The Commissioners of the  
Transcontinental Railway,  
Ottawa, Ont.

Gentlemen:—

We have been using the De-Forest System of Wireless Telegraphy during one year, and we are pleased to inform you that we have been perfectly satisfied with its work.

All the messages that we have sent and received through that system, have been accurately sent and received, and we feel that if you will adopt that system, that you will be pleased with the result.

Yours very truly,  
(Sgn.) H. GÖDIN,  
General Manager.

These stations will be the most powerful in the world and will have a capacity of sending or receiving

**50,000 Words Per Day**

which will give a net revenue to the Dominion Company, based upon reducing the present cable charges from 25 cents to

**12 Cents Per Word**

of over

**One Million Dollars Per Annum**

which, with the land stations of the Company, should bring the total net earnings up to over

**\$1,200,000.00 Per Annum**

equal to

**100 Per Cent on the Entire Share Capital**

The Dominion De Forest Wireless Telegraph Company, Limited, is the only Wireless Telegraph Company doing a commercial business in Canada, and it numbers among its customers some of the most prominent business men and corporations in the cities of

**Montreal, Ottawa and Quebec.**

Its business is rapidly increasing, and with the completion of the station at

**Toronto, About March 15,**

it will be in a position to very materially increase its present earning power.

The share capital (\$1,200,000) of the Dominion Company is remarkably low, and for that reason the shares will advance very rapidly in price, and we now predict that within

**One Year from Date**

the shares of the Company will sell for

They that use the system know its value.

Transcontinental Railway Commission,  
Ottawa.

Gentlemen:

This is to certify that we have been using the De-Forest Wireless Telegraph's service, daily for over a month and that it has given us the most complete satisfaction.

I do not hesitate in saying that if you decide to establish wireless station on the eastern section of transcontinental it will be of immediate value for the building of your line.

"Le Canada" gives this testimony freely and with the sole idea of giving your commission correct information.

Yours very truly,  
(Sgn.) GODFREY LANGLOIS,  
Managing Director.

**One Hundred Dollars Each**, which will be based upon the net earnings of the Company. Interest at the rate of 6 per cent. per annum is now paid quarterly on the par value of the shares, and the Fourth Payment will be paid March 15th to all shareholders of record on March 1. The shares, which are **FULL PAID AND NON-ASSESSABLE**, can be bought from us at par, **\$5.00 EACH**, subject to advance without notice.

Your future welfare may depend entirely on your taking advantage of a profitable investment. Invest your idle dollars where they will work for you 24 hours every day. If you comprehend the value of the word "opportunity" you will act at once. Real opportunities only last a short time. Remember: A lost opportunity never returns.

Did it ever strike you that our wealthiest Americans did not accumulate their fortunes by investing their money at 3 or 4 per cent. nor do they keep it on deposit in savings banks? Idle money is useless. They acquired wealth by taking advantage of industrial conditions and invested in stocks of enterprises confronting necessities in constant demand by everybody in every walk of life, and which earn large dividends for their stockholders. Do not let this, the greatest of all opportunities, pass you by. Make it your opportunity.
