MEETING OF BISHOPS.

Important Conference at the Residence of Archbishop Corrigan.

NEW YORK, Oct. 15.—The Commercial Advertiser says: A important meeting of the bishops of the diocese of New York was held in the residence of Archbishop Corrigan on Madison avenue and Fiftieth street. The meeting was designated as an annual meeting.

The fact that Cardinal Satolli, former apostolic delegate, is to sail for Rome on Sunday and personally report to the pope on the condition of the church in this country, is said to be one of the reasons for assembling the bishops of the diocese thus early

There was present at the meeting Bishop McQuaid of Rochester, Bishop Lidden of Syracuse, Bishop Wigger of Newark, Bishop Gabriels of Ogdensburg, Bishop McDonnell of Brooklyn, Bishop McFaul of Trenton and Bishop Burke of Albany Archbishop Corrigan presided.

It was reported that one of the matters to be discussed by the bishops would be the division of the province of New York on the ground that the work Archbishop Corrigan has now to do is too much for any man and that a new province could be created Both Rev Father Connolly, Archbishop Corrigan's private secretary, and Bishop Farley denied that there was any accuracy in this report.

It can be officially stated, according to Bishop Farley that the successor to Bishop Keane as rector of the Catholic university at Washington will be a priest and not a bishop

It was said that it was possible that Archbishop Corrigan would be raised to a cardinalate at the next consistory, to be held in Rome next month

Inasmuch as the bishop's meeting was to consider local questions only. Cardinal Satolli was not present at any of the sessions.

Surgeon Hamilton Resigns.

CHICAGO, Oct. 15.—Dr John B. Hamilton, the United States marine hospital surgeon, stationed at Chicago, has wired a peremptory resignation to President Cleveland. This action puts a new complexion upon a matter which has been agitating army officers for weeks. Some time ago Dr. Hamilton was ordered to the marine hospital at San Francisco. He objected to being transferred and made an official protest. This protest was overruled, and Dr. Hamilton was notified that he must proceed to San Francisco forthwith. He then decided to retire from the service.

Bank Receiver Appointed.

WASHINGTON, Oct. 15.—George Reed of Mount Pleasant, Mich., has been appointed receiver of the First National bank of Ithaca, Mich.

WORK OF THE WIND.

Great Damage Done Along the Atlantic Coast.

CONEY ISLAND'S HEAVY LOSSES.

Tides Reach an Unprecedented Height and Carry Many Buildings Away or Wreck Them Much Damage Done at All Seaside Resorts.

NEW YORK, Oct 14.—A veritable hurricane swept over this section of the country. The wind blew with terrific force, reaching at Sandy Hook a velocity of 78 miles an hour, the tides rose to a height many feet greater than has been seen for years and the waves all along the Atlantic coast swept in with a force that carried everything before them and did damage to the amount of many hundreds of thousands of dollars

Sandy Hook and points along the Jersey coast felt the fury of the storm most of all, but Coney Island experienced, so far as has yet been learned, the most direful results

The beaches were swept clean, pavilions were overturned and carried seaward, bathing houses and board walks, everything not far inland on the famous island, was torn up and piled high beyond the coast line or carried out on the raging waters

At Brighton Beach the stone walks in front of the big hotel were under water and toward the end of the afternoon the famous Seidl concert hall was inundated and partially carried away The well kept lawns in front of the Oriental hotel and Manhattan Beach hotel were laid waste and the lower portions of the hotels flooded.

Innumerable smaller buildings were simply picked up bodily and carried away by wind or waves

Long Branch was treated to one of the grandest sights ever witnessed The tide was high from midnight Sunday until late last night. The flood tide soon after noon did not make any appreciable difference in the height of the water. Great rollers came in from the sea and dashed themselves with terrific force against the bulkheading. A thousand feet from shore the great walls of water would rise and rush toward the shore, piling higher and higher into the air as they came. They crashed against the bulkheads with a sound like a bombardment with heavy guns Some of the rollers reached the top of the piers and poured tons of water into Ocean avenue, which was like the Cave of the Winds

The new iron pier which many times during the day was shaken to its very foundation so far has stood the test It is thought that it may go, however, if the force of the waves is not lessened.

