

**MURDERER SENTENCED**

**Murderer of Canovas Will Die by the Garrot.**

**TURNED PALE AND TREMBLED.**

Says He Had No Assistance in the Awful Work, Nor Was He Directed to Its Performance by Anarchists, Yet It Was For Revenge.

**VERGARA, Aug. 17.**—Michel Angiolillo will be garroted for the assassination of Senor Canovas del Castillo. Such is the verdict of the court martial.

Angiolillo turned pale upon hearing the sentence and had to be assisted from the courtroom.

About 300 persons were present at the trial. The vicinity of the prison was almost deserted, the public being apparently indifferent in view of the certainty that the death penalty would follow the court-martial.

The prisoner, heavily manacled, sat between two genarales and immediately in front of his judges. On a table nearby lay his revolver and other material evidence of the crime.

The president of the court read the declaration of eyewitnesses, after which the written statement of the prisoner was read by the clerk of the court.

Angiolillo, in the course of the statement, said that he left Foggia in October, 1893, and went to Marseille and Barcelona. At first he had no thought of becoming an anarchist, but while at Corunna he began to be interested in anarchist doctrine. He then returned to Marseille, and after his expulsion from that city he went to Belgium and London, where he passed most of his time in the society of anarchists.

When the execution took place at Barcelona on Aug. 17, one of the anarchists confessed participation in the bomb outrage at the feast of Corpus Christi, he conceived the idea of assassinating Canovas. Without seeking an accomplice he proceeded to Spain and carried out the resolution.

Angiolillo went on to say the passion for vengeance led him to commit the crime. As he was unacquainted with the manufacture of explosives he used the revolver.

The public prosecutor described the crime as "premeditated murder" and asked the court to impose the death penalty.

Lieutenant Gorria, whom the court had assigned as counsel to Angiolillo urged that the prisoner was demented at the time of the shooting, and made a strong appeal to the benevolence of the judges.

"While his counsel was presenting this plea Angiolillo listened in silence. Then he asked permission to speak for himself which was granted.

He thanked Lieutenant Gorria for his efforts, and denied that he had any accomplices or that he was an accomplice of those who had committed the bomb throwing outrage at Barcelona, or that he had participated in secret gatherings of anarchists.

When he began to speak Angiolillo looked at the president of the court, and said he had no idea of how to stop him if he pursued that line of remark or touched upon any matters not connected with the trial.

Angiolillo persisted in speaking of politics and the war in Cuba and in the Philippine. The president said: "All that has nothing to do with your crime." Angiolillo replied: "I must justify myself."

The president retorted: "That is no justification. Moreover, you can convince nobody in that way."

Angiolillo began again, but the president declared the trial ended and ordered the courtroom cleared.

After the prisoner had been conducted to his cell the judges deliberated for an hour and then announced the sentence of the court.

Schoeffe, who has been suffering with epilepsy, was gathering wood and wandered near the edge of the pool, which is an outlet for waste acid from the Queens County Oil works on Newton creek. It is believed that he was stricken with an epileptic fit and fell into the pool. He was taken to St. John's hospital, where it was found that he was severely burned. The hospital surgeon said he did not believe that Schoeffe would live. The pool is said to be nearly always full of sulphuric acid and naphtha.

**INJUNCTION MADE PERMANENT.**

**Operators Will Hostile to Fulfill Their Contracts.**

**PITTSBURG, Aug. 19.**—Judges Howe and Collmer handed down a decision in the injunction proceeding of the New York and Cleveland Gas Coal company against the United Mine Workers of America, Patrick Dolan, William Warner and others. The preliminary injunction was made permanent and the plaintiff was ordered to file a bond of \$5,000 to answer for such damages as may be sustained by the defendants by reason of the injunction.

The court ordered a similar decree to be drawn in the case against the Bunola mine.

The action at the meeting of coal operators at Cleveland is in accordance with the plan mapped out after the uniformity agreement had been formulated. The agreement provides that all coal contracted for on the 64 cents basis shall be mined at that rate until the contracts are filled.

It is known that the requirements of the lake trade by Sept. 15 are 6,000,000 tons. If the contracts are not filled the operators will not only lose large amounts of money but put themselves in a position to lose contracts for all time to come.

