

FATHER KOENIG'S NERVE TONIC

Like a Ship in rough sea. I suffered from heart disease for 5 years, so I often felt as if the top of my head came off and my legs seemed to go into the ground, so that I could not walk a step. I was on a ship on a rough sea. Before this I would lose my breath, and would up my back and see sparks before my eyes and then faint away. I also slept very little and was afraid always that something unusual would happen. But thank God after taking only a few bottles of Father Koenig's Nerve Tonic, I was well again, after being so near to the grave and although people thought I would get a relapse, it is 6 months now I have not noticed any symptoms of it. Will Blaney.

Mrs. Brown, from Liberty St., in the same way writes, that she was cured by Father Koenig's Nerve Tonic from heart disease and liver complaint, after she suffered 8 years.

They were Deaf Now They Hear
Showing that by expert special treatment, not only catarrh, but the deafness that results from catarrh, is cured.

Deaf People Hear
A while ago you could have shouted in the ears of those of these people and they would not have heard you. Now you can whisper to them. The question, "Is Dr. Grady's treatment really better than any other?" and the answer will be quite as prompt and direct as the statements they make in this column.

Miss Jennie Schaeffer, of 35 Concord avenue, has lived here all her life. For the past three years she has been growing deaf, and up to a short time ago, could not hear distinctly. If you spoke to the top of your voice, she became deaf. After a short time under Dr. Grady's treatment, she heard perfectly a whisper. Miss Schaeffer is now living here and is employed at Adler Bros. factory on North St. Paul street. She willingly answers all inquiries about her hearing being restored.

Mr. Reetz, of 409 Cliff street, also tells of a remarkable cure to his case. Mr. Reetz has lived here five years and is a German by birth. He is employed at Mr. John Schmidt's at 104 Cecil street. He is also a member of the Germania lodge at the corner of St. Joseph and Nassau streets. Mr. Reetz is 23 years old and has been deaf all his life. He was advised by his father not to doctor, as he said it was no use. The young man persisted and tried Dr. Grady's treatment and now he can hear a watch tick easily. He is now surprising all his friends. Mr. Reetz's cure is a remarkable one he has had having started treatment with Dr. Grady on the 4th of this month—August. An amusing incident occurred the other day. One of his fellow workmen who did not know of his hearing having been restored, made some unpleasant remarks about Mr. Reetz. When he finished his conversation, Mr. Reetz went to the man and told him he heard every thing he said. His fellow workmen will now have to speak below a whisper or trouble will arise in the near future.

"I have suffered for eighteen years with catarrhal deafness; my hearing has been restored so that I can hear an ordinary conversation."—John Carey, Batavia, N. Y.

"I suffered from ringing and buzzing in my ears. I became deaf and could not hear conversation. Now I can hear perfectly."—Miss Nellie Kenney, Canandaigua, N. Y.

"Thirteen years ago I lost the hearing in my left ear. About seven years ago I lost the hearing of my right ear. I can now hear my watch tick at a distance of four feet. All was dead silence. Now I can hear the voices of my friends and what they say."—Wm. Smith, Lyons, N. Y.

LAW REGARDING NEWSPAPERS.
The following are the decisions of the United States court on the subject of news paper subscribers:
1. Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions.
2. If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until all arrearages are paid.
3. If subscribers neglect or refuse to take their periodicals from the postoffice to which they are directed, they are responsible until they have settled their bills and order them discontinued.
4. If subscribers move to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.
5. The courts have decided that refusing to take periodicals from the office, or removing and leaving them unclaimed, is prima facie evidence of intentional fraud.

The terms alto and contralto are now, by custom, interchangeable and synonymous. At one time and until recent years the term alto designated the highest voice in males, the term contralto, formed from the words contra alto, being applied to the lowest voice in women. Contra also means against the alto, and was used to designate the voice to which in choral music the part next above or "against" the alto was given.

In the early part of 1851 it was mentioned in the Paris papers that a house painter, while drinking with some companions at an inn, made a wager that he would eat a lighted candle. Scarcely had he placed it in his mouth when he uttered a slight cry, and a bluish flame was seen upon his lips. In spite of all attempts to aid him the internal fire continued, and in half an hour the head and upper portion of the chest was entirely carbonized.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

GALWAY.
In the Landed Estates Court, an estate situated at Carna, county Galway, was put up for sale and purchased by the Congested Districts Board. One of the lots includes the village of Carna, including the site of the local Catholic church and the parochial house. The total amount of the purchase money was £5,330. It is noticeable that the price was run up on the Board by a single competitor, whose name was not divulged. The object of the Board was to ameliorate the unhappy condition of those unfortunate and poverty-stricken tenants.

At Swinford, recently, a fatality occurred resulting in the death of three children of a shoemaker named Thomas Walsh. At the conclusion of the court a warrant was issued for Lennon's arrest, and after a couple of hours the police succeeded in laying hands upon him, and escorted him to the police barracks. When Lennon ascertained that he would be sent to Tullamore, in company with the Conninghams, who had just been convicted at the sessions of the manslaughter of their brother James, while suffering from religious delusions, he protested vigorously. He had to be detained in custody until the evening, when he was conveyed to Tullamore prison.

SLIGO.
A fatal quarrel occurred at Derrienaallee between Owen Flynn and Michael Goramly. Recently Owen Flynn and his step-brother Michael Flynn were proceeding home from Boyle. It is alleged that they were under the influence of drink and that when passing Goramly's house they commenced to shout and use abusive language toward Goramly with whom they had a land dispute. Goramly came out of his house with a bayonet, and rushing at Owen Flynn, drove one of the sharp prongs of the instrument into his left breast. The unfortunate man fell dead on the spot. Flynn's step-brother, Michael, seized a large stone and struck Goramly a fearful blow on the head, fracturing his skull. Flynn was about 60 years of age, and leaves a wife and family. Goramly is about 50 and has a wife and family also.

Dr. J. R. Cardiff, coroner for South Wexford, recently held an inquest, in the county jail, touching the death of a prisoner named James Byrne, who had committed suicide by cutting his stomach open with a piece of old iron. On the previous day the deceased was found guilty of the manslaughter of his wife, and was sentenced to fifteen years penal servitude. Neither the governor of the jail nor any of the officials examined could throw any light as to how he got the piece of iron with which he killed himself. Byrne made a statement to Dr. Creed, before he died, that during the night his cell was full of little fellows with red caps, and when he told them to go out, one of them struck him with the iron and caused the wound. The jury returned a verdict of suicide while insane.

C., for permission to traverse the presentment of £25 made by the grand jury to Mrs. Pauline Grant Bellow, for alleged malicious destruction of barbed wire fencing, which had been erected across some of the approaches to the Dargle, and which the people had removed. The judge refused to grant the traverse, on the ground that the fences were on Mrs. Bellow's private property. Mr. Barrington, who has taken a strong case against the obstruction, said it was significant that before a tribunal which would certainly not be slow to defend the rights of property, Mrs. Bellow got her compensation only by a majority of twelve to nine, the chairman refraining from voting.
