A while ago you could have shouted in the ears of most of these people and they would not have heard you. Now you can whisper to them the question, "Is Dr. Grady's treatment really better than any other?" and the answer will be quite as prompt and direct as the statements they make in this column.

DISEASES OF THE EAR

This condition results from catarrh, which extends from the throat along the eustachian tubes into the ear, causing defective hearing. The treatment that cures this condition is the "Grady treatment."

Do you have a ringing in the ears? Is your hearing bad cloudy days? Are there sounds heard? Do you have earache occasionally? Are there sounds like steam escaping? Do you constantly hear noises in the ears? Do the noises in the ears keep you awake? Is there a constant roaring like a waterfall in head? Do you hear better on some days than on others?
