

No Cure, No Pay

Knowing that the unfortunate have been imposed upon by the unprincipled pretenses who charge largely in advance

DR. GRADY

has adopted this plan: That he will charge nothing for advice, consultation or treatment, until the patient announces himself well. The only charge is for medicines used during treatment.

J.W. GRADY, M. D.,

Rochester, N. Y.

Where he may be found for the scientific examination and treatment of all difficult long-standing chronic diseases and deformities. Dr. Grady has made this class of diseases a constant study for the past eight years, during which time he has treated over 35,000 cases, many of which are living testimonials of his wonderful skill. He is not a traveling quack, but an educated physician, meeting with a success in that direction equalling that of any other practitioner in the country. His treatment of long standing diseases of either sex is remarkably efficacious, achieving signal and permanent success when others fail. All medicines prescribed by Dr. Grady are strictly vegetable, prepared to meet the demands of each individual case, and are also miraculous in their effects. Dr. Grady performs wonders with his medical treatment. The rapidity with which he describes disease is truly wonderful, and astonishes all who call upon him, and he frankly tells all whether or not they can be cured.

He treats all diseases that afflict the human race in both sexes. The following are a few of the many diseases that he treats successfully: Liver Complaints, Dyspepsia, Bronchitis, Catarrh, Deafness, Coughs, Gravel, Dropsy, Piles, Paralysis, Rheumatism, Tumors, Cancer, Flatula, Kidney Disease, Fever Sores, Diarrhoea, Asthma, Erysipelas, Heart Disease, Scrofula, Skin diseases of all kinds. Tape worms removed or no charge.

Dr. Grady continues to cure when all others have failed, all forms of diseases. Ladies who are suffering with complaints peculiar to their sex can consult the doctor with every assurance of speedy relief and a permanent cure, without being subject to the embarrassing procedure of an examination, which in most cases is unnecessary. The doctor can be consulted from 10 to 12 a.m., 2 to 5 and 7 to 9 p.m. every day except Wednesdays and Sundays.

IN MEMORIAM.

Lapse on the death of Joseph J. Kelly - By Robert Walsh, Scottsville, N. Y.

Awake and here in silence and gaze on the dead, let us think of the soul that once dwelt in this clay.

Let us rather remember the spirit now fled, than the body here left to corrupt and decay.

Let us take for example the life of this youth, it will lead us in safety the right to pursue.

His record shines forth in the clear light of truth, and his many good traits are thus brought to our view.

Though short was the time that he stayed with us here, He has gone, let us hope, to his Maker above.

With a firm resignation and hope without fear, He has gone to the fountain of mercy and love.

And here let us pray that again we may meet him When our journey through life has been brought to its close.

May we all be prepared in that kingdom to greet him. Where life is bereft of all sorrow and weep.

Scottsville, Oct. 5th, '96.

Cook Opera House.

The attraction for the first three nights next week, namely Monday and Wednesday, will be the Hopkins' "Trans-Oceanic Special," under the management of Mr. Robert Fulgosa. Up to the present time, one great European Novelty and a number of ordinary acts was thought sufficient for even a high class vaudeville company. Mr. Fulgosa, however, will this year introduce four of the most remarkable and costliest European acts that have ever been seen in America, and seven of the greatest native specialties. His bill is headed by the famous and extraordinary Kinematograph, which is today beyond question the most phenomenal attraction in the world. The Kinematograph has been the cause in turn in every European metropolis, nor will we wonder at it after having seen its remarkable and life-like productions. The company is composed of Rosie Rendell, Carroll Johnson, the prince of minstrels, that irresistibly funny pair, the Nauss, who will present their comedieta entitled "One Touch of Nature." First appearance in America of Juno Salmo, who comes direct from Folles Bergeres, France, equilibrist and contortionist. First appearance in America of Mr. Horse W. P. Benens, England's most noted baritone, Morton and Reilben, "Picking from Luck," Sharp and Flat, musical comedy artists, and Ford and Francis, superlative operatic sketchists.

"When London Sleeps" is the attraction at the Cook the last half of next week. The piece was brought over to this country by Mr. James H. Watlick who has secured all American rights for its production and which has been a success beyond expectations. It is by Charles Danell, Esq., a noted English author who has written a number of successful melodramas.

Mr. Danell has gone this time to the circus ring for his principal characters, and it must be admitted that he has drawn them, as a rule, with considerable skill, and given on the whole a striking picture.

The strongly carries the audience by storm, and when the final episode was reached—the attempted sacrifice of Queenie Canuthers on the altar of the Hindoo god—they were something akin to awe-struck by its awful realism.

The Matabelo girl is not devoid of sentiment. On the contrary, she has the greatest pride in the exploits of the man she marries. He may be old, toothless, with one leg in the grave and the other feebly tipping a wane dance, but if he can show on his assagai the blood of many victims he is the greatest old bean in the land.

Academy of Music

Next week's Academy attraction will be that highly successful melodrama "Slaves of Gold."

