# CITY NEWS.

**ST. JOSEPH'S.**  
Miss Agnes M. Henricus and Mr. George X. Gores were united in marriage at St. Joseph's Church Wednesday at 4 P. M. The ceremony was performed by Rev. Father Kessel. The ushers were Messrs. E. F. Henricus, F. P. Reichart, F. J. Koch and W. H. Klingler.

At the ceremony a wedding dinner was served at the home of the bride's mother, 123 Weld Street. A large number of the friends of the happy couple gathered to wish them much joy and happiness. Mr. and Mrs. Gores will leave on an extended wedding tour to Philadelphia, Baltimore and Atlantic City and will be at home to their friends after October 1 at 628 Clinton Avenue North.

**COOK OPERA HOUSE.**  
The regular season of vaudeville opens at Manager Moore's cozy playhouse on Labor day with an array of talent that will, no doubt, please all his Rochester patrons. The theatre itself is all brightened up, and in some places remodeled in such a way as to furnish many added comforts; the most important will be the addition of the ladies' cozy corner and writing room on the balcony floor, a ladies' waiting room to the left of the lobby, besides many new decorations in the interior. The principal features of the stage performance will include that extremely grotesque comedian, Eddie Girard, assisted by Miss Gustie Gardner, who together present numerous songs and dances in their variety sketch entitled "The Soubrette and the Cob." Another feature that will be a pleasing announcement, especially to the elder theater-goers, is the appearance of Mr. George Ober, the eminent comedian, who is well known in Rochester. An extra attraction has been added for the opening week in the person of Miss Redmond, who appears in a new electric scene act entitled "Dion Cato." The prices will remain the same as last season, and seats can be secured one week in advance by applying at the box office.

**Labor Day on the 'Manitou Beach Line.'**  
All of the hotels along the "Manitou Beach Line" are making special arrangements for their friends and patrons, and all visitors who go there for a day's outing will not be disappointed. This is the finest place in Western New York, with eight miles of beautiful safe beach, just where you can take your wife and children with safety and pleasure.

Boats and fishing tackle very cheap. Round trip tickets via New York Central, 30 cents; half fare, 20 cents.

**NOTICE TO SUBSCRIBERS.**  
Our city collector Mr. Carl Reynolds, will call on subscribers in parishes located on the north side of Main Street during the coming week. Kindly have the money ready when he calls.

**Pernia Lightning Photography.**  
The Hendrick Commercial Training, 340 Powers Block, opened only last spring, but already its stenographers have established a fine reputation among the business men of this city from whom we will shortly publish testimonials. Its stenographers are "winners" and "stayers" the first because they win over all others wherever they apply for positions, because they write with requisite rapidity and correctly transcribe their notes, and "stayers" because once employed their employers will not part with them. There is of course a reason for this. They have a conscientious instructor, a practical stenographer, Miss Hendrick, one of the most competent shorthand teachers in Rochester, and they have the best shorthand before the American public, the Pernia, the only system taught in Rochester having the highest gold medal from the Columbian Exposition for all points of superiority. The latter statement has been made through the city daily and weekly papers ever since the school opened and has not once been denied. Let us hear from the other schools their silence gives consent! We ask the patronage of the readers of this paper to help us to build up the largest as well as the best business school in Rochester. Come and send and help us to establish a school as extensive as it is first class.

**We keep a supply of A. O. H. and A. O. H. Auxiliary blanks. Call and get our prices. They are as low as any. All kinds of printing done at reasonable rates. THE CATHOLIC JOURNAL office is at 324 1/2 Main street East. Telephone 2853.**

**Land of the Midnight Sun.**  
Among a great number of high-class attractions on the Midway, there are but very few which, produce, by means of electricity, beautiful and realistic natural scenes and incidents. "The Land of the Midnight Sun" or "A Trip to Dawson City," is an electric scenic production, which portrays with a fidelity of detail that is remarkable, a trip through thousands of miles of snow and ice and scenes of great beauty and grandeur, to the frozen north, or the Land of the Midnight Sun.

