C. P. S. The reposibility of this company may be judged from the same than the stock
