

DEATH OF DR. PASTEUR

France Proposes to Give Him a State Funeral.

BURIAL AT PASTEUR INSTITUTE.

Widow of the Distinguished Man Declined the Offer to Inter His Remains in the Pantheon—Sketch of His Great Life Work.

PARIS, Sept. 20.—Professor Pasteur, the eminent bacteriologist, has died at Garches, near St. Cloud, in the environs of this city.

Louis Pasteur was born at Dole, Jura, on Dec. 27, 1822, entered the University in 1841, became a supernumerary master of studies at the college of Besancon, was received as a pupil in the Ecole Normale in 1845, took the degree of doctor in 1847, and

was appointed professor of physics at the Faculty of Sciences, Strasbourg, in 1848. At the end of 1849 he was entrusted with duties with organization of the newly created Faculty of Sciences at Lille, and in 1850 returned to Paris and undertook the "scientific direction" of the Ecole Normale. In December, 1850, he was appointed professor of geology, physics and chemistry at the Ecole des Beaux-Arts, and was elected a member of the institute. In 1854 he laid before the institute a method of curing or preventing hydrophobia by inoculating with the poisonous virus in an attenuated form, and the commission of investigation declared the method efficacious.

DURANT'S ONLY STRAW.

Accused Man's Defense Green Wrecked.

SAN FRANCISCO, Oct. 1.—Close the adjournment of the Durant trial last Friday the prisoner's attorneys have visited Cooper Medical college several times and have had frequent interviews with students whom they will put on the stand in hopes of proving the alibi which the defense expects to establish.

It is thought several of the college boys will testify to having seen the accused between 1 and 2 o'clock on the afternoon of April 5, but if any will give evidence of the fact that Durant was in college until 3:30 on the afternoon, he is not known.

The attorneys for the defense are building on what K. A. Higgins will testify to. Higgins is a member of the sophomore class, but frequently attended the senior class lectures. There he met the defendant.

The letter claims that he spoke to Higgins during Dr. Cheney's lecture on the afternoon that Blanche Lamont disappeared, but Higgins' memory is rather hazy just at present.

Witness proceedings are opened today Charles Leshman will be called to the stand to tell of having taken a diamond ring somewhat resembling the one worn by Blanche Lamont to Pawnbroker Oppenheimer.

At first a great deal of importance was attached to this witness by the defense, but of late his testimony has lost weight, as he did not visit the store until the afternoon of April 12.

Again, Leshman does not bear the slightest resemblance to Durant, and it is not possible that one could be mistaken for the other. Their dress was dissimilar, and in personal appearance they form a strong contrast on account of differences in size, build and facial expression.

District Attorney Barnes and Captain of Detective Loh are getting ready to put in their rebuttal testimony, which they expect to make almost as strong as the direct.

They will have a lot of writing experts to combat any testimony that might implicate Prof. J. O. Gibson in having written the address on the envelope in which Miss Lamont's rings were sent to her sons, Mrs. Noble.

Half Peter Cup Remains Here. CHURCH HILLS, Sept. 20.—The international challenge cup offered by the Syracuse-Corinthian Yacht club of New York has been successfully defended and will remain on this side of the Atlantic until some other country sends over a keel or boat that surpasses IV, owned and sailed by J. Arthur Brown.

The Sibak, which was transferred to the day, consisted of last three out of five races sailed over the three best placed crews of the Corinthian club.

The Sibak with the leading race amidst much excitement.

Atlanta Fair Closed On Sunday. ATLANTA, Oct. 1.—The question of Sunday opening of the exposition was settled by an over-voting vote at the directors' meeting. H. H. Cabaniss, manager of the Atlanta Journal, moved that the grounds be opened and the midway closed on Sundays. Captain J. W. English moved that the whole matter be laid on the table. This was adopted by an overwhelming vote. It is not believed that any further attempt will be made to open the exposition grounds on Sunday.

Armenians Show Fight. CONSTANTINOPLE, Oct. 1.—A body of Armenians have made a demonstration against the authorities in this city and wounded several of the Turkish soldiers.

GENE TUB ALBINO.

A COLONY OF PURE BROWN AND WHITE HAIRED PEOPLE.

It is About 100 Years Old and at the Time It Numbered About Fifty People. The Story of the Pitcairney and Their Physical Characteristics.

Since the appearance of albino people in the world, and since the discovery of the fact that the albino people of the Pitcairney are a colony of pure brown and white haired people, the public has been interested in the study of the Pitcairney and their physical characteristics.

It is about 100 years old and at the time it numbered about fifty people. The story of the Pitcairney and their physical characteristics.
