

IN SPEAKING OF

# XMAS GIFTS

WE DON'T THINK

That there is a more sensible or acceptable present could be offered than some of our durable

# UNDERWEAR

- OR -

# HOSIERY.

For Men, Women or Children.

PRICES WAY DOWN.

Competitors wonder and the public marvel at the small cost of such good goods. Easily explained. Being manufacturers we can save middle-mans profit to you.

### THE ORIGINAL WEEKLY PAYMENT JEWELER OF ROCHESTER

Watches

Are always acceptable Xmas gifts. We have them at all prices. Any watch we sell will give you the correct time. The wearing qualities are the best on the market.

We keep lots else besides rings. We make a specialty of stringing hearts, but our stock comprises everything a well stocked jewelry store should keep. Our prices start at good and keep on going up. You may come in here with a little money, or a lot of money, and we will guarantee you satisfaction. We are as anxious to sell you a \$2 pin as a \$100 diamond.

### Xmas Presents.

Would you like to make a present of a nice Clock, with a bronze ornament, or something in Silverware—Knives, Forks, Spoons, Tea Sets, Castors, Cake Baskets, Butter Dishes, and lots of other pieces—if so, come up and get them.

Diamonds

are the most interesting of all jewels. They have figured in history, poems and songs—been the cause of death, without number, linked hearts together, provided ready money, all while serving as beautiful ornaments. Nothing could be so acceptable or economical as a gift to one's, or one's friends. Prices range from \$5.00 to \$75.00 on all good flawless stones.

Don't Scold Your Watch

It isn't to blame. You need regulating and doctoring occasionally. It's the same with the watch. It may need only a rest—a little cleaning—a few touches from skillful hands. We will make your sick watch well—or we will supply you with a new one at an honest price.

If you are thinking of purchasing anything in Diamonds, kindly give me a call. I have some very fine goods in this line (not all that is in the city), and my prices and terms are right.
