National Theatre.

That old time favorite, "Shores Acres" which is now in its twelfth successful season, will be at the National Theatre the first half of next week, with matinees Monday and Wednesday. This play has long been accepted as an American classic. "Robert Emmet, the Days of 1803" a well written historical drama dealing with happenings in Ireland during the time of the famous revolution led by Emmet against English rule, will be the attraction at the National Theatre the latter half of next week, with matinees Thursday and Saturday. This play has a record of over 150 nights in New York, and as a very capable company, headed by Roberts Conness, has been chosen for this season, a very creditable entertainment is anticipated. A sparkling romance interwoven with a story of the stirring times when Emmet and his insurgents were active, is the way the play has been described. There are a number of big settings required for the proper presentation of the play and full justice has been done in the way of stage settings. The time of the play permits handsome costuming and the company is all that could be asked.
