The prolonged illness of Vice-President Hobart had prepared the public mind for the announcement of his death and it occasioned but little surprise. Mr. Hobart was not greatly distinguished as a public man until he for ball. He proceeded to explain fice in the Nation in 1896, and later on the election. But he had been a successful business man with large and growing interests, the care of which undoubtedly sapped his vitality and brought him to the grave at a time when he should have been at the very theight of his power. What is a Club.

The meaning of the word "club" was explained in two ways by Mr. Samuel Rosenfeld, the president of the Phoenix Club, at its recent annual meeting in Baltimore. He talked about clubs in general, and the way in which women looked upon them in particular, and then drew a wilty picture of what the word C L U B meant. "C." he said stood for cards in the average woman's mind. "L" stood for luncheon, including estables and drinkables. what a club really meant to a man, and, deftly transforming the meaning of he club as generally inferred, con-

cluded by saying that "C" really stood for culture, that the "L" really stood for literature, that the "U" stood for unity, and that the "B" stood for brotherhood. There are other clubs which might give a different version of the etymology of the word.

Three or four of the guerillas had dropped from the trees and the Spanish stragglers had been driven back toward Santiago by a rattling fire from the Springfield rifles of the volunteers. The weather was entirely too hot to follow up an advantage gained over a few rice fed conscripts, and ment would call upon them that day,

"Hello!" exclaimed De Jones. "Here they come to our pink tea! I wonder how they found out we were receiving this afternoon. Get out the Boston wafers, Sarg., and I'll hunt up the souvenir snoons."

"They" proved to be a slender young woman, who walked with a springy Death in the form of foreign con- step, and an elderly woman, who was anything but sylph-like, who seemed often and has been disappoint- to roll along the brown earth. There was a look of terror in the eyes of both of them. They advanced toward the American soldiers and held their hands above their heads.

"Mercy, mercy, Senor!" cried the girl, in broken English. "Tell them to sit down on the sofa and make themselves at home," sug-

"We beg protection," said the younger woman. "We have come from the city, and we beg to be spared Wilkins, who remembered some-

"Do not speak a Spanish more, Senor," she said. "I have the English" very well. I went to school in Connecticut."

Whereupon the men who had been engaged in the gentle occupation of exchanging compliments with Spanish foemen burst into an uproarious gustaw, to the great amnoyance of Sergeant Theodore Wilkins.

That Spanish of yours is great." uszesied the corporal.

A lieutenant came up just then. The come from beleaguered Santiago in order that they might escape death inthe bombardment which was sure to come. The lieutenant told them that | Cor. Alien and Platt Ste they need foar no danger, for "los Araericanos" did not make war upon women and children. He ordered Sergeant Wilkins and a guard of two men to escort the Visitors out of harm's

Teddy Wilkins was very young. He was so youthful that he had had hard 40 North Ave., near N.Y. CR. H. work in getting into the regiment when he enlisted shout a year before. He had been educated in a military school, and the mechanism of drill

seemed a second nature to him. He remembered as he escorted the refugees through the chaparral that there was a situation in a grand operawhich was not so very different from the one in which he found himself. He wondered if Carmen were as heautiful as the Cuban girl who picked her way among the fallen branches and the stones which lay in their pathway. Then he tried to convince himself that he knew a girl in Harlem who was far more so. The more he advanced this proposition, to himself, the more was he convinced that it was utterly untenable

"Senor." said the girl, "you are very kind. You are our very valiant kn'ght."

Teddy Wilkins' youth often caused him to speak hastliy. He glanced at the young woman's mother, and, being convinced by her look of entire stolidity that the duenna did not underetand English, he remarked, in a low and supposedly tender voice. "I wish that you would say, 'my,' instead of our, senorita. I should be very happy if you did.

The young woman laughed, and then checked herself.

"Ab, senor," she said, "I have left those behind who were very dear to me. I think only of being reunited to

"Let me go in search of them." exclaimed the young sergeant. "I will so everywhere to find them in order to win even a smile from you."

"Senor," responded the young woman, "there is nothing in our Spanish tungue to describe one so noble. You are indeed a Sir Galahad. They came with us and were frightened from us. I have no doubt that they have munceeded in also placing themselves in the protection of los Americanos, Silva is my earnest hope."

The girl stepped back in a coquettish way so that the young sergeant might walk beside her. The more he talked with her the more he was convinced that she was hiding a great sorrow. There were lines in the ciassical forehead which showed that the Young woman was more worried about the safety of those whom she