All day long the wind blew a gale of 56 miles at Asbury Park At high tide at noon it seemed to be at the maximum. Thousands of people lined the shore and watched the fury of the waves and the destruction that came in with every breaker There had been some damage done on Sunday by the waves, but the heavy seas yesterday did much more Hour after hour the pounding continued and its effect soon became apparent Every moveable thing within the reach of the waves was used as a battering ram to break down the structures on the beach The great board walk that has stood the fury of the waves many times was pounded to pieces in many places From Deal lake to the boundary line it is a complete wreck

The marble monument which marks the spot where the New Era went down in the early days of Asbury Park was undermined by the waves and toppled over into the sea. The Davis studio on the beach was caught up by the waves carried onward and there shattered by the breakers The beach is strewn with wreckage

NINE SEAMEN RESCUED

Had Been Adrift Without Food or Water For Nine Days.

PHILADELPHIA, Oct 14.—The British steamer Evelyn, Captain Horner, from Huelva, Spain, anchored in the Delaware river, having on board the almost lifeless bodies of nine seamen, the crew of the Norwegian bark Loviso, who were picked up at sea after being adrift without food or water for nine days.

Their condition when rescued was a most pitiable one and so faint had they become that it was necessary to tie lines to them to haul them on board the steamship.

The particulars of the terrible suffering of the men are meagre, as they are too weak to go into details.

The Loviso, in command of Captain Anderson, left Mobile, Aug 17, for Rosacaro, with a full cargo of lumber. She experienced hurricanes and was badly disabled Her condition became so bad that all hands had to leave her in two small boats, and until the Evelyn hove in sight they had not seen a vessel for nine days. They could not have lasted another night.

Under treatment received since on board the Evelyn the unfortunate men are recovering, but their condition is still precarious.

Rumor Names Bishop Horstmann.

CLEVELAND, Oct. 13.—It is generally believed among the leading Catholic clergy of this city that Bishop Horstmann of the Cleveland diocese will be tendered the appointment of rector of the Catholic university at Washington, made vacant by the resignation of Bishop Keane. The bishop, who is at present in the East, has as yet given out nothing concerning his appointment, but it is said that he has been privately notified that he is the choice of the pope and that his visit in the East is for the purpose of making the necessary arrangements for beginning his new duties.

List of Cornell Students.

ITHACA, N. Y., Oct. 13.—The list of students in Cornell university is just out. It shows a total registration of 1,713 students, as against 1,611 on Oct. 11, 1895, a gain of 102 students. The list is still incomplete, as there is usually an increase of 100 between the time of issuing the list and the end of the college year, and the total registration for the college year will, therefore, probably be above 1,800.

Meeting of the Cabinet.

WASHINGTON, Oct. 14.—The first formal meeting of the president and his cabinet for nearly four months has been held at the White House. With the exception of Secretary Carlisle, all the members were in attendance. The session lasted only an hour and a half and was unmarked by any business of special importance.

GENESEE RIVER RAGING.

Lowlands Flooded and Great Damage Done at Some Points.

MOUNT MORRIS, N. Y., Oct. 15.—Owing to the recent heavy rains the Genesee river has reached its maximum height, seven feet above the crest of the dam Planks and boards have come down in large quantities. The Weeks, Allen and Pear flats are submerged. Canaseraga creek is backing up. The White basin is full Much surface water has come down from the hills on the low meadows

The river floods broke over the banks and flowed across the Swett farm in a torrent, doing incalculable damage to the rich land in its new course by washing away the alluvial soil and leaving gravel and stones.

The flats are covering rapidly below the village from river overflow and back water up the Canaseraga creek and a general overflow is imminent

Late in the afternoon the water began to slowly recede.

Loyal Legion Officers Elected.

PHILADELPHIA, Oct. 15.—The commandery-in-chief of the military order of the Loyal Legion of the United States had its annual meeting in the hall of the Pennsylvania Historical society Rear Admiral Bancroft Gherardi, U. Nothing can be learned as to assets and liabilities

England's Victory In the Soudan.

GLASGOW Oct 15.—George N Curzon, parliamentary secretary of the foreign office, in a public address here, exulted in the success of the Soudan expedition, which, he said, was suspended owing to financial considerations But the flag was now flying over Dongola and it must flutter over Khartoum to avenge Gordon.