The price of coal shows no material increase at Pittsburgh. The ruling figure in large lots is 63 3/4 cents per bushel. There is no shortage of the supply and the demand is only ordinary.

The present holdings in the Pittsburgh market are not far from 7,000,000 bushels. Plans are being formulated for the maintenance of the strikers and their families for a prolonged period.

The expense of carrying the strike is placed at \$50 a day, and appeals are coming in every day for help for families in the mining villages.

In the Fairmont field O'Connell and his campers are still at the Montana mines of the Watson company, not having succeeded in closing them entirely.

The movements in the Kanawha valley show no change. The new campaign of the agitators on the Norfolk and Western railroad has apparently borne no fruit.

**Marching Strikers Under Arrest.**  
**FAIRMONT, W. Va., Aug. 19.**—One hundred and ninety of the Montana campers were arrested for marching, which Judge Jackson claims is a violation of his injunction. They were taken to the depot and guarded for five hours, when a special train took 24 of them to Clarkburg.

The organizers say that there will be no trouble in securing the liberty of the men.

Edward and Cole decided to swim ashore, and Frank was to row the boat back. Cole plunged into the water first, and was about 50 feet away when Callahan dove in. In a few moments Callahan threw up his hands and called for help. Cole, thinking that Callahan was fooling, made no attempt to go to his assistance. Frank, who also thought that his brother was fooling, laughed heartily. When Frank sank for the third time and failed to come up again the other boys realized that he was drowning and hurried to assist him, but they could find no trace of him. Callahan's father and some friends dragged the river, but failed to recover the body.

**Women Cleaned the Street.**  
**UNION CITY, Ind., Aug. 18.**—The women of this town have started in at street cleaning themselves. The place is in two states, Indiana and Ohio, and each part of the town has a separate government. The street dividing the two is called State Line street. The two municipal governments refused to have the dirt fly, because of a difference in opinion as to the expense, and for several months dirt accumulated in the thoroughfare until it became an eyesore and a menace to public health. Finally the women on both sides of the street, who do not share in the jealousies between their governments, got together and decided that they would clean the street. Accordingly they appeared in organized gangs with pick and spade and began to make the dirt fly. They had their wagons ready, and as fast as the dirt was shoveled into piles it was carted away.

He has reached the age of retirement, but prefers to remain in active service on the bench, and at the supreme court rooms it is said there is no present indication that he will retire.

**BOMB FIENDS AT WORK**

**Constantinople Panic Stricken by Explosions.**

**NUMBER OF ARRESTS WERE MADE**  
Remembered That an Attack Was Made on the Palace—Imperial Ottoman Bank Threatened—Sultan Closely Guarded by the Police.

**CONSTANTINOPLE, Aug. 19.**—The city is almost in a panic over the news of bomb explosions, attempted or accomplished, at three different points. The explosions are attributed to Armenians.

A bomb was thrown just outside the police headquarters in the Pera district. It failed to explode.

Almost at the same moment an Armenian, whose name, it is believed, is Garabet, was arrested at the Imperial Ottoman bank in the Galata district. He was carrying a package of explosives which he was trying to ignite.

A second bomb was exploded in a private road between the vizierate (office of the grand vizier) and the state council house. (One man was killed and several others were severely injured. The explosion shattered windows in the vizierate and did other slight damage.)

The police have made a number of arrests. Reports of the outrage spread rapidly through the city and caused great excitement. The police and the gendarmes at the sultan's palace are taking extraordinary precautions, which has given color to a rumor that the bomb throwing is part of a widespread plot.

The most ardent terror prevails in the precincts of the palace. In many parts of the city, particularly in the vicinity of the police headquarters and of the state council house, all the shops were closed, and it was necessary to call out the entire police force and the military before anything like calm was restored.

The Armenian who was arrested at the Imperial Ottoman bank was trying, it is reported, to place the bundle of explosives near one of the main entrances. The crowd who saw him delivered by the police to the police who had made made short work of him if they had not been prevented.

The police are vigilant as to the reason for summoning the palace guard and closing all the doors and gateways. It is rumored that a similar outrage was attempted within the palace limits, and that the approaches were barred to prevent the exit of the would-be perpetrator.

