Put a quantity of stove polish into a dish; add equal parts of water and turpentine and a few drops of varnish; mix this well together and apply with a small paint brush; let the polish dry and then rub briskly with a stove brush. This will give a glossy polish that will last from one spring until the next.

TUBS WERE NOT IN VOGUE. Minute Milky Bath of Other Days Quite a Modest Social Affair. Tubbing is almost as recent a custom as telegraphing.

Married in August's heat and drowse, lover and friend in your chosen spouse.

Married in golden September's glow, smooth and serene your life will go.

Married in days of December cheer, Love's star shines brighter from year to year, says Home Chat.

The Charleston disaster was merely a subsidence of the earth, due to a great cave beneath—and curiously enough the same wires which brought the story of San Francisco's disaster brought also news of the discovery of the Charleston cave.
