Watches Bought by the Thousands

As it is a well-known fact that quantity makes price, there is no need of our explaining why a Jewelry House that buys watches by the thousands, can sell them for less money than one that buys them by the dozen. Our reputation as the Largest Watch House in Rochester was gained by our buying and selling more watches than any other firm in the city. There are two reasons for our being able to do this: We sell a better Watch for less money than you can buy elsewhere and we guarantee every Watch to be exactly as represented or money refunded.
