## THE WINTER SCHOOL.

### OPENED AUSPICIOUSLY AT NEW ORLEANS.

A Large Number of Noted Prelates in Attendance—A List of Officers.

The Catholic winter school at New Orleans is meeting with great success. It opened Tuesday, February 18th. A bishop Janzsens presided at the opening session, and seated on the platform were Cardinals Gibbons and Satoli, Archbishops Elder, Bishops G. G. O'Sullivan, Meerschbaert, Dunne, Mayor Fitzpatrick, of New Orleans, and many other distinguished persons. In his opening address Archbishop Janzsens said:

"I am inclined to boast a little on this section of our country, but I will refrain from boasting in advance on this new venture. However, we have many things to boast on besides our union Carnival.

We had a convent of religious women, the Ursulines, in this city, at least sixty years before another was thought of in the United States; we had a resident bishop, Cyrillo di Barcolona, about ten years before the first Episcopal See in the United States was established; we have more than one half of all the Catholic colored people of the whole United States in this one diocese, as a proof that neither our Catholic population nor the church have been delinquent in duty toward them. Besides all this, we have a climate—swamps and mosquitoes, high water and tornadoes included—which in its mildness and healthfulness surpasses any in the country. Other sections of the country must select summer for their schools, but we need not pay any regard to any season, and select either summer or winter, as we please.

From the statistics which I gather it appears that in our Catholic portions of the country the number of births is twice as great as the number of deaths. Within the seven years of my administration our Catholic population, without immigration, which is slight, has obtained a natural increase of 45,000 souls. Now, in conclusion, let me ask where is the Catholic school which has had so fitting and beautiful an opening as the magnificent celebration of last Sunday? Where is the one so honored as this by the presence of two illustrious and eminent cardinals in our country? So far our endeavors have been crowned with success; may this winter school, with the grace of God, and under the protection of Our Lady of Prompt Succor, our lady of Louisiana, be brought to a happy close."

Judge Parlange welcomed the school in behalf of the Governor of Louisiana, who was unable to be present because of illness. Then followed a reception to the distinguished visitors. The first lecture was on "Astronomy," delivered by Rev. Martin S. Brennan, A. M., of the Kenrick Seminary, of St. Louis. Cardinal Satoli and Bishop Keane also delivered lectures. Other speakers, Rev. A. B. Langlois, of St. Martinville, La.; Eliza Allen Starr, of Chicago; Rev. J. A. Zahn, Ph. D., of Notre Dame University; Richard Malcom Johnston, Conde B. Fallon, Ph. D., of the St. Louis "Church Progress"; Rev. S. F. Mulaney, LL.D., of Syracuse; Mgr. Nugent, of the Liverpool, Eng., "Catholic Times"; Rev. Morgan M. Sheedy, of Altoona, Pa.; Hon. R. Graham Frost, of St. Louis; Brother Baldwin, F. S. O., of Amawalk, N. Y.; Thos. O'Hagan, of Toronto, Canada.

M., of Rochester; Brother Paulian, of St. Louis, provincial of the Christian Brothers; Rev. J. F. Mullaney, of Syracuse, and several others.

### THE PROPAGANDA ISSUE FURTHER INSTRUCTIONS REGARDING THE DECREE.

Certain Conditions, All of Which are Found in Each Individual Case Will Allow Some Modification—Practically as Change.

Additional instructions regarding the degree against the Knights of Pythias, Sons of Temperance and Odd Fellows have been received by all the bishops and archbishops in the United States. Some time ago several prelates in this country asked for further instructions in the matter, inquiring particularly whether a Catholic might not be allowed to retain his name on the membership roll of these societies, and continue to pay his assessments, provided he does not in any other way participate in the doings of these societies. The answer of the Sacred Congregation, which has just been communicated to the American episcopate by the Apostolic delegation, is as follows:

