It seems that the street is a narrow one and St. Joseph's school being situated on that street the laying of a track through it would be considered dangerous for the children attending the school.

**Concerning Summer Underwear**

It would take a whole page of this paper, and very small type at that, if we attempted to go into details as to kinds and qualities and prices of summer underwear here.

These days, when heavy underwear begins to be burdensome, we just want to remind you—and that "you" means men, women and children—of the comprehensive line of Knit Underwear which this store has. Perhaps there is somebody somewhere whom we cannot quite suit but such a person is very exceptional. Between price limits of 7c and \$10 a garment there is a possibility for very great variety.

American, Swiss, French and German manufacturers have been called upon to contribute their best garments. In the Wholesale warehouse there is half of one of the big floors filled with just such Underwear on which retail counters have the call every minute of the day.

And as assortment is superior so are values. As a rule there is always something to be saved by purchasing Underwear at this store.

Underwear sections are in Aisle K, extreme east aisle of the store, also in the Basement.
