John W. Osborn.

To-day readers of this paper we wish to place forward several pertinent reasons why John W. Osborn should be elected

It is conceded by every fairminded man that politics should not enter our schools and we heartily agree with that view. John W. Osborn has never been accused of being a politician and his worst enemy can not place that charge at his door. Mr. Osborn is appractical educator and believer in giving children of the masses a thorough grading in such studies as will make them fit for for the battle of life; he has no sympathy with the foolish fads introduced into our public school system by which the attention of scholars is turned from the acquir- to what fads it might be wise to ing of spelling, reading, writing, take up. credit to the city as City Scaler, being appointed by the Council in 1897. Two years ago he was elected a member of the council and he has since labored faithfully for the ward in the council. Only at the last council meeting he proposed ordinance, offering for sale a franchise for the street railroad on Joseph Avenue, after working energetically to induce the Rochester Railway Company to extend its tracks in that street to the city line. A short time ago he insisted that a special garbage collection should be given the seventeenth ward and through his energy and influence an inspector with a special wagon was sent through the ward cleaning up the garbage. In numerous other ways he has

always shown a zeal on behalf of of his constituents that make him invaluable to them in the council-

Mr. Lodge has had so many years' experience as the opportunity of securing his services for another term, and indeed, for as many terms as his health and circumstances will permit. ### IS IT ALL RIGHT?

Is the steel well tempered, the wood-work (handles and the like) perfect—in Lehigh Valley brief, is it a good tool? is a question every wideawake mechanic has a perfeet right to ask as to say tool he contemplates purchasing. All we have to say in this connection is that we will stand by any goods we recommend. If they don't prove satisfactory, back they go to the manufacturer.

William Bausch.

William Bausch, of the Seventeenth Ward, who was nominated for School Commissioner is an ideal man for that position. Mr. Bausch did not seek the office and only consented to accept the nomination only after he had been waited upon by a committee of men who, like Mr. Bausch, have the interests of the public schools of Rochester at heart.

Mr. Bausch was born in Rochester in 1861 and was educated in the public schools. Early in life he began work in the factory of Bausch & Lomb and is now a member of that firm. He is widely and favorably known throughout the northeastern section of the city and will add strength to the entire ticket. Mr Bausch has never before been identified with political movements, although his time and money have at all times been used in the interests of public good As a member of the Park Board Mr. Bausch has done considerable

to provide healthful recreation for the people of this city. He has given liberally both of time and money to improving Seneca Park and the Zoo, which has proven so popular with all citizens, particularly the little folk, stands as monument to his untiring efforts in behalf of the city parks. Mr. Bausch is a director of the Rochester Athletic club, a member of the Board of Managers of the State Industrial School, Trustee of the Chamber of Commerce and a member of the German-American Society and several other organizations.

Mr. Bausch is held in high esteem by the army of men employed in the immense optical plant of which he is one of the owners and be will find no more ardent supporters at the polls than these same men, who know his worth by close association.

Vote for Philetus Chamberlain \_ For School Commissioner.

The Democratic party made no mistake in nominating Philetus Chamberlain for School Commissioner. His work in the Board of Osborn for School Commissioner, he is a true friend of the public the schools and is decidedly in favor of a practical course of study. He believes that the grade schools are for the education of the massqualifications, among which is that es and in as much as only about six per cent. of the school childtice and wisdom of granting relief ren go beyond the grammer intendent of schools and teachers be elected by a large majority.
