TO CONTROL ATHLETICS.

Representatives of Five Central New York Colleges Confer.

SYRACUSE, Oct. 8.—A meeting of representatives of the five principal colleges of Central New York was held here to discuss the management of college athletics and to take steps to revive the old Central New York Intercollegiate Athletic association.

Those present were Professor J. S. Patterson of Union university, Professor W. R. Terrett and Professor V. H. Squires of Hamilton college, Professor George M. Forbes of Rochester university, Professor W. H. Crawshaw of Colgate university, Professor W. P. Durfee of Hobart college and Professor Frank Smalley of Syracuse university.

Professor Smalley was elected president of a permanent organization which will meet annually to discuss the methods of conducting athletics in the various colleges. After a thorough discussion of the situation two resolutions were passed, the first stating that students with more than two conditions or who are not taking more than 15 hours work per week, or who are not taking a course looking to a degree shall be allowed to compete.

Professionalism was summarily dealt with in the second resolution, it being understood that students shall not be given scholarships for athletic ability nor play in summer on professional baseball teams.

It was also decided to call a convention of the colleges to form a New York state intercollegiate athletic league which shall control all contests between the colleges in the league. The league will support baseball, football, track athletics tennis and any other line of sport which may be deemed wise to adopt.

The convention will be held here, subject to the call of Secretary Durfee of Hobart, some time within the next two months and will consist of one undergraduate, one professor and one alumnus from each institution.

HITCH AT WINNIPEG.

Settlement of the Canadian Pacific Strike Not Yet Effected.

ST. PAUL, Oct. 8.—A Winnipeg, Man., special says: A hitch has occurred here in the settlement of the telegraphers' strike. The company refuse to take back men who have committed grave acts and a difficulty has arisen over that point as to what constitutes a grave act.

The company's definition is such that the strikers refuse to accept it and have sent to headquarters for instructions. They claim that none of the men are guilty of grave acts and all must be taken back without prejudice.

There the matter rests. Chief Telegrapher Pierson claim that the men have received full recognition and the company have gained the point of compelling the men to air their grievances before the divisional superintendents before going to the management.

LOCOMOTIVE EXPLODES

Train Wrecked and a Number of Lives Lost.

SEVERAL PEOPLE BADLY HURT.

The Train the Same One Which Was Held Up by Robbers in New Mexico on Friday—Panic Followed the Explosion.

OSAGE, Kan., Oct. 5.—A railroad wreck, attended by serious loss of life and made more terrible by the self murder of one of the terrified passengers, occurred on the Santa Fe road two miles north of this station. Seven dead bodies have been recovered from the wreck, and it is feared other victims are buried beneath the debris.

The wrecked train was the eastbound passenger No. 2, the same that had such a thrilling experience with bandits in New Mexico on Friday night last. The wreck was caused by the explosion of the boiler of the locomotive. The engineer should have stopped for water at Osage City, but being behind time, he endeavored to run to the next tank. The engineer and fireman both met death in the wreck.

The wreck was marked by scenes of the wildest confusion among the terrified passengers. The nerves of many were at a high pitch as a result of their experience with the road agents in New Mexico, and when the crash came the first impression of nearly all was that the train had been attacked again by robbers.

One passenger, William Beckler, of Los Angeles, Cal., en route to Chicago, seemed to lose his reason entirely. When the crash came he drew a pistol from his pocket and in the presence of a car full of terrified passengers took his own life. Beckler had been drinking heavily.

SENSATIONAL DAMAGE CASE.

Wealthy Saugerties Man Sued For Alienation of a Wife's Affections.

KINGSTON, N. Y., Oct. 8.—Judge Furman's court here was occupied in the trial of an important suit, comprising an action for damages for $25,000 instituted by John H. Hardenberg, a market man, against John Tyler Washburn, of the wealthy brick firm of Washburn Bros., Saugerties, for the alienation of his wife's affections.

The plaintiff and his wife have recently been divorced, and the latter testified in the proceedings in his behalf as to her relations with Washburn. She stated that he promised to marry her on the death of his wife, who was then sick, and who has since died.

The defense in the case is blackmail, and evidence was introduced to show that he was confined to his home by illness at the time of the alleged relations with Mrs. Hardenberg.

WALKER ELECTED.

Succeeds the Late Bishop Coxe in the Western New York Diocese.

BUFFALO, Oct. 8.—Bishop William David Walker of North Dakota was elected bishop of the Episcopal diocese of Western New York at the diocesan council. Balloting began in the morning, but a final result was not reached until evening. Nominations had been made the evening before, so that there was nothing apparently to prevent an early conclusion of the business, but the introduction of much extraneous business and much superfluous discussion consumed time.

The stipend of the bishop was fixed at $5,000 a year, and the convention finally adjourned.

Bishop William David Walker is a native of this state, having been born in New York city, June 20, 1839. He was graduated from Columbia and finished his studies for the ministry in 1862. He plunged at once into active church work; his deacon's orders came to him from Bishop Potter shortly after his entry upon the duties of the church. Within a year he had been advanced to the rectorship of Calvary church, New York, and his pastorate there was visited with success and commendation. He was consecrated a bishop in Calvary church in 1883. He is perhaps the most widely known and the most beloved of all the Western Episcopal churchmen, besides being well known in the East. For some years past he has been one of the government's Indian commissioners and has done as much, if not more, than any man to elevate the redskin and place him upon a level with his white brethren. He is the originator of the now famous "cathedral car," in which most of his missionary traveling was done and by which small communities were reached and given the benefits of spiritual ministrations.
