## Extraordinary Diagnosis Remarkable Cures.

All Chronic and Obscure Diseases Detected Located and Described Accurately.

When sick is the time we need the best advice.

Dr. Grady gives a most wonderful diagnosis of disease. He will surprise you by at once locating your disease, giving every symptom of the case, pointing out every ache, pain and disagreeable feeling, telling precisely how you feel and have been handled better than you can tell yourself.

He will tell you whether the disease is curable or not, and if curable what course must be pursued.

No person should doctor any further or take any more medicine before consulting him. A visit to him is sure to save endless trouble, expense and suffering.

Read his late report of people actually cured. Look at the figures and see what has been achieved in Rochester and vicinity. Note the enormity of his experience, and then doubt, if you can, the true secret of his success. The following is but a brief synopsis of the different diseases treated and the number of cures made:

Special diseases not classified on account of being of a private nature, 1,480 have been cured.

Dr. Grady is a traveling physician. This city is his home. He is permanently located here for life. All patients receive honorable treatment at the lowest possible cost. He only charges for medicines used while under treatment. If your case is incurable he will tell you so and advise you not to doctor. Dr. Grady has the largest practice of any physician in this country. His offices are always crowded. Hundreds turned away weekly unable to wait their turn. A strange fact about Dr. Grady's practice is that fully one-half of all patients that are cured have been sent by former patients or their friends, who have been helped or cured. Write or call on his patients and investigate for yourself. Call on Mrs. C. Prince, Old Ladies' Home. She will tell you she was cured of Catarrh, Creeping Paralysis and Deafness; Mr. John Lee, Powers hotel, Miss O'Loughlin, 88 Campbell street, Mr. Horn, 55 Hollister street, Miss Jennie Schaefer, 25 Concord avenue, Mrs. Burke, 4 Central park, and hundreds of others.

Patients at a distance successfully treated by mail. All letters promptly answered, in case stamp.

Consult the European specialist on all sexual, nervous and chronic diseases. Remember, consultation, advice, services and surgical treatment absolutely free until cured, to all for this month only.

The doctor can be consulted from 10 to 12 A. M. to 5 and 7 to 9 P. M. Mondays, Tuesdays, Fridays and Sat. only.

Miss Katie Dinneen, age about 10 years, second daughter of George Dinneen, section foreman of the New York Central, living south-west of the village, met with a very painful accident last Friday. While on her way from school which she attends in the Hazen district south of this village on returning home she found a little tin box which seemed to be sealed, the little girl brought it home with her and tried to open it she did not succeed, however. The next morning while Mrs. Dinneen was about the kitchen attending to her daily duties and Mr. Dinneen had gone to his daily work the little girl arose earlier than any of her brothers and sisters and not forgetting her little treasure went to open the tin box. According to her story she picked and pried it until it exploded with the report of a cannon. This startled the mother, and rest of the children from their slumbers. The mother upon entering the room where the child was found her lying on the floor amid a cloud of black smoke. Upon investigation the mother found the flesh on her little daughter's left hand which held the shell, all torn in shreds from the bones and the forefinger of the right hand badly lacerated. The little tin box proved to be one of the dynamite cartridges such as used by railroad men by placing it on the track to give warning of approaching danger. This seems to have been accidentally dropped or lost by some one and found by this little girl. Doctors J. W. Putnam and Jennie M. Turner were called and dressed the wounds. They are unable to say at present as to whether the little girl will have full use of the hand. She is doing very nicely.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless this inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
