CHINA MATTING.
The popularity of this weave, where durability is the chief requisite, is undiminished. We import immense quantities of China Matting annually, in a variety of plain and fancy effects that enable a suitable selection to be made in every case. Those wishing a serviceable and sanitary floor covering for bedrooms are recommended to our stock of China Matting.

JAPANESE MATTING.
Our Japanese friends are quite expert in the production of novel figures and color effects in their matting, and our new importation abounds in quaint and delightful designs. This weave is preferred by many on account of the unique patterns and colorings to be found therein.

FIBER MATTINGS.
The Hodge Fiber Matting has a distinct effect in color that makes them largely sought after in the summer furnishing of rooms. We have them by the yard and also in rugs, varying from a small mat to 9x12 feet in size.

"CREX" GRASS MATTING.
We are particular to use the word "Crex," as it indicates the original and genuine matting, woven from the tough wild grass of the Western prairies. We introduced this matting to the people of Rochester and our good opinion of it has been justified by the steadily increasing demand. It is peculiarly adapted for piazzas and summer cottages, being remarkably durable and showing handsome plain and shaded colors as well as beautiful striped effects. Its attractiveness extends to the price, for it is quite inexpensive, and as we buy in very large quantities, we are able to make special low prices. We can supply "Crex" Grass Matting by the yard in 1 yard, 11-3 yard and 2 yard widths; also, in Rugs 3x5 ft., 4 ft. 6 in. x 7 ft. 6 in., 6 x 9 ft., 8 x 10 ft. and 9 x 12 ft.

A REMINDER.
Referring to Tapestry, Brussels and Velvet Carpets last week we stated that we proposed to give special attention to buyers of these for a short time. We are pleased to note that many have called to take advantage of the inducements, and would remind others that the large stocks still provide ample assortments from which satisfactory selections can be made.