In this performance, one is taken on a trip from Omaha, Nebraska, to Dawson City, Alaska. The route lies through the great Klondike gold fields up the majestic Yukon over Chilcot Pass, White Horse Rapids to Dawson City, the metropolis of our great Northern possession. The audience is seated in cushioned opera chairs, and in this comfortable position, the boat is seen to glide up the Yukon, the Mississippi of Alaska, there passes in review endless stretches of snow-fields, snow capped peaks, glaciers and avalanches, all standing out against the lurid heavens as tangible and real as if life itself, and so on, till the destination is reached when the destruction of Dawson City by fire is the culminating event of the trip. The flames are seen to leap from one building to another through the suffocating smoke till Dawson City is laid low, just as it actually occurred, Jan. 10, 1900. Beauty and realism are the predominating features of this attraction.

**Chiquita**  
Is the Exposition's Delineative Belle, presenting continuously her queenly loveliness in her luxuriously appointed parlors adjoining Postock's Wild Animal Arena.

**Manu.**  
The famous Chippanzee. Almost human. The most entertaining and instructive feature of the Midway. A marvelous creature. A realization of the Darwinian theory.

**Darkness and Dawn**  
Is one of the finest things on the Midway. Rochester people will regret it if they miss this grand representation.

**The House Upside Down**  
Is acknowledged by the public to be the greatest thing on the Midway.

**Stock Show.**  
Undoubtedly the greatest attraction of the entire Pan-American Exposition is that of the great Bostock Wild Animal Arena. It is truly one of the marvels of the twentieth century. The wonderful feats of wild animal subjugation shown there are nothing short of miraculous. As one passes into the auditorium of the massive structure wherein nearly a thousand specimens of the denizens of forest and plain, jungle and mountain are caged one imagines himself transported suddenly into an amphitheater consisting of every latitude of the world. Here he finds represented every animal from the friendly dog and timid squirrel to the ferocious lion and man-eating tiger.

Unlike most traveling menageries the animals in the Bostock Show are in perfect condition. No scrawny, ill-kept beasts are there. All are worthy representatives of their species. Owing to a new powerful disinfectant used in the auditorium, no offensive odor, generally so noticeable where there is a collection of animals, is to be found.

Probably the most wonderful of the many wonderful performances given in the massive steel arena (which, by the way, is 70 feet in diameter) is that of Captain Bonavita, who enters this steel-barricaded stage with 25 full grown, forest-bred, male African lions and puts them through a series of groupings and feats that are awe-inspiring and thrilling to an extreme. This act is conceded by all who have been so fortunate as to see it, to be the scene of the training—far superior to and surpassing anything of the kind ever before attempted.

One notable feature about the Bostock show is that one price of admission admits the visitor to the entire exhibition. There are no after-charges, so annoying to the patrons of the Midway. Mr. Bostock is to be congratulated upon this "just" arrangement.

**Johnstown Flood.**  
The Scenograph concession, "The Johnstown Flood," is one of the most attractive productions on the Pan-American Midway. In fact, experienced judges say it is one of the most realistic panoramas they have ever seen.

The panorama is 100 feet in length and at least 40 in height. The large auditorium is darkened and presently the velvet curtains are drawn aside and the City of Johnstown as it appeared on the morning of May 30, 1889, is seen. Then the mantle of night falls and Johnstown sleeps.

The moon peeps over the top of the mountains. A passenger train, lighted and apparently filled with visitors, dashes across the foreground over the lines of the Pennsylvania Company. The morning comes again and the sun rises and lifts the mist from the valley. Johnstown is astir. The populace streams into the streets. Suddenly the sky darkens, lightning, flash, and the distant peals of thunder, can be heard. The rain begins to fall first in little spattering drops, and then in torrents. A mighty roar is heard and the flood is upon the community. The South Fork dam has burst and then water is tearing through the valley sweeping everything in its path, and scattering death and destruction on every hand.

In the distance can be seen the flames from the Catholic Church at which spot so many lost their lives and whose bodies were never recovered, their being burned beyond recognition. Presently a rainbow appears, like a promise from heaven that no further harm shall come to the people of the city. The sun shines, lighting up a scene of death and devastation such as was never equalled within the confines of this country. For a second all is dark again and in a flash of light is seen Johnstown as it appears today, a nestling, thriving city, apparently fully recovered from the calamity of twelve years ago.

There are many shows on the Midway—some bad, others indifferent, and few really good. The Johnstown Flood is one of the best of the latter. It really is worth seeing.

