With that last touch to its rim, in this satge of its making, the form has grown marvellously more thimblelike in appearance, but somehow it still lack the breath, so to speak, of thimble life; it lacks yet the familiar indenwork on a production for five years tations in its surface that serve to sup-The many friends of Mrs. Stephen before putting it on, yet that is port theneedle and to hold its place. Marphy, organist of St. Mary's church, what Charles E. Blaney, the well-Will be placed to learn that she is reknown playwright and manager, has to make; and the making of these is nice work:

Deadly Trades. Tobacco workers are prone to deadly nervous diseases. I have nevor yet seen a tobacco worker who is not a nervous crank; who is not of. his head," complained the owner of large Bowery cigar factory. "I dun't. know why it is; I used to be a worker myself, and I have never recovered from the effects of the trade. Half the time my men are away sick or dying, they are always Ell-tempered and flighty, and a publie agitation makes idiots of them. I don't know the reasons; as I said." He was advised to consult a physieian and find out.

The foreman in a stone-cutting tio act different from anything that of pure gold, 24 karats fine, metal of yard was better informed as to the has been seen here lately. Aurie the value of about \$600.

"See those dust clouds all ever the yard," he said. "Consumption there! And quick, at that "-Techmical World Magazine.

How an Ant Gove to Bed.

n ant-hill is made of tiny pebbles,

which are piled about an entrance

hole At night the ants take tuess

pebbles in their mouths, and, carrying

them to the hole, pile them one upon

the other, as men build a wall. After

the hole is filled up, except one tiny

place at the top, the last ant crawls

in and with her head pushes sand up

against the hole from the inside, this

stopping it up entirely. Then all night

not an ant will be seen, but about

eight o'clock the next morning, if one

tooks very closely, one may see a pair

of they feelers thrust out through the

clinks between the stones. Then an

ant pushes its way out and behind the first comes anoher, and another,

until the whole family comes journey-