Under the date of August 13, 1895, I received from the Cardinal Prefect of Propaganda instructions regarding the application of the well known decree of the Holy Office condemning the three societies, Odd Fellows, Knights of Pythias, and Sons of Temperance. According to these instructions which I commented at the time to Your Grace, the condemnation was to be considered absolute, and wherever peculiar circumstances seemed to merit special consideration in particular cases, the matter was to be referred by the ordinary to Rome. In consequence many bishops have since that time, sent cases to the Propaganda which have been referred to the Holy Office for consideration. The Sacred Congregation, after deliberation on such cases, has, by a decree, dated January 12, 1896, determined on a course which is explained by the words which I quote from the decree itself:

"It was asked, whether or not all association whatever with the societies being removed, would this at least be lawful, viz. To allow one's name to be retained on the list of membership and to pay his respective dues, at the appointed time? This most important question was submitted by His Holiness to the Sacred Congregation for an answer. The Congregation after mature deliberation judged it proper to answer as follows: 'As a general rule it cannot be permitted. It may be tolerated, however, provided the following four conditions are verified in each case:

"1st. If the member joined any of these societies in good faith and before their condemnation was made known to him.

"2d. Provided no scandal will occur and all danger of such shall be removed by a timely declaration to the effect, that the member pays his dues so that he may not be deprived of the benefits accruing therefrom. The member must, however, in the meantime, abstain from all association or communication of any character with these societies.

"3d. The re-association must entail upon himself or his family a notable and serious loss.

"4th. There must not be any danger of loss of faith, either for the man himself, or for his family, arising from the same, especially with regard to the observance of abstinence or death, and every possibility of funeral rites being to the Catholic ritual must be removed.

These conditions, when they were made known to His Holiness, were fully approved and confirmed. Since, however, the question is so most grave and delicate, and one, which affects not only many dioceses, but also ecclesiastical provinces, the Holy Father, to the end, that a uniform rule should be observed, orders that in particular cases Your Eminence and your coadjutors in the Apostolic Delegation, shall have jurisdiction."

A Point Worth Mentioning. The "Early Favorite," brought out by W. L. McKay, of Geneva, N. Y., has made a great record for '96, 120 bushels per acre. Fifteen separate yields, ascertained over fourteen counties and seven States, average 454 bushels per acre. These are reported by farmers, and not fancy advertisements. We are sure that the seed of this variety is available.

The plan of the O. W. R. L. comprehends a sick benefit as well as mortuary benefit on its members. The organization first saw the light of day in New York city last August. Since then it has been ramified throughout New York State. It is the object of the supreme officers to first organize the Empire State thoroughly before branching out into other territory. The fact that fifty councils have been organized within seven months goes to show that the plan is a good one, and that the officers at the head of the organization are persevering and are thoroughly conversant with the needs of the Catholic women in the way of fraternal benefit.

The day after the institution of the new council the local officers showed the supreme officers some of our most noteworthy of our Catholic institutions. Among those visited were famous St. Bernard's on the west side boulevard.

The New Yorkers were more than surprised to find such a magnificent institution here. They confessed it to be the most complete in appointments they had ever visited. His Lordship, the Bishop, took great pains in showing them all over the seminary and the chapel, and also took much interest in their work of promulgating the O. W. R. L.; while in the chapel he was pleased to bestow his blessing on the ladies and the good work they are engaged in.

The all-around gratification which has met the ladies from the metropolis has put them in love with the Flower city, eager to renew their visit when they can institute another council. They shall see more of the most beautiful home city in the United States.

### A New Branch.

A new branch of the Catholic Knights of America has been organized in St. Francis Xavier parish, with officers elected as follows:

President—Herman Kreis. Vice President—Joseph Wendelgass. Recording Secretary—George W. Youngman. Finance Secretary—Frank Beer. Treasurer—George Wilhelm. Trustees—George Schmitt and Herman Miller.

### Archbishop Kenrick's Funeral.

St. Louis, March 11.—With the imposing ceremonies befitting his rank as a priest in the Roman Catholic Church, Archbishop Richard Kenrick was laid to rest in the priest's lot in Calvary Cemetery.

One Cardinal, eight Archbishops, more than twenty Bishops and fully 400 priests, assisted by a choir of students from the Kenrick Seminary conducted the services which consisted of pontifical requiem mass and the office for the dead. Archbishop acted as celebrant. Following this Archbishop Ryan delivered an eloquent oration. Absolution was performed by Cardinal Gibbons and four Archbishops.
