A New Book by Katherine E Cenway.

"New Footsteps in Well Trodden Ways,' being the memories and suggestions of a sojourn abroad, chiefly in Italy, England and Ireland, by Katherine E. Conway, will be out in attractive book form for the Christmas season, with the Pilot Book Publishing company, Boston. The request for the collection and republication of these sketches in more enduring form, has come from so many quarters, that the author has waived her own judgment in the matter, and the book has been prepared to meet a real demand in America and to all Catholic inter-It may be of some use or suggestion to ests in this country. ## CHRISTIAN BROTHERS

#### Archbishop Riordan Will Champion Their Dause at Rome.

At the annual meeting of the Cathoilc archibishops of the United States, held in Washington == week, it was unanimouslf agreed that the hierarchy of this country should support in their efforts to have Latin and Greek retained in the curricula of their schools in this country. Word has been received from Bishop Byrne. of Nashville, who went to Rome to champion the cause of the Christian Brothers before the Vatican authorities, and who has now returned, but no written report has come from him. An appeal from the Christian Brothers who have been deposed from their places at the heads of colleges throughout the country, including some from New York, St. Louis, Chicago, Washington and Rock Hill, Md., asking the

assistance of the Archbishops, was faworably received. Some time ago the Archbishops authorized Bishop Byrne to speak for them at Rome, in behalf of the Christian Brothers, and they also signed a petition to the Pope, asking that he reverse the decision of Brother Gabrielle-Marie, head of the order. To-day the Archbishops made the plea of the deposed Brothers the basis of another agipeal to the Pope. They had found nothing, after close examination, to change their view in the matter, which was that the Brothers in this country should be allowed to adapt their schools to the other schools of the wountry and continue to teach Launand Greek. Consequently, the Archbishops reaffirmed their former petition, and again requested the Pope to favorably answer the appeal of the Christian Brothers of the United

States from the ultimatum of Brother Gabrielle-Marie forbidding them to teach the classics. Archlishop Riordan, being about to

leave for Rome, was commissioned as | the special representative of the American hierarchy to bear the message to the Pope It was also resolved to request Brother Gabrielle-Marie to restore to their posts of duty in the United States the Brothers deposed from their positions at the heads of col-James - M. They thought the deposition of Brothers and their assignment to work in foreign lands was a distinct flow to the cause of Catholic education Our Stock for Holidays is now be permitted to continue the teaching of the classics for twenty years, and insisted that no restrictions of this kind should apply to them. pose that the members of the Irish Fusileer military organization are all Irishmen. I note that the telegraph reports make it appear that because this organization is doing some heavy fighting in the Transvaal the battles of England are being fought best by Irishmen. This is by no means the case, when it is understood that the name of the regiment has nothing at all to do with the nativity of its mem. bers. In the Fusileer regiment fight. ing the Boers probably not more than they are the greatest fighters in the world cannot be denied.

### MUST RESIGN HIS SEAT.

The National anti-Polygamy League, which is composed of some of the most premiment people in the country, are to meet with stubborn resistance in the unscating of Roberts. At the Eastern headquarters of the Mormon church the other day in Brecklyn it was stated that there was no truth in a report telegraphed from Washington that Representative-elect Roberts of Utah intended to resign his seat in congress as soon as practicable after he was sworn in. The telegraphed report said that the purpose of his resignation would be to avoid the ventilation of the internal affairs of the Mormon church, which was sure to follow if his status in the house was attacked.

'Congressman Roberts is right here in town," said a man at the Brooklyn headquarters. "He has no intention of resigning. You can state that almost daily announced. Thus it is positively. He does not intend to resign or die just yet."

His godfather was Wong Ting, a convert of Father Hughes, who is practising physician of the local Chinese colony.

> It is announced on excellent authority that courses of instruction and exhortations in preparation for a proper celebration of the Holy Year will be preached not only in the four primary basilicas of Rome, but also in a large number of the more popular churches of the holy city. The influx of visitors is already considerable, although almost all of those who have arrived up to the present must be excluded from the number of the 80,000 pilgrims who have used the reduced

traveling rates of jubileetide. The promised immigration is likely to be ten times more numerous, while the preparation of further pilgrimages is stated to-day that two of the largest transatlantic liners will be taken for the transport of the pilgrims from the United States. The work of organizing milgrimages to Rome from South Italy is very active, and promises to be equally successful under the patronage

The Brothers in this country are a unit on the subject, and, although inroads were made in their ranks by the recalling to Paris of their most prominent leaders, the rank and file have stood faithful, and the teaching of the classics \_ontinues. An appeal was taken to Rome, and,

being so strongly backed by the hierarchy, the Brothers hope for a successissue, and also to have their old leaders restored to them. The last to go to Paris was Brother Fabrician, of Washington. Through the efforts of the Washington alumni of St. John's College, formerly presided over by Brother Fabrician, the alumni of the Brothers' schools throughout the country are writing to help their former teachers. The Brothers have a large number of excellent colleges, thousands of pupils and teachers, and millions of dollars in property. They declare their schools will be ruined if the decree of their general is enforced, as it will be if the appeal to Rome fails.
