Mineral Wax. The day of the wax candle is supposed to have gone by with the advent of paraffin, gas and electric light, yet as a matter of fact an enormous number are used every year all over the world.

Tree Trunks and Branches. It is a general impression that the trunks of trees lengthen, but this is not the case.

Again, it is worth remembering in cutting off branches that they should always be cut close to the trunk or to any main branch, so that the wound may heal over.

HOLY SEPULCHRE CEMETERY. Where the Beautiful Custom of Blessing the Graves Takes Place To-morrow Afternoon.

ORIGIN OF THE ROSARY. An Interesting Legend Associates It With a Garland of Roses. Tracing the origin of the rosary back to times and places far remote, Father Thurston, who read a paper before the Society of Arts, pointed out that it would be a great mistake to suppose that the use of beads for counting prayers was peculiar to the Catholic church or was of comparatively modern date.

At that epoch it was common for both men and women in ordinary life to wear garlands of flowers and to place them as a mark of respect upon the heads of persons and statues. Father Thurston is strongly inclined to believe that its application to the particular devotion now under discussion was mainly due to the popularity of a certain story of a garland which can be traced very much earlier than the word itself in almost every part of the Christian world.

The legend in question is briefly this: A youth was accustomed to make a wreath of roses or other flowers every day and to place it upon the head of Our Lady's statue. He became a monk, and in the cloister his occupations no longer permitted him to observe this pious practice.

Being much distressed, he asked counsel of an aged priest, who advised him to say his Ave's every evening, which would be accepted by Our Lady in lieu of the garland. This the young man faithfully observed until one day while on a journey he had to pass through a lonely wood, where robbers were lying in wait.

Quite unsuspecting of their presence, he suddenly remembered that his Ave's were not yet said and forthwith stopped to say them. Then, to their surprise, the robbers saw a most glorious lady stand before him and take one after another from the lips of the kneeling monk fifty beautiful roses, which she wove into a garland and placed upon her head.

Dodging a Promise. The youthful attorney secured a verdict in favor of the Irishman charged with murder on the ground of temporary insanity. He did not meet his client again for several months, when the following remarks were exchanged between them:

"Well, Pat, isn't it about time you gave me that extra \$200?" "Faith, an' what two hundred is that?" "The \$200 you promised if I saved that worthless neck of yours." "Sure, an' did Oi promise that?"

One Way to Make Change. A struggling, modest lawyer near Stroudsburg, says the Philadelphia Times, received a call from a well to do farmer who was in need of professional advice concerning his rights, which he thought ignored by a section gang on a railroad. The lawyer looked up the statutes, told the farmer exactly what he should do and when asked as to the fee replied, "Well, let's call it just \$3." The farmer passed over a five dollar bill, which seemed to embarrass the lawyer, who searched through his pockets and the drawers of his desk.

HOW TO LEARN TO BREATHE. Muscular Exercises Which Every One Should Undertake. "What on earth are you trying to do, Jim?" The man to whom the question was addressed was standing in the center of the gymnasium clad in the scanty apparel affected by athletes when at work. SALT STARVATION. As Bad as Thirst or Hunger, Although in a Different Way. A well known authority asserts that whenever the annual consumption of salt falls below twenty pounds per head of the population the public health is likely to suffer. In regions of the earth where salt is scarce the article is regarded as a substance of great value.
