This season at least two or big round moon we had at home two three of my old nets have visited me. and all seem to be as tame as on the Johnny, aged five, had a habit of previous year, but the early birds that using in his conversation every big are on the migratory move I cannot word he happened to hear, regardless induce to stay. They nearly all go furof its meaning. One morning he and ther north to set up housekeeping, I his elder brother were trying to wash never expect to keep one for any from the same bast, to Johnny's detri- length of time until the young birds

claiming, 'Mamma, Charley's metropo- During the month of June last year I had two or three guite tame, but one Mamie, a Chicago miss of six years in particular never saw me anywhere was entertaining her five-year-old around the place but he would come cousin from Boston, and one day while hovering around me, and I never failed out walking the little hostess suggested to take his little bottle from my pocket some refreshments. As they neared and give him a sip or two. I have disthe place Mamie sa'd: T'm going to covered that it is best to give them but get a milk-shake; . hat are you go- a little at a time, as they are apt to ing to have?' 'Oh, its immaterial,' re- overfeed themselves. Lotten sit on the plied the little Bostonian. I shall plazza to read my paper, and when I have a tame bird I hold the bottle—
with the bow attachment—so that he
can sit and help himself without interfering with my reading; and last summer, as I was reading. I heard my pet
as I supposed, fly up and take his sext,
and I paid no attantion to him for
some time. I then looked up to see
what he was doing; and to my surprise
what he was doing; and to my surprise
what he was doing; and to my surprise probably order a lacteal vibration have a tame bird I hold the bottle-

Grandpa cays my two cycs twinkle,
Like the stars away?

Mamma says, I'm her baby Nell;
Brother calls me "sia."
But sister a bean was first to tell,
I'm che one they'd miss.

I s'pose there's lots of mischief done,
But I didn't pout.

When Papa said: "My watch won't
run,"
Though I'd washed it out.

Now Grandpa found his wig one day
Hanging up to dry;
I, not liking the color gray,
Dipp'd it in the dye.

Dipp'd it in the dye.

While he was at school:

Some time. I then looked up to see what a some time is then looked up to see and the my surprise and delight there sat an old full-plumaged male bird.—a friend of the previous year. But he never repasted his visit.—Florida Correspondence, Forest and Stream.

would stail such a possibility visit on the significant of the significant o of the box make a number of small holes. Each hutch should have two compartments, one of which should be open at the front door with wire. and there should be two wide doors. Let hutches be at least a foot from the ground, and do not place one above another. Let them also be where sunshine can reach them. Give an abundance of clean, dry bedding.

Regularity in feeding is very important both as to hours and quantity of food given. You must have a fixed feeding time, then you will be less likely to forget the helpless creatures dependent on you. The morning meal should never be given later than 8 o'clock: never feed them at noon, as that is the time for rest and sleep; the intesecond meal should be given about sun-"Be sure to allow the 'big boy' of set, and this is the principal meal, as the family to say just how he wants rabbits est with the greatest appetite his room." writes Mrs. John B. Sims during the night. You may give them in an article on "The Sleeping Room turnips and other root vegetables, cata, on the Farm." in the Ladies' Home peas, beans, pollard, meal, bran and Journal.