**BLOODY RACE RIOT.**  
Kerr Retains Arrest and Opens Fire on the Deputy Sheriff.

**LITTLE ROCK, Ark., Aug. 16.**—The bloodiest race riot that has occurred in Arkansas in months took place at Palm Springs station from Little Rock. Three men were shot and fatally wounded and two others badly injured.

Owens, a deputy sheriff from Perry county, had a warrant for Harrison Kerr, a negro, charged with murder. When he attempted to make the arrest at Palm Springs Kerr opened fire on the deputy. The first shot struck him in the groin.

Andy and Clark went to Owens' assistance, and five or six negroes joined in with Kerr. A pitched battle ensued, in which more than 30 shots were fired.

When the shooting was over Andy and Peters lay dead. Clark had staggered into his office and had fallen upon the floor.

Owens was lying in a ditch near the station, and Kerr and the remainder of his companions had disappeared. The entire town was at the scene of the shooting, and a posse started in pursuit of the fleeing negroes.

Harrison Kerr was found lying dead in the road a mile away, blood running from five or six wounds, and his arms flung out. He other negroes, including their flight and have not yet been captured.

**SAVED BY COLLISION.**  
Runaway Vehicle Collides With Another, Thus Saving Several Lives.

**ERIE, Pa., Aug. 19.**—George Stevens, wife and child and two young women with her met with a thrilling accident while on their way to the railroad men's picnic at Massasauga Point. They were in a two-horse carriage, and as the team started down a very steep roadway to the hotel the neckyoke broke.

The team dashed forward, threw Mrs. Stevens and the baby half out, dragging them along the road. The survey lilly came into collision with another rig and was upset.

Stevens and the two women guests escaped with bruises, but Mrs. Stevens and the baby were badly injured. Mrs. Stevens' injuries are a dislocated shoulder and cuts, and the baby was severely cut about the head by being dragged. But for the collision the woman and baby would have been killed.

**CLEAR THE STREETS**

**No Vehicles Allowed on Main Street During Day of Parade.**

**BUFFALO, Aug. 19.**—The most important move of the preparations for next week was the conference between Superintendent Bull, Manager Littell of the Buffalo Street Railroad company and members of the citizens' committee. It was finally decided that no cars would be run in Main street between Chippewa and the Terrace after 8 a. m. on Wednesday, the day of the big parade.

As usual the cars will bring people down town to their places of business early in the morning, but after that they will either stop at Chippewa or be switched off to Pearl or Washington, and the passengers sent down that way.

Superintendent Bull decided that the safest plan was not to allow vehicles of any description in Main street during the parade, so the side streets will be blocked with wires, leaving the main thoroughfare clear for the progress of the veterans.

This action on the part of the officials will add materially to the comfort of everybody concerned.

**WINTERING AT SKAGWAY.**  
White Pass Trail Reported in Bad Condition, Being Hoggy.

**VICTORIA, B. C., Aug. 19.**—Steamer Queen arrived from the North.

According to Purser Carroll, very few of the 1,600 men in camp at Skagway and Dyra will get over the pass this winter. Men have started to build a new trail, but found it would take 300 men three weeks and abandoned the idea.

Probably 250 men will get across in time to start down the river.

A committee of 25 was appointed to keep order at Skagway. Everything is orderly and everyone in good health.

On Aug. 7 high tide drove some campers back from the beach. The road is good five miles from the bay, and goods hauled by wagon that distance. After that the trail is bad.

Men are leaving loads at Skagway. One sold for \$50. Most of the men are preparing to winter at Skagway.

A packer from Portland lost eight horses and their packs by falling down a cliff 70 feet. The packer narrowly escaped.

The report that the Dabaue of this port has been seized at Dyra is denied by the officers of the Queen.

Men who have arrived from the North state that goods can be hauled over a large part of the highest trail in wagons. Most of the rest of the way on pack horses. For about two miles, over the summit, men have to carry their goods.

About two miles of the road is corduroy, but still a large portion of it is boggy. A few men get through, but very slow. Horses are scarce compared with the number of men there.
