To-morrow will be a day to be remembered in St. Mary's church, being the celebration of the 82nd anniversary of the ordination to the priesthood of Rev. Father Mulheron. Father Mulheron 82 years ago was ordained from Troy Seminary and was appointed to the pastorate of Churchville and then to Lima. When Rev. Dr.Loughlin gave up the work of St. Mary's, Bishop Mc-Quaid appointed Fr. Mulheron to take up the work that he had begun. The result has been that the parish of St. Mary's has one of the largest churches in the diocese, and the large debt has been diminished so that from now on the worthy pastor need not worry about clearing the debt. Besides lowering the debt Father Mulheron has made numerous and beautiful additions to the church property including a new school house, parochial residence and a large church lot on State St.

The Cook Opera House Stock play entitled "Lady Bountiful". It is a very natural sort of a play with no very "bad" people in it. The character who most nearly approaches being the "villian" is Roat the home of her mother here, has re- derick Heron. He is an impecunions old fellow who has squandered three Miss Anna McKittrick of the Buffalo fortunes. Stand erect. Never loll.

When you walk, walk erect. That is the only way to distinguish man from beast-that he can walk erect. He sprightly. One can be sweet and yet lively. One need not be inane just because one is amiable.

Hold well your character. Let it be above reproach. Let it shine in your eyes.

Do nothing low. Be loyal. Be steadfast. Cling to your faith. And remember that a firm friend is worth

Keep these three qualities: Poise, good nature and loyalty. Never lose your head or your temper. Never become irritated. Preserve a dignified if not a smiling face. Remember that Sunday, June 4th was a red letter day if not a smiling face. Remember that in the life of the fifty-seven boys and one of woman's best weapons is her girls who approached the Holy Table sweet smile. And do not allow it to

> As for your complexion, take care of it. Consider the climate in which you live. In a warm country use drying lotions upon it to keep it from becoming oily. In a cold country let it be treated nightly with unguents. Take care of your skin as you would take care of a child. Treat it according to the country in which you live. Don't expose it unnecessarily and always realize that you are handling something which is very susceptible to good treatment.

#### SECRET OF YANKEE SUCCESS.

Not Confined to Trades of Forefathers Nor Dismayed by Failure.

In that place called Monte Carlo every time the wheel turns and the ball rolls into its place it marks a fresh condition of the game, an absolutely new chance which has not hing whatever to do with what has gone before or is to appear in the future. Each spin is the year one of the bank. Therefore the bank wins. America has appreciated the year

one, and that fact has not been unconnected with Yankee success You will find that a man loses money as a farmer, a mechanic, a book canvasser, and suddenly rises to wealth as a builder. The peg has found the hole at last.

An Englishman, unappreciative of the year one, would have been chained to failure by the precedent of centuries. He would have argued that he had always been a farmer, that his father was a farmer and his uncle a dairyman. Therefore it was plainly impossible that he could ever make money as a builder. In conclusion ..e would have quoted you that falsest of all false proverbs, "A rolling stone gathers no moss."

i say "false" only in the English application of the ancient proverb. For otherwise it is an up-to-date motto enough. The rolling stone of today remains polished and fit for business The stationary stone is liable to accumulate such a quantity of moss that it is only fit for a cushion-to be sat on by all and sundry

There is in America today an exemplification of the principle of the year one in a newspaper proprietor with some eighty thousand pounds a year to his credit. Until he has over fifty years of age he was a farmer, and he went on the road to success. How many of our farmers could change their trade after fifty?--London Ex-

### Breathing Microbes.

In the course of an interesting talk recently on the subject of London fogs, Mr. Sydney Brooks makes some surprsing statements concerning the quality of air that Londoners are compelled to breathe. "For every microbe that you find in mid-ocean air you find 13,000 in the atmosphere of the four-mile radius. Among the mountains, you inhale with every cubic inch of air 31,000 particles; in London, 10,000,000

#### Early History of Sugar.

"Sugar has modified the history of Europe and of the world in more ways than one," says a writer. "Used four centuries ago, almost exclusively in the preparation of medicines, and long afterward an article of luxury only accessible to the rich, it has by enlarged production and cheapened manufacture been brought within the reach of all. The universal use of this practically pure carbohydrate, which is not only a freely burning fuel and proteid sparer but a muscle food, increasing the power of doing work and lessening fatigue, must have had widespread and beneficial effects on the general health. Especially in the case of children, whose greed of sugar is the expression of a physiological want, has that food been valuable in conducing to growth, contentment and well-being."

#### DREAMLAND

Dreamland, the magnificent new resort which has sprung from nothing at old Glen Haven, bids fair to surpass the promised grandeur mentioned by the promoters when they came to Rochester in the winter and promised a transformation. They have worked well, and when the throngs of pleasure lovers take the journey to the well known summer grounds they will wonder that so much has been done.

To tell all that has been done up to date would require an expenditure of space not allowable at this time. management of the amusement enterprise has persuaded the railroad company to double track its system to and from the park, has erected the largest Figure Eight Roller Coaster and the most enormous Giant Caroussel in the land, has laid three acres of concrete walks, has constructed a stupendous elevated circus stage and ring in connection with twin electric towers and a vast band stand, and has scattered about the grounds, a Ferris Wheel, Katzenjammer Castle, Razzle Dazzle, Myth City, Cleopatra Castle, Cave of the Winds, House of Trouble and now is making a frantic struggle to have in readiness for the opening day a very large, handsome and complete vaudeville theatre.
