## Coffee Pot Economy

With a KIN-HEE Quick Coffee Pot you use only a teaspoonful of pulverized coffee for each cup of boiling water "and one for the pot." reverse the pot, remove cap from air valve—and your coffee is ready to serve. There is no waste and you get your coffee as you like it. No eggs—the cloth strainer does the clarifying. No bag to become foul or bag ring to rust. No grounds—nothing but rich, clear coffee.