The cast will be a brilliant one, being headed by Arnold Reeves, supported by Miss Katherine Hunt. The play "Slaves of Gold" is one of the strongest pieces on the road, the scenic and mechanical effects which are introduced are beyond doubt unexcelled by any attraction in beauty, massiveness and startling surprises, among them being the interior of a mine in full operation, with its great climax explosion and fire effect, the great flood scene and its exciting battle for life with the rising waters, the thrilling "leap for life" from an upper window and the beautiful apple orchard scene.

The story is one of sweet and tender heart-interest, and will appeal to fathers, mothers, children, sweethearts and wives. It is the story of a poor but brilliant man, reduced to poverty by misfortune, and made strong through all by the love and devotion of his child, whose love grows stronger in the face of adversity, and who becomes a true heroine in the face of terrible dangers.

As a play for the masses this production will no doubt draw crowded houses at every performance. Be sure and bring your wives, sisters and little ones to see this realistic reflex of human nature.

Wonderland Theatre

Manager J. H. Moore of Wonderland offers for the coming week what promises to be the best entertainment that has been given at that popular playhouse this season.

Since the opening of the theatre on August 31st there has been but few nights that he has been able to accommodate the crowds, and he requests all who can to attend the matinees, when they will be more likely to secure seats. Hearing the list of attractions for next week is worthy cause in his humorous monologue. He will be remembered by last season's patrons of Wonderland as the man who created more laughter than any other performer who has ever appeared in this theatre, and will undoubtedly receive a warm welcome. Another star, Master Eugene Gray, the wonderful tub soprano, in operatic selections and imitations of Yvette Guilbert, Carl and Jordan in an act entitled "A Farce Comedy Revue." Kinzo, the famous Japanese juggler, the American Indian duo, Capt. George Lable and Miss Anna Nelson, in their original travesty sketch entitled "Yes, 'The Cosmopolitan Trio in a vocal comedy sketch comprising Ballads, Opera and mimicry, Arthur Keras and Dora Lora, the German comedy stars in their new comedy sketch, "A German Sweetheart." The theatre opens from 1:30 to 5:30, and 7:00 to 10:45.

An old historian tells that a people living in Asia used to draw wheels over the feet of the horses when the snow lay deep upon the ground, and away off in Kamohatka they cover the feet of the dogs in the same way. It seems as if all ancient shoes were put on the horse and held there by some sort of lacing or strapping.

In an inventory of the effects of Sir John Falstaff, drawn up in 1469, is mentioned "one hat of beaver, lined with damask gilt, and also two 'straw-en' hats." The plume of feathers, however, was the chief mark of rank. Henry VIII had one plume, consisting of eight Indian feathers, which he considered almost invaluable.

The Hebrews originally made their shoes of roughly prepared skins and afterward of papyrus and cloth. Later on they were made in many styles and more elegant. The chief styles mentioned by the ancient writers are military (ornamented with brass and iron) and the religious (covering the whole foot, and thus distinguished from the sandals worn by the common people).

The ancient Celtic population of Europe and that in the British islands very probably wore either no head coverings at all or such only as were of a very simple kind. "If their heads were covered at all," says Mr. Planche, in his work on British costumes, "it was by the 'cappan' or cap, from the British 'cab,' a hat, which it resembled in its conical shape, the homeses of the Britons being made with wattle stuck in the ground and fastened together at top."

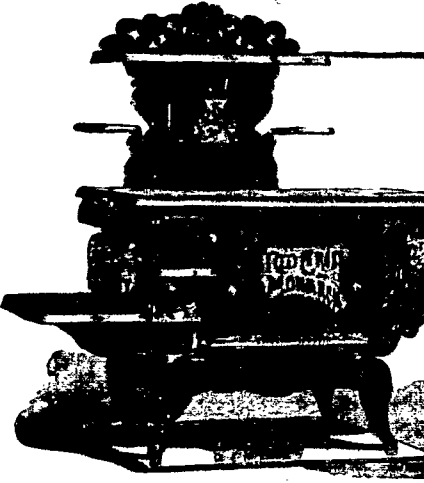

The reason given that birds do not fall off their perch is because they can not open the foot when the leg is bent. Look at a hen walking, and you will see it close its toes as it raises the foot and opens them as it coaches the ground.

The strength of the London police force consists of a chief commissioner, 8 assistant commissioners, 8 chief constables, 81 superintendents, 69 inspectors, 1,884 sergeants and 12,754 constables, making a grand total of 16,225 of all ranks.

Nothing is known at the Chinese embassy in London of the rumor that Li Hung Chang's coffin had been sent to London to await his arrival, and, in answer to an inquiry there, an attaché shook his head in a comprehensively donkey way.

The London Spectator looks forward to the day when the cycle will cost \$25 and will last ten years. Cycles will then become for all the healthy the universal means of locomotion and will be hired out in thousands instead of tens, for pennies an hour.

The camel's foot is a soft cushion, peculiarly well adapted to the stones and gravel over which it is constantly walking. During a single journey through the Sahara horses have worn out three sets of shoes, while the camel's feet are not even sore.
