There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has pronounced catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only medicinal cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

It seems to some of the Catholics of this town, that one of the things needed is what might be called a social club for the young people, having for its purpose first, the moral and social advancement of its members and last but by no means least, the extermination of the church debt. Though there are a number of Catholic societies in town, none of them have such purposes. Nothing is meant to be said of the other societies, but in a social club where there are no insurance, dues, or anything similar to pay, much could be accomplished in the forward direction. During the season many dances, social plays and various entertainments could be given and the proceeds very appropriately applied on the church debt. This could be done by an exceedingly small effort on the part of each one, if all were united. Moreover, this could be done without soliciting money to diminish the church debt, each and every person from whom the money comes, would get his money's worth which is surely the point one considers. A club of this kind, could be maintained very easily, almost without expense, and the young people would derive a great deal of pleasure and benefit.

The system of water works voted for this village began on Monday Oct. 30th. The job is let in parts to different contractors, all to be completed in one month. The work is so done by Italians against the wishes of the laborers of the place many of whom are tax payers.
