Auburn.

The return of our Auburn volunteers last week was the occasion of the most enthusiastic reception ever given any body of men in this city. The boys were all pleased to get home and enjoy the comforts of home life after a four month's experience in camp. Life which has caused nearly all to feel that they had had enough. Many stories of interest are related by the boys and are listened to. The Catholic members of our company will endeavor to watch for the families and souls of several priests who did all in their power for the spiritual and temporal comfort of the men. Father Sherman a Jesuit priest and a son of General Sherman of military fame, took an especial interest in the boys of the Third.

When every indication pointed to the departure of the Third Regiment for Porto Rico he presented each Catholic in the regiment with a pair of beads, medals, and other devotional articles and urged the boys to prepare for a struggle and probably death. He was full of piety and patriotism as one of the boys expressed it. He told them to fight for their flag as long as they could fire a gun, never to retreat. He urged them to pray for success and to pray for other souls while in battle.

One morning the boys of Company M, arose at 3 o'clock went over into the woods at the edge of the camp, where Father Sherman heard their confessions and administered holy communion to all but one in the company. The boys became very much attached to this Jesuit who was but one of the hundreds of Catholic priests who followed every branch of the service wherever it camped or fought, administering to the spiritual welfare of the men and prompting them to uphold the flag at any cost.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless this inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