**The Indian Congress.**  
There is one concession at the Pan-American Exposition, this is thoroughly touched with merit. Reference is made to the Indian Congress. Its without doubt the greatest amusement and educational institution ever framed and presented to the public. It is the only concession at the Pan-American Exposition that can boast of the sanction of the government. The 700 Indians at the Congress are there by special permission of President McKinley and Secretary of War, Root. That it is backed by the Government makes it perfectly good. Uncle Sam will not permit any condescending or contemptuous treatment of the Indian Congressmen. Geronimo, Wenceno, and Calamity Jane, Geronimo is noted as the Apache war chief and United States pioneer of war.

Wenceno is only 18 years of age, is a Sioux Indian maiden, and the champion rifle shot of the world.

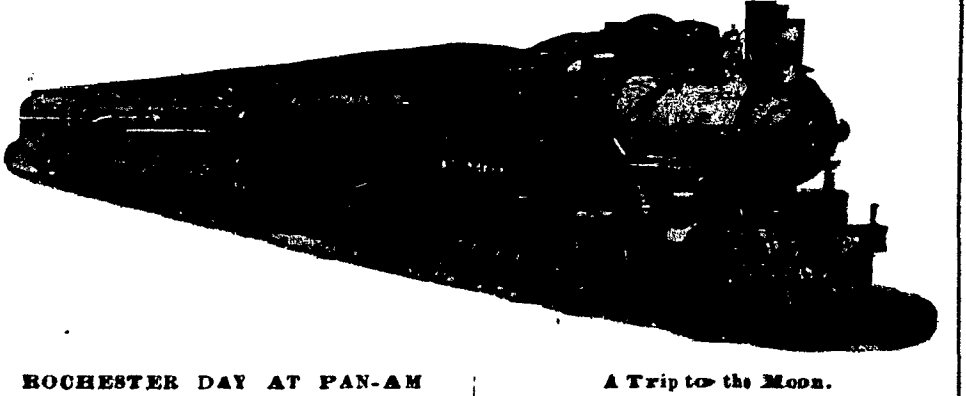

Calamity Jane. History records her as the famous noted of frontier women. For ten years she was a scout under General Crook. During a part of her career she saved the life of Capt. Egan of Rochester, N. Y., who gave her the name of Calamity Jane.

**Philippe Village.**  
168 active, all ages exhibited by Government permission. Concession covers eleven acres. Native theatre, houses, cafes. National Glass Company.

Visit the National Glass Company's Complete factory, North Midway. Pan-American Exposition, showing all processes of glass manufacturing. Figure of Miss Marjorie Elliott draped with dress made of glass. Value \$2,500. Furniture upholstered with glass. The feature of the Midway.

**Wild Water Sports.**  
Appeal to all who like life and dash. The heating scene, introducing plunging horses, wild boars and hounds, and the high diving acts are the awe-inspiring features of the Midway.

# Rochester Day, Sept. 7th. ALL ABOARD.

**ROCHESTER DAY AT PAN-AM**

**A Trip to the Moon.**

All those in authority are making the greatest provision for the approaching Rochester day at the Pan-American Exposition, Saturday, Sept. 7th. The Chamber of Commerce has been active in its endeavors to make the day a glorious success, and the city officials are not idle in this respect. The following letter was received by the chamber from the mayor of Buffalo:

Buffalo, N. Y., Aug. 28, 1901.  
President, Rochester Chamber of Commerce:  
Dear Sir: It gives me great pleasure to learn that the Chamber of Commerce has appointed Saturday, September 7th, to be Rochester day at the Pan-American Exposition and is making great efforts to make the day a memorable one.

Personally and on behalf of the citizens of Buffalo, I desire to thank the Chamber for its active interest, and to assure the people of Rochester that their welcome will be hearty and sincere.

It would afford the city of Buffalo much pleasure and satisfaction to know that the mayor and the common council of the city of Rochester would participate in the programme, and I sincerely trust that they will accept the invitations which have been sent them.

I hope that Rochester day will be a record breaker, I am,  
Yours very respectfully,  
CONRAD DIEHL, Mayor.

E. J. Coats, who represents the Exposition, has hopes of arranging a base ball game between the officials of both cities. It is possible he would like to have the stadium of Rochester meet the stadium of Buffalo at the stadium. He would like to have the police and firemen of both cities oppose each other in running races, broad jumps and other feats of athletic skill.

Much satisfaction is expressed over the ten minute schedule of the Central railroad. There is a movement on foot, and it has gained considerable strength, to have all the factories, groceries, markets and other places business close that afternoon in order to give the employees an opportunity to attend the Pan-Am.
