Take Your Furs to a Furrier for Storage

A serious mistake is often made by owners of fine furs in sending them for storage to dealers who are entirely unfamiliar with the handling of furs—in many cases when the furs are returned they are unsightly, moth and old looking. We care for your furs scientifically and have fire, moth and burglar proof cold storage vaults which enable us to store, insure and care for your furs at a small cost.

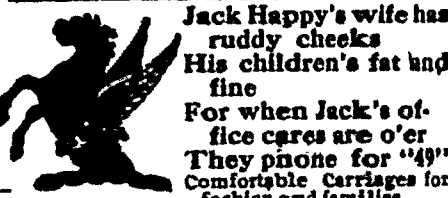

We also call the attention of the public to the fact that a big saving is to be made by ordering new garments now, as during the summer months we can give more careful attention and inducements in price. This applies also to altering and repairing furs. We guarantee style and workmanship at all times.

Our new skin importations have been received and are richer and handsomer than ever before. We invite you to call and see them.

MEN'S "SAMPSON" SHOES

All the wear of a good \$3.50 shoe for \$2.00

Men who buy \$2.00 shoes expect good service in spite of the low price paid. We give it to them in our "Sampson" shoes. The statement that they will wear as well as \$3.50 shoes may seem extravagant, but we are sincere in making it and we have many customers who will say that it is none too strong. They are also made on anything lasts—no one would suspect them of being \$2.00 shoes.

Patent Calf and Tan Shoes have the "Potay" toe—comfortable, dressy and comfortable. Other styles have the popular medium "Ester" toe.

Our patent calf "Sampson" shoe is made from precisely as good leather as good lasting \$3.50 shoes and will give equally good service.

Our "Sampson" \$2.00 shoes practically differ from \$3.50 shoes in the cheaper process of manufacture. They are McKay sewed, while the latter are welted. We believe a trial will convince any man that "Sampson" shoes are the most satisfactory \$2.00 shoes he has ever worn in look, fit and service.
