CHICAGO'S ELECTION.

Harrison Receives More Votes Than the Other Candidates Combined.

CHICAGO, April 7.—The mayoralty election resulted in a decisive victory for the Democratic party, its candidate, Carter Harrison, having more votes than all the other candidates together.

The feature of the election was the strength shown by Harrison. He ran on the name of Harrison, and although an Independent, with no organization behind him, he secured more votes than the regular Republican candidate, Judge Nathan J. Sears.

One thing that helped Harrison greatly was that Sears was looked upon as being the nominee of the Republican machine which has grown unpopular in the ranks of the local Republican party. Harrison secured a heavy vote from men who would have voted for the regular Republican nominee had it not been that they wished to express their opinion of the machine. He drew some votes from the Democratic party, but not many, the main part of his strength coming from the Republican voters.

The vote for Heising was largely from the Germans and came from both parties. He was the nominee of the Gold Democrats, although he went before the people on a business men's platform.

The Democrats had an excellent organization, their candidate being handled well, and as the Republican ranks were hopelessly split, the result was never in much doubt, although Harrison, Sears and Heising all claimed that they could not be beaten.

The leaders of the Republican machine were not quite as hopeful as they claimed to be, and it is said that Sears was quietly traded for R. V. West, the Republican candidate for city attorney.

The campaign was fought for the most part on strictly local issues, although the Democrats had a silver plank in their platform.

The vote complete is as follows: Carter H. Harrison, Democrat, 144,828; J. M. Harrison, Independent, 67,078; N. C. Sears, Republican, 67,000; W. Heising, Business Administration, 15,116; John Glombeck, Social Labor, 1,289; H. L. Parmelee, Prohibition, 869; J. J. Pearce, Independent, 680; F. Howard Collier, Independent, 38; Total, 297,494. Harrison a plurality, 77,756. Harrison's majority over all, 3,822.

Complete returns from all the wards show the election of 23 Democratic aldermen, 6 Republican and 3 Independents. As a result the Democrats will have a majority of eight over all in the next council.

SUPREME COURT ADJOURNS.

Resolutions of Respect on the Death of Daniel Griffin.

SYRACUSE, April 8.—The April term of the supreme court was adjourned out of respect for Attorney Daniel G. Griffin of Watertown, the announcement of whose death caused great regret among local attorneys.

A meeting of the Onondaga County Bar association was afterward held, at which resolutions were passed upon the death of Attorney Griffin. Court will not convene Saturday in order that local attorneys may attend the funeral.

Mr. Griffin was one of the three commissioners appointed by the city of Syracuse to take evidence in the Skaneateles lake condemnation proceedings. The commissioners have been in session at intervals during the past year. It is the opinion of many legal authorities that a new commissioner will have to be appointed. This would necessitate a repetition of the work already performed, entailing a loss of many thousands of dollars to the city.

STRUCK GAS AT ROME.

Estimated Flow of One Million Feet in Twenty-Four Hours.

ROME, N. Y., April 8.—Drillers struck a big flow of gas on the plant of the Rome Brass and Copper company, at the junction of the Black river and the Erie canal, in the heart of the city.

There is great excitement in the vicinity of the well, and people stand around in crowds. The roaring of the escaping gas can be heard two blocks away. There is nothing at hand with which to stop the flow, the workmen not being prepared for such a discovery.

Joe Green, head driller from Bradford, Pa. who has had 30 years' experience in drilling, says he believes the supply is permanent. He estimates the flow at 1,000,000 feet in 24 hours under 3,000 pounds pressure.

MAYOR MAYBURY.

DETROIT, April 8.—Wm. C. Maybury, Democrat, was elected mayor by a about 1,000 majority over Captain Albert E. Stewart, Republican. Judge John C. Minor, Democratic candidate for police justice, was defeated by Judge Albert F. Sellers, Republican.

Maybury's election is looked upon as a decided defeat for Governor Pingree, who practically named Captain Stewart as his successor as mayor after the courts had overruled the governor's contention that he could hold both the offices of governor and mayor.

DETERMINED GREEKS.

Cheerfully Overcoming Difficulties on the Frontier.

SKILLFUL DISPOSITION OF MEN.

Greeks Disregard the Moral Value of Strongly Entrenched Positions—Relying in Macedonia Would Prove of Great Value to the Greek Forces.

LONDON, April 8.—The Lariss correspondent of The Times says:

After visiting the frontier posts I am convinced that the Greeks are showing plenty of strategic skill in disposing of their army and overcoming difficulties on the frontier. It is now clear that they are relying upon rapid movements in the field, particularly artillery movements. They seem to disregard the moral value of strongly entrenched positions, which the Ottomans lay great stress upon. If these are once passed, Thessaly will be at the mercy of the invading Turkish force. All hangs for Greece on the possibility that a rising in Macedonia would occupy the attention of the Turks.

The Hellenic embassies have omitted no effort to get the passantry well armed and ready for revolt.

The sultan has addressed an autograph letter to the czar expressing his extreme satisfaction at the energy which the czar has displayed in getting the other powers to adopt the principle of the integrity of Turkey.

The sultan hopes that that neither Russia nor the other powers will abandon that attitude. He solemnly affirms his profound deference to Europe and his extreme desire to conform to its wishes and counsels and adds that he considers the expression of desire on the part of the powers as legitimate and as dictated by a sentiment of genuine friendship for the Ottoman people, their sovereign and empire.

WASHINGTON, April 8.—President McKinley will sign his signature to the resolution for the relief of the Mississippi flood sufferers and immediately join Mr. McKinley and other members of the party, waiting in the parlors below for the trip down the Potomac in the United States steamer Dolphin. In the White House carriage were the president and Mrs. McKinley, Mrs. Nathan and a maid. The second carriage was occupied by the president's secretary, Mr. Porter, and Mrs. Porter. These and Dr. Bates, the president's physician, and Mrs. Bates, composed the party. Dr. Anderson, who is attached to the Dolphin, will also make the trip. The exact time of the president's return is not known, but if the weather continues good and Mrs. McKinley's health seems to be benefited by the trip it is probable the party will not return before the last of the week.

SATISFACTORY SHOWING.

Battleship Iowa Proves Herself to Be Queen of the Navy.

BOSTON, April 8.—The battleship Iowa, the last of the premium hull battleships of the navy, earned for her builders, William Cramp & Sons of Philadelphia, \$200,000 by making an average of 17.7 knots an hour over the regular government course off the Massachusetts coast in the four hours' speed trial required by the government under the contract.

The Iowa, by her work, proved herself to be superior to either the Indiana or Massachusetts by a considerable fraction of a knot and is the acknowledged queen of the American navy, if not the most formidable battleship afloat.

The day above water could not have been better. A light northerly air shifting to northeast, just as the trial began, helped the forced draught considerably, and as it shifted around still further to the east on the run back, it did not hamper the work of the big blowers.
