To raise the necessary funds fo these buildings it has been decided to hold two fairs in Easter week. The east side churches as were told in Bishop McQuaid's pastoral letter published in last week's Journal, will hold their's in Colonial hall and the west side parishes will gather in Fitzhugh hall. Undoubtedly many would prefer to raise the fund by subscription rather than by fair but such is the perversity of human nature that hundreds of persons would sooner take part in a fair with all its incidental discomfort and lack of pecuniary return, than they would to put down their names for subscriptions. This is a commerical age and men prefer to make a pretence, at least, of receiving return for money they invest, whether in charitable enterprises or in purely business ventures.

Taking these influences into consideration it is probable that the fair plan will result in the greater remum erative return for the home and that is the end in view. It is to be hoped that all Catholics will put their shoulders to the wheel and make the fairs the tremendous success they should be. If only ten cents were secured from each oitizen of Rochester the aggregate would yield nearly half what it is estimated the new home will cost.

Unffication.

Whatever the merits or demerits of the educational bill which it is stated is to be rushed through the legislature at Albany, certainly it does not "anify" the educational departments of the state. To "unify" means to fuse into a harmonious whole. The Levis bill does not do that. By a process of indirection it eliminates the Board of Regents from any real voice in the management of the schools of New York state while the powers now
