CATHOLIC JOURNAL.

COOK OPERA HOUSE.

The bill of vaudeville to be presented next week at the Cook Opera House will have as its topline attraction the Electric Crickets, a dancing act which is said to be the most spectacular turn of the kind ever shown before a Rochester audience. Gorgeous costumes and elaborate electrical effects are said to be distinguishing characteristics of this turn. May Edouin and Fred Edwards will have a protean sketch called "A Bachelor's Dream". In this Edwards dreams of his old sweethearts, and these appear before him personified by Miss Edouin, who assumes six different characters Jack Wilson and Company, colored comedians will present a one-act farce comedy called, "An Upheaval in Darktown." Seymour and Hill a soubrette and an acrobatic comedian will have a nonsense offering entitled "The Mix and the Mixture." Field, and Wooley, German comedians, will have a cross-fire act. Miss Looser, a Rochester girl, will make her first vaudeville appearance. Deltorelli and Ghisando, European musical grotesques, and moving pictures will complete the bill.

Baker Theatre.

"Tennessee's Partner," a play of western life is announced as next week's offering by the Moore Stock Company at the Baker Theatre.

MISS LILLIAN ALBERTSON.

This play is said to present in picturesque guise the people of the west, their life and costumes. The play is said to be rich in lively action and dramatic worth. This is a stage adaptation of a famous story by Bert Harte which has been very successful. Wilson Melrose will impersonate Caleb Swan; David M. Hartford will appear as Tom Romaine and Harry Ingram will impersonate Asa Vice, Caleb's backer. Miss Lillian Albertson will impersonate Tennessee Kent, a sweet whole some mountain girl.

COURT RULES WEARY QUEEN.

Alfonso's Bride Finds Spanish Customs Very Trying.

Before the marriage of King Alfonso and Queen Victoria many people prophesied that she with her fresh, simple unconventionality would be too much for the stiff convention of the Spanish court. Mrs. however, considered that the conventions would be too much for her, says the New York Sun. Accordingly, the latter case appears to be coming true. The young Queen is said to be particularly annoyed at the obstacles put in the way of inviting old friends to stay with her. Some of her closest girl friends who are without the strain of royal blood which the court convention of Spain deems requisite for them were received there as the Queen's guests. King Alfonso was at

Vegetables Under Glass.

There are more than 10,000 establishments in the country for raising early vegetable plants under glass. Within a radius of 15 miles of Boston there are nearly 2,000,000 square feet of glass used in forcing vegetables. Near Providence, R. I., are fully 10 acres of glass for the same purpose. The suburbs of New York, Chicago and other big cities use nearly 5,000,000 square feet of glass for strictly vegetable and early fruit culture, and the glass alone used in thus forcing nature is worth millions. Leslie's Weekly.

Wealth of France.

The population of France is about 40,000,000 people. The wealth of France is nearly \$45,000,000,000. The United States Consul at Marseilles, in some recent statistics, shows how evenly this wealth is distributed. The number of estates administered in 1904 was 394,787, and of these one-half were for values ranging from less than \$10,000 to a little under \$100,000. Only three were over \$10,000,000.

A Snail's Pace.

A snail's rate of travel was ascertained by experiments in Florence. Half a dozen snails were permitted to crawl between two points ten feet apart. Exact time was kept from the start to the finish, and thus the average pace was learned. The figures were then put into tables of feet, yards and furlongs, and it was found that it would take a snail exactly fourteen days to travel a mile.

Negroes Speak Irish Language.

The Irish language is spoken in the Bahamas among the mixed descendants of the Hibernian patriots banished long ago by Cromwell to the West Indies. One can occasionally hear negro sailors in the East End of London who cannot speak a word of English talking Irish to the old Irish apple women who gather round the docks.

His Wish Granted.

When Lord Curzon was appointed Viceroy of India, he completed one of the dreams of his school days. From the time he first knew that "Government house," Calcutta, was a facsimile of his ancestral home, Kedleston Hall, near Derby, he desired to occupy it as Governor General of India.

Wear Glass Bracelets.

According to a recent report by the German Consul General at Calcutta, glass bracelets, which are imported exclusively from Austria, form an important article of trade in India, and are brought in large quantities by the natives, who are, as a rule, too poor to afford gold or silver bracelets.

Inspectors in England.

The City Council of Birmingham, England, has increased the number of women health inspectors from four to twenty, because of the excellent results achieved in the homes of the poor and in the factories. In the same city the policeman have been taught the principles of "first aid."

Widened Kiel Canal.

The ever-increasing dimension of war vessels has led the German Government to conclude to widen the Kiel canal from 60 to 130 feet, and the width at the surface from 130 feet to 350 feet. The proposed improvements, it is estimated, will cost nearly \$50,000,000.

We do job printing of all kinds at reasonable rates. Call and see our samples and get prices.

Queen Victoria of Spain.

her side, but the ladies of the court remained unmoved. So the young Queen wrote to King Edward for advice, which came in the form of a recommendation to be sensible and "respect the people's stupidity when necessary and in time, if you are wise, you will have everything your own way." Another court custom which tries the patience of the young Queen is that she must appear at dinner every evening in full State evening dress. If she appeared at a quiet dinner in the simple evening gown which is favored by all the royal ladies of England at such domestic gatherings the Spanish court would be dumbfounded.

GUIDES TO HEALTH.

In washing the skin of the face it is always best to wash the hands thoroughly, then pour out this water and use perfectly fresh, pure water for the face.

A strong liniment made of belladonna, chloroform and alcohol will often relieve the severe pain in the small of the back known as lumbago.

In case of illness wait until your patient is thoroughly convalescent before attempting to read aloud, and even then allow frequent stops, as the effort of listening is wearing to the debilitated.

One should never go to bed hungry. Morpheus prefers to be treated more hospitably, and objects to that "gone feeling." A cracker or a cup of hot bouillon is a splendid antidote for sleepiness.

Sleep is one of the strongest foundation boards of health and a magic aid to beauty and happiness, and a little attention to the pros and cons will prove well worth while.

Matinees daily, 10, 20, 25c. Box seats 35c Nights, 15, 20, 35, 50c. Box seats 75c

Stratford's on Avon's Gain.

It has been reckoned by an ingenious handler of figures that Stratford on Avon gains \$10,000 a year by Shakespeares. Every year from 20,000 to 30,000 people go to Stratford from all parts of the world, and a trifling average expenditure from each makes up £10,000.

An Australian Custom.

One of the most peculiar customs still retained by Australia aborigines is the mutilation teeth. The boy who wants to be thought a man will often break one of his front teeth.

Renting a Fire Bell.

The fire commission of New Britain, Conn., have decided to continue to rent a church bell rather than buy one, on account of the exceedingly high price of bell metal at present.

Standing Armies.

The first standing army of modern times was established by Charles VII. of France in 1445. In England the first standing army was organized in 1688.
